Rachelle Splatt

From Miracle to Menace David Yager, 2019-03-26 A miracle. Coal, oil and natural gas, the carbon-based fossil fuels that powered the Industrial Revolution and civilization's rapid advancement. A menace. Climate change has now convinced many that carbon emissions are the world's greatest challenge. The necessity and benefits of decarbonizing the global industrial and energy complex are well articulated. What is not explained is this will require the largest financial disruption in history, affecting everyone and everything. For over a century Alberta's massive carbon resources have supported Alberta and Canada financially, helping make Canada the world's fifth-largest oil and gas producer. Carbon has been a major driver of prosperity, employment and opportunity, shaping the country we know today. However, climate change is creating enormous challenges for Alberta - and Canada - with no possible outcomes that will satisfy all stakeholders. Alberta has become ground zero for the changes many demand but few are willing to pay for. As the province demonstrates what carbon's future looks and feels like, unless the rest of the world participates Alberta has become a needless sacrifice. *From Miracle to Menace* explains how Alberta came to be, the enormity of the planned financial dislocation, and how Alberta, and Canada, can meet the climate challenge without committing economic suicide.

The Queen of Speed Rachelle Splatt, 2001 The first woman in the world to exceed 300 mph in a dragster--Cover.

International Judging Alexander P. M. van den Bosch, 2020-07-22 We see ten people who once posed as caring for others first. Something changed, and now all these ten care for themselves first and only and the rest could just as well go to hell or die. I am Alexander P M van den Bosch, a Dutch light worker with a mood and a mission. I did my law degrees at a polytechnic and was schooled after I woke up on 8-2-2008, in a very thorough way, theme by theme, all under a military group. That brought me to the courage to write about all and any I care to write about and take their shit for granted. These ten selected by one at huis ten Bosch, wondering how they served the world or how they are gonna (again) after this severe stern analytical text from The Netherlands.
