Fabrigami Jill Stovall, Scott Wasserman Stern, Florence Temko, 2013-12-24 Fold decorative origami objects out of cloth with this easy-to-use origami book. Fabrigami is the Asian art of folding fabrics to create three-dimensional objects ranging from the practical to the whimsical. Like paper, there are countless beautiful fabric designs to choose from, only fabric has the virtue of being extremely durable. Fabrigami began as origami legend Florence Temko's final project. Everyone knows that origami is the art of paper folding, but Temko had begun experimenting with folding fabric to make objects that are just as beautiful but more lasting than paper. Sadly, Temko passed away before the book was completed, but her collaborator, Jill Stovall, continued their work. Now, Stovall—with the help of Scott Stern, a rising young star of origami—brings Fabrigami to print for everyone to use and enjoy. This origami book begins by presenting instructions on how to treat fabric so it holds a shape when folded. Then Stovall shares a series of fun craft projects with simple origami-style diagrams that you can use to make a range of lovely objects. Stiffening the fabric requires some practice, but the folds are all easy enough to be considered origami-for-kids projects and are a great way to learn origami. Cloth origami projects include: Fan-tastic Fold Earrings Evening Wine Coat Florence's Hexagon Box Cloth Kimono Card Pleated Peacock

From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all - Sew magazine A wonderful insight into the work of a truly skilled artist - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and

a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.
