Inside, you'll find beautifully illustrated and highly detailed punch-out pieces and step-by-step instructions for constructing 25 iconic Star Wars vehicles, including the Millennium Falcon, a TIE fighter, and an X-wing. A collectible keepsake fact book contains fascinating story synopses and vehicle details, so you'll discover little-known tidbits about each vehicle as you build the models. Each vehicle also comes with a collectible trading card. Star Wars fans across the spectrum will enjoy assembling and displaying this collection of replica vehicles from a galaxy far, far away.

**Struggling for Leadership: Antwerp-Rotterdam Port Competition between 1870 -2000** Reginald Loyen, Erik Buyst, Greta Devos, 2012-12-06 The present volume contains the proceedings of an international conference on the economic history of the seaports of Antwerp and Rotterdam (1870-2000). This venue was held at Antwerp on 10-11 May 2001 and was hosted by the Antwerp Port Authority. This international conference aimed at confronting the development of both ports. In the course of the last century and a half, economic growth in the ports of Antwerp and Rotterdam has been staggering. Maritime economic historians, economists and geographers alike have investigated the development of both ports extensively, but separately. So far, only a limited number of attempts have been made to analyse Rotterdam-Antwerp port history from a comparative perspective. The papers presented at the conference provide a challenging starting point to - certain how and why both ports reacted differently to virtually the same economic and political stimuli. By bringing together both historians, economists and lawyers with different fields of interest, we have attempted to put the history of the ports of Antwerp and Rotterdam in a broader international and comparative perspective.

**Archaeology at La Isabela** Kathleen A. Deagan, José María Cruxent, 2008-10-01 In this volume, Kathleen Deagan and Jose Maria Cruxent present detailed technical documentation of their ten-year archaeological excavation of La Isabela, America's first colony. The artefacts and material remains of the town offer rich material for comparative research into Euro-American cultural and material development during the crucial transition from the medieval era to the Renaissance. The period when La Isabela was in existence witnessed great innovation and change in many areas of technology. The archaeological evidence of La Isabela's architecture, weaponry, numismatics, pottery and metallurgy can be precisely dated, helping to chart the sequence of this change and revealing much that is new about late medieval technology. The authors' archaeological research also provides a foundation for their insights into the reasons for the demise of La Isabela.

*From Barrow to Boothia* William Barr, 2002-01-23 Over a three-year period from 1837 to 1839, operating from a base-camp at Fort Confidence on Great Bear Lake, the expedition achieved its goal. Despite serious problems with sea ice, Dease and Simpson, in some of the longest small-boat voyages in the history of the Arctic, mapped the remaining gaps in a model operation of efficient, economical, and safe exploration. Thomas Simpson's narrative, the standard source on the expedition, claimed the expedition's success for himself, stating Dease is a worthy, indolent, illiterate soul, and moves just as I give the impulse. In *From Barrow to Boothia* William Barr shows that Dease's contribution

was absolutely crucial to the expedition's success and makes Dease's sober, sensible, and modest account of the expedition available. Dease's journal, reproduced in full, is supplemented by a brief introduction to each section and detailed annotations that clarify and elaborate the text. By including relevant correspondence to and from expedition members, Barr captures the original words of the participants, offering insights into the character of both Dease and Simpson and making clear what really happened on this successful expedition.

West Dickens Avenue John Corbett, 2004-02-03 In January 1968, John Corbett and his fellow leathernecks of the 26th Marine Regiment fortified a remote outpost at a place in South Vietnam called Khe Sanh. Within days of their arrival, twenty thousand North Vietnamese soldiers surrounded the base. What followed over the next seventy-seven days became one of the deadliest fights of the Vietnam War—and one of the greatest battles in military history. Private First Class Corbett made do with little or no sleep for days on end. The enemy bombarded the base incessantly. Extremes of heat, cold, and fog added to the misery, as did all manner of wounds and injuries too minor to justify evacuation from frontline positions. The emotional toll was tremendous as the Marines saw their friends suffer and die every day of the siege. Corbett relates these experiences through the eyes of a twenty-year-old but with the mind and maturity of a man now in his fifties. His story of life, death, and growing up on the front lines at Khe Sanh speaks for all of the Marines caught up in the epic siege of the Vietnam War.

**Slavery Obscured** Madge Dresser, 2016-10-06 *Slavery Obscured* aims to assess how the slave trade affected the social life and cultural outlook of the citizens of a major English city, and contends that its impact was more profound than has previously been acknowledged. Based on original research in archives in Britain and America, this title builds on scholarship in the economic history of the slave trade to ask questions about the way slave-derived wealth underpinned the city of Bristol's urban development and its growing gentility. How much did Bristol's Georgian renaissance owe to such wealth? Who were the major players and beneficiaries of the African and West Indian trades? How, in an ever-changing historical environment, were enslaved Africans represented in the city's press, theatre and political discourse? What do previously unexplored religious, legal and private records tell us about the black presence in Bristol or about the attitudes of white seamen, colonists and merchants towards slavery and race? What role did white women and artisans play in Bristol's anti-slavery movement? Combining a historical and anthropological approach, *Slavery Obscured*, seeks to shed new light on the contradictory and complex history of an English slaving port and to prompt new ways of looking at British national identity, race and history.

**A Gentleman of Color** Julie Winch, 2003-06-05 Winch has written the first full-length biography of James Forten, a hero of African American history and one of the most remarkable men in 19th-century America. Born into a free black family in 1766, Forten served in the Revolutionary War as a teenager. By 1810 he had earned the distinction of being the leading sailmaker in Philadelphia. Soon after Forten emerged as a leader in Philadelphia's black community and was active in a wide range of reform activities. Especially prominent in national and international antislavery movements, he served as vice-president of the American Anti-Slavery Society and became close friends with William Lloyd Garrison to whom he lent money to start up the *Liberator*. His family were all active abolitionists and a granddaughter, Charlotte Forten, published a famous diary of her experiences teaching ex-slaves in South Carolina's Sea Islands during the Civil War. This is the first serious biography of Forten, who stands beside Harriet Tubman, Frederick Douglass, Booker T. Washington, and Martin Luther King, Jr., in the pantheon of African Americans who fundamentally shaped American history.

**The Diligent** Robert Harms, 2008-08-05 The slave trade is one of the best known yet

least understood processes in our history. The popular image of traders in slave ships going to Africa and rounding up slaves as if they were cattle is not only historically inaccurate, it also disguises the fact that the slave trade was a highly organized Atlantic-wide system that required close collaboration at the highest levels of government in Europe, Africa, and the New World. Using the private journal of First Lieutenant Robert Durand, and supplementing it with a wealth of archival research, Yale historian Robert Harms re-creates in astonishing detail the voyage of the French slave ship *The Diligent*. We have histories of the slave trade, most recently Hugh Thomas's massive and authoritative *The Slave Trade*, but *The Diligent* is something entirely different: a deep bore into the economic, political, and moral worldviews of the participants on all sides of the trade, complete with a vivid *dramatis personae*. Nobody who reads this book will ever look at the slave trade in the same way again.

*Lady in the Navy* Estate of: Joy B Hancock, 2012-10-11 When legislation was passed in 1948 giving women permanent status in the regular and reserve Navy, it was largely due to the efforts of Joy Bright Hancock, the author of this revealing memoir. Her prominent role was acknowledged at the time by the secretary of the navy who credited her ideals, energy, and enthusiasm as the moving force behind the historic integration of women into the U.S. Navy, including the 1942 establishment of the WAVES (Women Accepted for Volunteer Emergency Service). This personal account of those formative years has long been considered the best study available. Originally published in 1972 and out of print for nearly twenty-five years, it is now being reissued in paperback to commemorate the sixtieth anniversary of the birth of the WAVES. Hancock's own work as a Yeoman in World War I offered the armed services a lesson in the benefits of having women in uniform. Her descriptions are eye opening of those early days and her later efforts, when finally in a position of authority, to argue the case for women. With a wealth of documentation and numerous photographs, she chronicles not only her career but also the evolution of Navy women, offering colorful details of the legislative battles to get women admitted into the regular Navy. She reminds us that although it was not until 1967 that the last restriction of rank was removed, WAVES always served with equal pay for equal work. This new edition of her book will introduce generations of Americans to the problems of establishing a place for women in the Navy and details of Hancock's dogged pursuit of fair treatment for women in the armed services.

*Enclosing the Commons* Richard Apostle, Bonnie J. McCay, Knut H. Mikalsen, 2002 In 1991 the Atlantic groundfish fishery in Nova Scotia and southern New Brunswick experienced diminishing resources and overcapacity in the inshore mobile-gear fleet. The Canadian Department of Fisheries and Oceans instituted individual quotas (IQs) for this sector of the fishery. Soon thereafter the IQs became individual transferable quotas (ITQs). *Enclosing the Commons* explores the industrial micropolitics associated with the creation of the ITQ Group and the push to reduce overcapacity through economic concentration of quota shares. This important study provides the first critical examination of an ITQ approach to fisheries management.

**South with Endurance** Frank Hurley, 2001 The definitive collection of Frank Hurley's amazing photos from Shackleton's Antarctic expedition is the first book to reproduce all the surviving expedition photos, some of which have never been published. Over 450 photos.

**The Terror Before Trafalgar** Tom Pocock, 2013-06-07 Nelson's victory at Trafalgar on 21 October 1805 was a pivotal event in European history. But Trafalgar was not simply an isolated battle fought and won in an afternoon - the naval campaign had in fact begun more than four years before. This extraordinary period, following Napoleon's threat to invade England in 1801, came to be known as The Great Terror, and Britain was on the alert. As the Grande Armée faced a Dad's army of English volunteers across the Channel, a

secret war of espionage and subversion was fought in the shadows. New weapons - rockets, submarines and torpedoes - were developed. Drawing on diaries, letters and newspapers, Tom Pocock paints a vivid picture of the years from 1801 to 1805, and of people caught up in these events: Nelson himself as he blockaded the French at sea for two unbroken years, his love Emma Hamilton waiting at home, Jane Austen and her naval brothers, the diarist Fanny Burney, the admirals, generals and politicians, as well as the lesser-known men such as Fulton, Congreve, Moreau and Pichegru who waged the secret war on either side of the Channel. *The Economist* Engrossing... The Terror Before Trafalgar is narrative history at its shining best. Peter Padfield, *BBC History* Tom Pocock is the doyen of Nelson scholarship in our time... Pocock has provided a fascinating cast of characters as outstanding in their way as Nelson... *Sunday Times* Pocock adds fresh lustre to his reputation as our leading authority on Nelson with this study of the threat of a Napoleonic invasion that convulsed Britain Richard Woodman, *Lloyd's List* Mr. Pocock is perhaps the world's leading authority on the great admiral... Mr. Pocock's book is a lucid exposition of this vibrantly exciting period... Nicholas Fearn, *Independent on Sunday* A superb contribution...

**Always at Sea** Mary Wardle, 2002 Tale of a sailor from boy to captain during early 20th century

**The Story of Sail** Veres László, Richard Woodman, 1999 From the earliest known craft of ancient Mesopotamia and Egypt to the final surviving sailing ships of this century, every major step in the development of sailing is beautifully illustrated in this handsome large-format book. 1,000 highly detailed scale drawings & 16 color plates.

*History of Ships* Bernard Ireland, 2000-05 This is a comprehensive history and reference work, chronicling the development of world shipping. As well as describing advancements in shipping, the author has included a number of sea battles which are significant because the results of these encounters were to shape the course of world history. Over 200 photographs and informative artworks, including cross-sections of seminal ships throughout the ages and featuring important ship builders and designers are included.

**Ordeal by Exocet** Ian Inskip, 2012 HMS Glamorgan was in the thick of the fighting throughout the war. While attacking the enemy, Glamorgan faced missiles, bombs, shells and rockets. Personal accounts recall these attacks, and other operations including the Pebble Island raid. All the Exocet attacks on the Battle Group are included, culminating with the desperate fight to save the ship, which came perilously close to sinking. The aftermath and the trauma experienced by those who lost shipmates brings home the gruesome reality of war.

**Mad Jack Percival** James H. Ellis, 2018-09 The colorful Captain John Mad Jack Percival was a legend in his time. Known as a seaman of uncommon ability and fearlessness, he led such an extraordinary life that he drew the attention of the famous novelists Hawthorne, Melville, and Michener. The fact that his first and last ships are national shrines has only enhanced his reputation. Percival's naval career began in 1797 when he was impressed into British naval service aboard the HMS Victory and ended in 1846 after taking the USS Constitution on her only around-the-world cruise. This book draws from unpublished journals, letters, and logs to provide previously unknown details about his adventures and the formative years of the U.S. Navy. Hailing from Cape Cod and recognized by Congress for meritorious action in the War of 1812, Mad Jack fought against the French and British and had the Constitution off the coast of Mexico when war with that country broke out. In between he chased West Indies pirates and Globe mutineers, tussled with South Pacific chieftains, policed distant American whalers and merchantmen, charted unknown waters, quarreled with missionaries, educated and trained midshipmen, and skirmished with local forces in what is now Vietnam. This work is just as entertaining as the tall tales about this heroic figure spun by generations of

seamen, but it is completely true.
