3D Laser Scanning for Heritage Clive Boardman, Paul Bryan, 2018 The first edition of 3D Laser Scanning for Heritage was published in 2007 and originated from the Heritage3D project that in 2006 considered the development of professional guidance for laser scanning in archaeology and architecture. Publication of the second edition in 2011 continued the aims of the original document in providing updated guidance on the use of three-dimensional (3D) laser scanning across the heritage sector. By reflecting on the technological advances made since 2011, such as the speed, resolution, mobility and portability of modern laser scanning systems and their integration with other sensor solutions, the guidance presented in this third edition should assist archaeologists, conservators and other cultural heritage professionals unfamiliar with the approach in making the best possible use of this now highly developed technique.

Understanding Media Marshall McLuhan, 2016-09-04 When first published, Marshall McLuhan's Understanding Media made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

International Communism and the Spanish Civil War Lisa A. Kirschenbaum, 2015-07-28 International Communism and the Spanish Civil War provides an intimate picture of international communism in the Stalin era. Exploring the transnational exchanges that occurred in Soviet-structured spaces - from clandestine schools for training international revolutionaries in Moscow to the International Brigades in Spain - the book uncovers complex webs of interaction, at once personal and political, that linked international communists to one another and the Soviet Union. The Spanish Civil War, which coincided with the great purges in the Soviet Union, stands at the center of this grassroots history. For many international communists, the war came to define both their life histories and political commitments. In telling their individual stories, the book calls attention to a central paradox of Stalinism - the simultaneous celebration and suspicion of transnational interactions - and illuminates the appeal of a cause that promised solidarity even as it practiced terror.

Trash Andy Mulligan, 2010-10-12 In an unnamed Third World country, in the not-so-distant future, three "dumpsite boys" make a living picking through the mountains of garbage on the outskirts of a large city. One unlucky-lucky day, Raphael finds something very special and very mysterious. So mysterious that he decides to keep it, even when the city police offer a handsome reward for its return. That decision brings with it terrifying

consequences, and soon the dumpsite boys must use all of their cunning and courage to stay ahead of their pursuers. It's up to Raphael, Gardo, and Rat—boys who have no education, no parents, no homes, and no money—to solve the mystery and right a terrible wrong. Andy Mulligan has written a powerful story about unthinkable poverty—and the kind of hope and determination that can transcend it. With twists and turns, unrelenting action, and deep, raw emotion, *Trash* is a heart-pounding, breath-holding novel.
