Artificial Hells Claire Bishop, 2012-07-24 Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as social practice. Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

The Histories & The Annals Tacitus, 2018-11-02 *The Histories* is a Roman historical chronicle and it covers the Year of Four Emperors following the downfall of Nero in 68 AD, a year in the history of the Roman Empire in which four emperors ruled in succession: Galba, Otho, Vitellius, and Vespasian. The mode of their accession showed that because imperial power was based on the support of the legions, an emperor could now be chosen not only at Rome, but anywhere in the empire where sufficient legions were amassed. The style of narration is rapid, reflecting the speed of the events. The narrative rhythm leaves no space to slow down or digress. To write effectively in this style, Tacitus had to summarize substantial information from his sources. *The Annals* is a history of the Roman Empire from the death of Augustus to that of Nero, the years AD 14–68, covering the reigns of Tiberius, Caligula, Claudius and Nero. As a senator, Tacitus had access to *Acta Senatus*, the Roman senate's records, thus providing a solid basis for his work. Along with *The Histories*, *The Annals* provide a key source for modern understanding of the history of the Roman Empire during the 1st century AD.

**Tanks of Hitler's Eastern Allies 1941–45** Steven J. Zaloga, 2013-04-20 The titanic armor battles of the Russian Front are widely known, but the role of Germany's eastern allies is not as well known. Two of these countries, Romania and Hungary, manufactured their own tanks as well as purchasing tanks from Germany. These ranged from older, obsolete types such as the PzKpfw 35(t) all the way up to the latest and best German vehicles including the Tiger I and Hetzer. These tanks played a frequent role in the battles in southern Russia and Ukraine and were especially prominent in the disaster at Stalingrad where the Red Army specifically chose the weaker Romanian and Hungarian salients for their critical envelopment operation. This *New Vanguard* will provide a broad survey of the various and colorful tanks used. Besides covering the largest of these Axis tank forces, this book will cover the many smaller and lesser known forces including the Italian contingent in Russia, the Finnish armored force, and the small but interesting armored forces of the Russian Vlasov (RONA), Croatian, Bulgarian and Slovakian armies. This subject is seeing increasing interest in the modeling world; for example Tamiya recently announced a PzKpfw 35 (t) (suitable for Romanian, Slovak armies) a Finnish StuG III, and a Finnish BT-42.

*Tigers in the Mud* Otto Carius, 2020-02-01 WWII began with a metallic roar as the German Blitzkrieg raced across Europe, spearheaded by the most dreaded weapon of the 20th century: the Panzer. No German tank better represents that thundering power than the infamous Tiger, and Otto Carius was one of the most successful commanders to ever take a Tiger into battle, destroying well over 150 enemy tanks during his incredible career.

*Panzer 38(t)* Steven J. Zaloga, 2014-10-20 This title offers a detailed study of a successful but little-known German tank of World War II, the Panzer 38(t). Germany's annexation of Czech provinces in 1938 gave it control of the large Czech armament industry, one of the jewels of which was the very modern LT 38 tank. The type was fully integrated into the Wehrmacht as the Panzer 38(t), becoming one of the few foreign designs to continue in production for the Wehrmacht. It was an important element in the 1940 battle of France, and its most famous use was in the hands of Rommel's 7. Panzer Division. The Panzer 38(t) became one of the key weapons in the German invasion of Russia in the summer of 1941, and was widely used in the Eastern Front campaigns of 1941–42. This illustrated study gives a uniquely detailed account of the technical history and combat record of one of the most successful early World War II tanks.

Anagram Solver Bloomsbury Publishing, 2009-01-01 *Anagram Solver* is the essential guide to cracking all types of quiz and crossword featuring anagrams. **French Cruisers, 1922–1956** Jean Moulin, John Jordan, 2013-03-04 A technical analysis and pictorial history of the French navy cruisers built in the early to mid-twentieth century. The French produced some of the most striking and innovative interwar cruiser designs. A large amount of new information about these ships has become available over the past twenty years in France, but this book is the first to make this accessible to an English-speaking readership. Part I explains the design philosophy behind each of the classes built after 1922, and outlines the characteristics of each type, accompanied by detailed data tables and a comprehensive set of specially-drawn plans based on official documents, as well as carefully-selected photographs. Coverage includes the *De Grasse*, laid down in August 1939 and completed postwar as an AA cruiser, and also the heavy cruisers of the *Saint Louis* class intended to follow her, about which little has been published. Part II deals with the historical side, covering not only the eventful careers of these ships, but also explaining the peacetime organization of the *Marine Nationale*, the complex politics of this turbulent period and their impact on the navy. Like its highly successful predecessor, *French Battleships*, this beautifully presented book subtly blends technical and historical analysis to produce what must become the standard reference work. Praise for *French Cruisers* “A clearly-written and excellently presented book which, particularly with respect to its technical descriptions, explains its chosen subject area in a convincing and comprehensive fashion. The authors are to be commended for their achievement in

bringing knowledge of a previously sparsely-covered subject to an English language readership.” –Warship Annual 2014

**The Kaiser's Battlefleet** Aidan Dodson,2016-11-30 This illustrated study of the German Imperial Navy presents a ship-by-ship history from the dreadnaught era through WWI. The battleships of the Third Reich have been written about exhaustively, but there is little in English devoted to their predecessors of the Second Reich. In The Kaiser's Battlefleet, Aidan Dodson fills this significant gap in German naval history by covering these capital ships and studying the full span of battleship development during this period. Kaiser's Battlefleet presents a chronological narrative that features technical details, construction schedules and the ultimate fates of each ship tabulated throughout. With a broad synthesis of German archival research, Dodson provides fresh data and corrects significant errors found in standard English-language texts. Heavily illustrated with line work and photographs drawn from German sources, this study will appeal to historians of WWI German as well as battleship modelmakers.

*Achtung-Panzer!* Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*Formula One* John Smailes,2021-11-02 Since 1950, fifteen Australians and nine New Zealanders have raced in world championship Formula One, the pinnacle of motor racing. Three - Jack Brabham, Denny Hulme and Alan Jones - have won the world title. Two have died in the attempt without ever facing the world championship starters' lights. So few drivers make it to Formula One. Ever fewer succeed in the fastest and most challenging four-wheeled sport of all. Now John Smailes, author of the bestselling Climbing the Mountain, Race Across the World, Mount Panorama and Speed Kings, gives us the definitive story of our involvement with Formula One, from the pioneer days in the aftermath of World War II, to the championship glory of Brabham, Hulme and Jones, the grit and determination of Mark Webber, and Australia's current Formula One star, the irrepressible Daniel Ricciardo, all the way to potential champions of the future like Oscar Piastri. With over 150 stunning photographs, and interviews with drivers past and present, as well as the engineers, managers and team owners behind the scenes, this is the must-have book for every Australian and New Zealand fan of Formula One.

Jagdpanzer 38 'Hetzer' 1944-45 Hilary Doyle,Tom Jentz,2001-01-25 The Jagdpanzer 38 is one of the best known German armoured fighting vehicles from World War II. Rushed into series production in the record time of less than four months, it was instantly recognisable by the sleek appearance created by its well-sloped armour. Many experts in post-war armour hold the opinion that this tank destroyer was just the answer to Germany's problem of dealing with the numerically superior American M4 Medium tank (known to the British Army as the Sherman) and the Russian T-34.

**The Maharajas & Their Magnificent Motor Cars** Gautam Sen,2011-08-01 This book is a full history of the automobile in India, and gives a complete study of India's automotive elite, The Majarajas, who purchased many exotic and exclusive cars from British, European, and American car makers mainly before their independence in 1947. Packed with interest and insight, there are 592 photos both period and contemporary, including the 1912 Brooke Swan (bodywork inspired by a swan). This book has been written by a leading expert Indian author who has meticulously studied the subject.
