Tatra - The Legacy of Hans Ledwinka Ivan Margolius, John G. Henry, 2020-01-28
Tatra – The Legacy of Hans Ledwinka is the story of the Tatra company, which originated in the Central European country of Czechoslovakia. It is a tale of great innovation and avant-garde design in automobile engineering. It is also the story of one man – Hans Ledwinka – and his visionary concepts which have become highly influential, although often undervalued, contributions to the development of car technology. Until now, Hans Ledwinka's talent has hardly been recognised; in retrospect, he can be judged equal to car designers such as Benz, Daimler and Porsche, whose endeavours have been fully recorded many times over. With his revolutionary Tatra cars, Ledwinka consistently pushed back the frontiers of automobile construction, and it's certain that without his inspiration, the Volkswagen in its air-cooled rear-engined form would perhaps never have been conceived. This book suggests that Ledwinka played a greater part in this development than has previously been appreciated. The authors have covered the full history of the Tatra company, which is one of the oldest factories in continuous automobile manufacture, dating back to the 19th century. By doing this, they have placed both Ledwinka and the Czechoslovak Tatra company in their rightful place in the history of car design, and provided a fully comprehensive assessment of the influence of

Tatra car designs and their inspired creator. The text of this larger format 2nd edition has been fully revised and updated since the 1990 edition. This new edition also contains many additional illustrations. The book also has a new foreword, written by Norman Foster, the British architect, and proud owner of a Tatra T87, who pays tribute to the aesthetic qualities of this design classic and captures the fascination of both designers and motor historians with the development of Tatra.

Ferrari 250 Gte David Wheeler,2020-09 First seen as the course car at the 1960 Le Mans 24 hour race, the elegant Ferrari 250 Gran Turismo 2+2 Pininfarina, or GTE as it has become known, was Ferrari's first four-seat production car and an outstanding commercial success, underwriting the company's racing activity. Built upon the same running gear as the iconic Ferrari 250 two-seaters, the GTE continued in production until 1963, by which time 954 examples had been built. Initially popular as a gentleman's express, the car was typically finished in conservative colours which emphasised its stunning lines.But after a few years and several owners they were sadly often

neglected and came to be regarded simply as donors upon which to build replicas of other Ferraris. Thanks to the efforts of a number of enthusiastic owners who have dedicated themselves to maintaining, restoring and preserving these wonderful cars, about half of them still exist today as GTEs, valued for their beauty and history. In researching this definitive history of the model, the author consulted with respected Ferrari historians, enjoying access to their archives. He traveled extensively to view and document more than 125 examples of these cars around the world. The book is published in a limited edition of 750 copies to celebrate the 60th birthday of the three Series of the 250 GTE.
