Jue 477 Martin Port,2020-09 Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

What You Have Heard is True Carolyn Forché,2019 Describes the author's deep friendship with a mysterious intellectual who introduced her to the culture and people of El Salvador in the 1970s, a tumultuous period in the country's history, inspiring her work as an unlikely activist.

Modi and the Reinvention of Indian Foreign Policy Hall, Ian,2019-09-25 Narendra Modi's energetic personal diplomacy and promise to make India a 'leading power' surprised many analysts. Most had predicted that his government would concentrate on domestic issues, on the growth and development demanded by Indian voters, and that he lacked necessary experience in international relations. Instead, Modi's first term saw a concerted attempt to reinvent Indian foreign policy by replacing inherited understandings of its place in the world with one drawn largely from Hindu nationalist ideology. Following Modi's re-election in 2019, this book explores the drivers of this reinvention, arguing it arose from a combination of elite conviction and electoral calculation, and the impact it has had on India's international relations.

Paratransit in African Cities Roger Behrens,Dorothy McCormick,David Mfinanga,2015-09-07 Public transport systems in contemporary Sub-Saharan African cities are heavily reliant upon paratransit services. These services are defined as informal transportation which operates between the public and individual private spheres. In Africa paratransit is characterized by low quality of vehicles and chaotic management but it also provides cheap, accessible and flexible transport solutions for the urban poor. It is typically poorly regulated and operates as a set of informal businesses. A common result of weak public sector regulation and a fare strategy in which owners claim a fixed daily revenue target and drivers who keep the variable balance as income, is destructive competition and poor quality of service. There is an incontrovertible case for improving the quality, reliability and coverage of public transport systems, and some city governments have attempted to do so by initiating reform projects that envisage the phased replacement of paratransit operations with formalised bus rapid transit systems. In this book the authors argue that there are, however, path dependencies and constraints that limit the possible extent of public transport system reform. Paratransit operations also have some inherent advantages with respect to demand responsiveness and service innovation. Attempts to eradicate paratransit may be neither pragmatic nor strategic. Two future scenarios are likely: hybrid systems comprised of both paratransit and formally planned modes; and systems improved by upgrades and strengthened regulation of existing paratransit services. The business strategies and aspirations of incumbent paratransit operators in three case cities – Cape Town, Dar es Salaam and Nairobi – are discussed, as well as their attitudes towards emerging public transport reform projects. International experiences of hybrid system regulation and paratransit business development are reviewed in order to explore policy options. The authors contend that policies recognising paratransit operators, and seeking contextually appropriate complementarity with formalised planned services, will produce greater benefits than policies ignoring their continued existence.

The Wild Twins Amber Shine,Serena Shine,2021-11-01 Twin sisters Amber and Serena Shine on strength, survival and a lifetime seeking adventure Amber and Serena Shine have wild in their blood. From their first steps, the twins set out from their family farm in rural Waiuku with the bush and mountains in sight. Together they've run the world's highest marathon on Mount Everest, walked jaguars in the Amazon, sailed treacherous seas from Hawai'i to San Francisco, navigated ice falls while climbing Mount Cook, raced 322 kilometres on a dogsled, and survived naked in the African wilderness for twenty-one days on the hit Discovery show Naked and Afraid. In The Wild Twins, Amber and Serena share their most extreme achievements, the secrets behind their strength and endurance, and advice on living life to its fullest. With go-getter attitudes, perseverance and fearlessness, these inspiring sisters are all about getting outdoors and reaching your potential - returning home covered in mud and with a story to tell.

Inside the Mind of Toyota Satoshi Hino, 2005-11-28 Winner of a Shingo Research and Professional Publication Award Toyota's sustained growth attracts the attention of economists and industrialists around the world eager to learn the secrets of Toyota's lasting success. In *Inside the Mind of Toyota: Management Principles for Enduring Growth*, Satoshi Hino examines the source of Toyota's strength: the fundamental thinking and management structures that lie beneath the creation of its famed Toyota Production System. From the perspective of a professional with 30 years experience in the auto industry, Hino presents a fresh and detailed analysis of Toyota's essential management system, from its very beginnings into the 21st century. The ultimate goal is not simply to mimic Toyota's formula, but to learn from it and, in doing so, surpass it. From the Translator's Foreword: Unlike most Toyota watchers, Hino urges us to set our sights not on replicating Toyota's success, but on surpassing it. This point is crucial, because it moves our attention away from slavish imitation of what is visible on the surface and challenges us to tap into deeper and more powerful mechanisms of excellence. This is not a cookbook and it is not 'Toyota Lite.' It deserves serious study, application and experimentation. Learn how Toyota thinks, Hino is telling us. Learn Toyota's strengths, make them your own and then exceed them. –Andrew Dillon, September

Sandworm Andy Greenberg, 2020-10-20 With the nuance of a reporter and the pace of a thriller writer, Andy Greenberg gives us a glimpse of the cyberwars of the future while at the same time placing his story in the long arc of Russian and Ukrainian history. –Anne Applebaum, bestselling author of *Twilight of Democracy* The true story of the most devastating act of cyberwarfare in history and the desperate hunt to identify and track the elite Russian agents behind it: [A] chilling account of a Kremlin-led cyberattack, a new front in global conflict (Financial Times). In 2014, the world witnessed the start of a mysterious series of cyberattacks. Targeting American utility companies, NATO, and electric grids in Eastern Europe, the strikes grew ever more brazen. They culminated in the summer of 2017, when the malware known as NotPetya was unleashed, penetrating, disrupting, and paralyzing some of the world's largest businesses—from drug manufacturers to software developers to shipping companies. At the attack's epicenter in Ukraine, ATMs froze. The railway and postal systems shut down. Hospitals went dark. NotPetya spread around the world, inflicting an unprecedented ten billion dollars in damage—the largest, most destructive cyberattack the world had ever seen. The hackers behind these attacks are quickly gaining a reputation as the most dangerous team of cyberwarriors in history: a group known as Sandworm. Working in the service of Russia's military intelligence agency, they represent a persistent, highly skilled force, one whose talents are matched by their willingness to launch broad, unrestrained attacks on the most critical infrastructure of their adversaries. They target government and private sector, military and civilians alike. A chilling, globe-spanning detective story, Sandworm considers the danger this force poses to our national security and stability. As the Kremlin's role in foreign government manipulation comes into greater focus, Sandworm exposes the realities not just of Russia's global digital offensive, but of an era where warfare ceases to be waged on the battlefield. It reveals how the lines between digital and physical conflict, between wartime and peacetime, have begun to blur—with world-shaking implications.

The Frightened Ones Dima Wannous, 2021-05-25 Out of the blue, Suleima's lover sends her a book he has written. Might this be the moment she finally feels she can understand him? An electrifying new voice from contemporary Syria on life in a climate of fear Suleima and Nassim first meet in their therapist's tiny waiting room in Damascus. In the city's atmosphere of surveillance and anxiety, they begin a tenuous relationship. Some years later, after civil war breaks out, Nassim leaves Syria for Germany. He doesn't ask Suleima to come with him; instead, from thousands of miles away, he sends her a book he has written, a novel about a woman whose experiences are very close to her own. As Suleima reads, her past overwhelms her. Time begins to fold in on itself, her sense of identity unravels, she has no idea what to trust – Naseem's pages, her own memory – both – or neither? As she attempts to solve the mystery of her lover's manuscript, she must confront what has happened to her family, to her country, and start to make sense of who she is and what she has become. Bold, contemporary, and told with captivating immediacy, *The Frightened Ones* is an intimate reckoning of living with fear from an electrifying new voice.
