**Sauber-Mercedes C9** Ian Bamsey,2007-02-01 The Mercedes sports-prototype of the late 1980s arguably came closer than any other car of the era to recapturing the spirit of the original 'Silver Arrows' of the 1930s. This stunning, fully enclosed, twin turbo, V8 sports-racing car took on the might of Porsche and Jaguar, and, notwithstanding opposition from the likes of Aston Martin, Nissan and Toyota, beat them all! This book is a detailed analysis of the famous C9 racing car, built by the Swiss firm of Sauber, which brought the might of Mercedes back into international motor racing for the first time in over thirty years. The author was present at the time and enjoyed the keen cooperation of the engineers at the heart of the project.

**SAUBER-MERCEDES - The Group C Racecars 1985-1991** John Starkey,2022-01-10 An in-depth study of the Sauber-Mercedes racecars that dominated the Group C racing scene during the late 1980s and early 1990s. When Peter Sauber started using Mercedes V8 engines in his Group C sports cars in 1985 the result was World Championship wins in 1989 and 1990. Utterly dominant, the three-pointed star of Mercedes beat the TWR Jaguars and Nissans, and introduced a certain M Schumacher into the factory team in 1990. This book features interviews with many of the personalities who raced with the Sauber-Mercedes team, including Jochen Mass, Mauro Baldi, Kenny Acheson, David Price, Bobby Bell and Leo Ress. A host of magnificent colour photographs backs up the history and development of the cars. Also included is a chassis-by-chassis history of each individual car.

**Le Mans 1980-89** Quentin Spurring,2014-09-15 Le Mans hosted the fastest racing cars on the planet, top speeds on the world-famous Mulsanne straight exceeding 250mph for the first time in 1988. This decade's new Group C regulations challenged motorsport engineers to achieve race-winning engine performance while saving fuel, fostering the original rationale of this historic event as a proving ground for emerging automotive technologies. It accelerated the development of control electronics and aerodynamics, and soon increasingly sophisticated racing coupés were setting new performance standards. The 1980 event was uniquely won by Jean Rondeau, a Le Mans resident, with a car of his own manufacture. After seven impressive Porsche successes, Jaguar and Mercedes-Benz, both returning to motorsport after long absences, won in 1988 and 1989. By the end of the decade, Le Mans was contested by Aston Martin, Jaguar, Mazda, Mercedes-Benz, Nissan, Peugeot, Porsche and Toyota. - Highly detailed year-by-year coverage of the decade's ten races, giving over 30 pages of information and photographs for each year. - Official status provides a number of unique features, including the reproduction of the full-color race poster artwork for each year and photographs from the ACO's archives. - The images include rare colour, and the emphasis is on photographs that enthusiasts will not have seen before. - The story of each race is told through photographs and an accompanying commentary. - Complete data for each year includes technical regulations, entry list, circuit changes (with diagram), lap chart, full results and category awards. - The whole work is beautifully designed and presented. - Already established as a world-class event, the ACO's annual race scaled new heights during the 1980s, a time of spectacular transformation in top-flight sports car racing.

**Mercedes-Benz 300SL** Karl Ludvigsen,2002-07-14 In 1952, Mercedes-Benz astonished the world with its 300SL sports-racing cars, sleek coupes with startling, gull-wing doors. Based on the 300S production model but installed in a radical, tubular space frame, the 300SL was a tour de force of lightweight aerodynamic design. The later production 300SL has been well chronicled, the 1952 racing model has not, until now. This book portrays the amazing achievements of these tough cars and their epic victories at Le Mans and in the Carrera Panamericana. Extensive, unpublished photography superbly and intimately captured by Rodolfo Mailander show the 300SL at the Mille Miglia, Berne, Nurburgring and Le Mans. Rare Daimler-Benz archive photos also show the prototype, designed and built for the 1953 season and never raced. Every fan of racing and Mercedes-Benz will relish the pictorial revelations of this book.

**Mercedes-Benz 300 SLR** Günter Engelen,2015-04 In 1955, Mercedes-Benz wins the sports car world championship with the racing car 300 SLR (W 196 S). In addition to the titles achieved that same year in the formula 1 world championship and the European touring car championship, this success is proof of the unprecedented dominance of a single manufacturer on the stage of international automobile racing. Stirling Moss and Juan Manuel Fangio, the most successful drivers of their era, celebrate impressive double victories in the 300 SLR at the most demanding road races in the world, triumphs that continue to afford this unparalleled racing car lasting fame to this day. Based on extensive research in the archives of Mercedes-Benz Classic, this book provides exhaustive and authentic documentation of the technical development of the W 196 S. All of the races as well as the biography of each individual vehicle are presented with the aid of images and illustrations, some of which have never before been published. Its high-quality design and exquisite features make the book a true collector's item. (German edition ISBN 978-3-7757-4000-5)

Mercedes-Benz SL Sportscars Laurence Meredith,1999 This book contains over 200 photographs which, supported by informative captions, provide a history of the SL series. Spanning four generations of finely engineered sports cars, the Mercedes-Benz SL story begins with a successful assault on the Le Mans 24 Hours in 1952. Engineered very much to meet the demands of American safety and emissions requirements, this series was every bit as good as its illustrious forebears, but it was only in the 1990s that aficionados have come to appreciate their fine qualities. From the company that invented the motor car, Daimler-Benz's many customers have, through successive generations, come to expect the best in comfort, safety, performance and technical innovation. Based on the racing cars, the mighty 300SL Gullwing coupe followed in 1954, and caused a genuine sensation in New York where it debuted alongside its baby sister, the 190SL.
