Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

100 Painters of Tomorrow Kurt Beers, 2014-10-14 An exciting new global survey of largely unknown talent, selected by an international jury Painting is enjoying a remarkable creative renaissance in the twenty-first century, with many of the world's leading artists now working in this most enduring and seductive of media. 100 Painters of Tomorrow is the culmination of a new project, initiated by curator Kurt Beers and Thames & Hudson, to find the 100 most exciting painters at work today. This major publication introduces and presents the work from a global cast of painters selected by an international panel featuring some of the most prominent names in contemporary art. The resulting volume offers an intelligent snapshot of the best new talent in painting from across the world, gathered through an open call for submissions that drew over 4,300 applications. Open to any artist using paint as their primary medium, the submissions guidelines specified no age limit, but each of the selected artists has gained professional recognition in the last five years through their education, gallery representation, or in the production of a significant

body of work. In addition, more than 100 of the world's leading art schools were directly invited to participate, nominating recent graduates to submit their applications. The book presents high-quality images of the rising stars' work, along with essential biographic information and quotations from the artists.

Jugaad Time Amit S. Rai, 2019-02-05 In India, the practice of jugaad—finding workarounds or hacks to solve problems—emerged out of subaltern strategies of negotiating poverty, discrimination, and violence but is now celebrated in management literature as a disruptive innovation. In *Jugaad Time* Amit S. Rai explores how jugaad operates within contemporary Indian digital media cultures through the use of the mobile phone. Rai shows that despite being co-opted by capitalism to extract free creative labor from the workforce, jugaad is simultaneously a practice of everyday resistance, as workers and communities employ hacks to oppose corporate, caste, and gender power. Locating the tensions surrounding jugaad—as both premodern and postdigital, innovative and oppressive—Rai maps how jugaad can be used to undermine neoliberal capitalist media ecologies and nationalist politics.

The Arts & Crafts Movement Oscar Lovell Triggs, 2023-12-28 “Have nothing in your house that you do not know to be useful, or believe to be beautiful.” This quote alone from William Morris could summarise the ideology of the Arts & Crafts movement, which triggered a veritable reform in the applied arts in England. Founded by John Ruskin, then put into practice by William Morris, the Arts & Crafts movement promoted revolutionary ideas in Victorian England. In the middle of the “soulless” Industrial Era, when objects were standardised, the Arts & Crafts movement proposed a return to the aesthetic at the core of production. The work of artisans and meticulous design thus became the heart of this new ideology, which influenced styles throughout the world, translating the essential ideas of Arts & Crafts into design, architecture and painting.

Early Photography at Gettysburg William A. Frassanito, 1998-06-01 This book is the best and most complete study of Gettysburg photography. It is the long-awaited companion to *Gettysburg: A Journey in Time*. In the 20 years since *Journey*, Frassanito has uncovered many more never-before published photos of people and places significant to Gettysburg's early history as well as new information on commonly known photos, presented in a clear format. One of the greatest battlefields in the world was documented when the field still looked essentially as it did at the time of the battle. Frassanito focuses on the period between 1859 and 1869, a period that begins with the earliest outdoor photograph known to have been recorded in the town, through the photographic series which comprised the last substantial postwar coverage of the field itself before the memorial craze adorned the area with monuments and avenues. - Publisher.
