168 Hours Laura Vanderkam,2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

Stress-free Chicken Tractor Plans John Suscovich,2016 Inside these pages, you will find step-by-step instructions for a mobile broiler chicken shelter for pastured poultry that is used by farmers and homesteaders all over the country. Raising chickens on grass provides them with a healthy lifestyle and a delicious flavor. You can raise just enough of them to feed your family or scale up to include pastured poultry as a profitable part of your farm business. John Suscovich has raised thousands of chickens using these mobile shelters, a main enterprise on his farm in Connecticut. These chicken tractors were created using the best elements from other designs. They are easy to move and provide a good life for the chickens. With a little bit of creativity, they can also be modified for seasonal egg-layer housing, rabbits, ducks and forts for your kids. Not only does this book contain the plans and supply list to build your first chicken tractor, but it gives you some insight into how to use it and what mindset you should have if you are to become a happy and successful farmer. John also walks you through the light carpentry skills you need to build these chicken tractors and teaches you the most commonly used knots on a farm. You may learn these skills for this project, but you'll be able to apply them on your farm for years to come.

Irregular Singularities in Several Variables Arnoldus Richardus Petrus van den Essen,Antonius Henricus Maria Levelt,1982 The aim of this paper is to generalize this theorem to a certain type of system of first order linear partial differential equations with analytic (or better: formal) coefficients. To be more precise, a completely integrable Pfaffian system with a special type of singularities along normal crossings. For such systems a triangulation can be obtained, and there is a complete separation of the variables.
