European Buildings Florian Richter, Peter Dennis, 2018-08-15

This is the perfect add-on supplement not just for Helion's famous 'Paper Boys' book series but for other wargames periods and systems too. In this book you will find all the building you need for a 18th and 19th rural or city landscaped terrain. Here will be some 22 pages of artwork intended to be cut straight out of the book pages. Subjects to include village buildings, a church, farmhouse, windmill etc. The models are scaled to 28mm, but through deft use of a photocopier can be rescaled for other popular sizes of figures.

The Modulor Le Corbusier, 2000

Model-making David Neat, 2013-12-21 *Model-making: Materials and Methods* focuses primarily on the wide variety of materials that can be employed to make models; those which have been favoured for a while and those which are relatively new. The book looks at how these materials behave and how to get the best out of them, then illustrates a range of relatively simple methods of building, shaping, modelling, surfacing and painting with them. Useful features of the book include: the different uses of models in various disciplines; the sequence of making; planning and construction, creating surfaces, painting and finishing; methods of casting, modelling and working with metals; step-by-step accounts of the making of specially selected examples; simple techniques without the need for expensive tools or workshop facilities; a 'Directory' of a full range of materials, together with an extensive list of suppliers. This book is intended for students of theatre production, art & architecture, animation and theatre/television set designers where accurate scale models are necessary, and is also of interest to anyone involved with the process of making forms in 3D and the challenge of making small-scale forms in general. Superbly illustrated with 185 colour photographs.

A Day with Picasso Billy Kluver,1999-02-18 In 1978, while collecting documentary photographs of the artists' community in Montparnasse from the first decades of the century, Billy Klüver discovered that some previously unassociated photographs fell into significant groupings. One group in particular, showing Picasso, Max Jacob, Moïse Kisling, Modigliani, and others at the Café de la Rotonde and on Boulevard du Montparnasse, all seemed

to have been taken on the same day. The people were wearing the same clothes in each shot and had the same accessories. Their ties were knotted the same way and their collars had the same wrinkles. A total of twenty-four photographs—four rolls of film with six photographs each—were eventually found. With the challenge of identifying the date, photographer, and circumstances, Klüver embarked on an inquiry that would illuminate the minute texture of that time and place. Biographical research into the subjects' lives led Klüver to focus on the summer of 1916 as the likely time the photos were taken. He then measured buildings and plotted angles and lengths of shadows in the photographs to narrow the time frame to a spread of three weeks. Further investigation eventually allowed Klüver to identify the photographer as Jean Cocteau and to determine the day that Cocteau had taken the photographs: August 12, 1916. A computer printout of the sun's positions on that date, obtained from the Bureau des Longitudes, together with the length of the shadows, enabled Klüver to calculate the time of day of each photograph, and thus to put them in proper sequence. In a tour de force of art historical research, Klüver then reconstructed a scenario of the events of the four hours depicted in the photographs. With evocative attention to detail—noting when Picasso is no longer carrying an envelope or Max Jacob has acquired a decoration in his lapel—Klüver recreates a single afternoon in the lives of Picasso and friends, a group of remarkable people in early twentieth-century Paris. Besides the central portfolio of photographs by Cocteau, the book contains additional photographs and drawings, short biographies of all the subjects, and a historical section on the events and activities in the Paris art world at the time.

The U. P. Trail Zane Grey, 2011-06-01 Although Western writer Zane Grey is best remembered for *The Riders of the Purple Sage*, the novel *The U.P. Trail* is a favorite among critics and fans alike. This ambitious tale weaves a grand narrative of the construction of the Union Pacific Railroad line, which serves as the

backdrop for a tender romance that blooms between the virtuous Allie and the mysterious and taciturn protagonist, Warren Neale.

Otherworldly David Revere McFadden, 2010 OTHERWORLDY: Optical Delusions and Small Realities illuminates the phenomenal renaissance of interest among artists worldwide in constructing small-scale, hand-built depictions of artificial environments and alternative realities, either as sculpture or as subjects for photography and video. The book features contemporary work by approximately 35 preeminent visual artists who have generated renewed interest in this art form: a diverse group of international practitioners, ranging from sculptors and painters to photographers and videographers. This fully illustrated catalogue will also feature artist biographies and artist statements, and include a curatorial essay by exhibition curator David Revere McFadden that traces the history of dioramas and visual illusions in the history of the visual arts to Louis Daguerre's innovative dioramas of the early 1800s and provides an interpretive overview of work by all of the featured artists.

Unprepared To Die Paul Slade,2015-11-01 The Gory Stories Behind The Murder Ballads Cheerfully vulgar, revelling in gore, and always with an eye on the main chance, murder ballads are tabloid newspapers set to music, carrying word of the latest 'orrible murders to an insatiable public. Victims are bludgeoned, stabbed or shot in every verse and killers often hanged, but the songs themselves never die. Instead, they mutate – morphing to suit local place names as they criss cross the Atlantic and continue to fascinate each generation's biggest musical stars. Paul Slade traces this fascinating genre's history through eight of its greatest songs. Stagger Lee's "biographers" alone include Duke Ellington, James Brown, Bob Dylan, Dr John, The Clash and Nick Cave. No two tell his story in quite the same way. Covering eight classic murder ballads, including "Knoxville Girl", "Tom Dooley" and "Frankie & Johnny", Slade investigates the real-life murder which inspired each song and traces its musical development down the decades. Billy Bragg, The Bad Seeds' Mick Harvey, Laura Cantrell, Rennie Sparks of The Handsome Family and a host of other leading musicians add their own insights.

The Secret Subway Shana Corey,2016-03-08 From an acclaimed author and a New York Times Best Illustrated artist

comes the fascinating, little-known—and true!—story of New York City's first subway. New York City in the 1860s was a mess: crowded, disgusting, filled with garbage. You see, way back in 1860, there were no subways, just cobblestone streets. That is, until Alfred Ely Beach had the idea for a fan-powered train that would travel underground. On February 26, 1870, after fifty-eight days of drilling and painting and plastering, Beach unveiled his masterpiece—and throngs of visitors took turns swooshing down the track. The Secret Subway will wow readers, just as Beach's underground train wowed riders over a century ago. A New York Public Library Best Book for Kids, 2016

Ship Modeling Simplified: Tips and Techniques for Model Construction from Kits Frank Mastini, 1990-03-22 In *Ship Modeling Simplified*, master model builder Frank Mastini puts to paper the methods he's developed over 30 years at the workbench to help novices take their first steps in an exciting pastime. You don't need the deftness of a surgeon or the vocabulary of an old salt to build a model. What you need is an understanding coach. Mastini leads readers from the mysteries of choosing a kit and setting up a workshop through deciphering complicated instructions and on to painting, decorating, and displaying finished models—with patience and clarity, not condescension. He reveals dozens of shortcuts: How to plank a hull egg-shell tight; how to build and rig complicated mast assemblies without profanity; how to create sails that look like sails. . . . And along the way he points out things that beginners usually do wrong—beforehand, not after they've taken hammers to their projects. *Ship Modeling Simplified* even includes an Italian-English dictionary of nautical terms, the key to assembling the many high-quality Italian kits on the American market. Model building is fun, and not nearly as difficult as some experts would have you believe. Here is everything you'll ever need to get started in a hobby that will last a lifetime.

The Tallest Tree House Elly MacKay, 2019-04-23 From esteemed author-illustrator Elly MacKay comes a magical fantasy tale about the importance of working as a team and being a good friend. Mip and Pip are two fairies who live in a beautiful forest near a waterfall. One day, Mip has a brilliant idea to build a tree house and decides to make it into a contest: whoever can build the tallest tree house the fastest wins! Pip, who is much more thoughtful and a planner, reads about architecture and sketches out blueprints while Mip, the speedster, is already halfway done

constructing her house. But when a powerful gust of wind threatens Mip's tree house and Pip's safety, the two friends must learn to appreciate each other's talents to save the day-and to build the tallest tree house in the forest.
