**Introduction to Forestry Economics** Peter H. Pearse,1990 Offers a good introduction to forestry economics in BC, including markets, supply, demand, pricing, non-market values, land allocation, forest rotations, regulations, property rights and taxes.

**Introduction to Mineral Exploration** Charles Moon,Michael Whateley,Anthony M. Evans,2006-01-23 This new, up dated edition of Introduction to Mineral Exploration provides a comprehensive overview of all aspects of mineral exploration. Covers not only the nature of mineral exploration but also considers other factors essential to successful exploration, from target evaluation to feasibility studies for extraction and production. Includes six detailed case studies, selected for the range of different problems and considerations they present to the mineral explorationist. Features new chapters on handling mineral exploration data and a new case study on the exploration for diamonds. Essential reading for upper level undergraduates studying ore geology, mineral exploration, mining geology, coal exploration, and industrial minerals, as well as professional geologists. **Panzer III** Bob Carruthers,2013-05-17 The Panzer III was designed to be the backbone of the Panzer force and was deployed on every front. However, due to its deficient armament and poor armour, and despite its outstanding reliability, it was obsolete by 1942.This comprehensive overview of the Panzer III in action was compiled by Emmy Award winning historian Bob Carruthers. It draws heavily on war-time intelligence reports to produce a fascinating insight into the development and combat history of the Panzer III at the tactical and operational level.Also featured are rare developments such as the flame thrower variant alongside unpublished photographs and illustrations which provide an absorbing study, from an array of primary sources, of the world of the Panzer III and its crews, which conveys to the modern reader a vivid sense of how they were viewed at the time.

**Gladiator** Konstantin Nossov,2009-11-17 Chosen as one of Living Dice's 2009 tops gifts for wargamers From the author of Ancient and Medieval Siege Weapons (Lyons Press), Konstantin Nossov, comes this eye-opening new study of one of the most popular pastimes of ancient Rome. This detailed, highly readable guide introduces readers to every aspect of the gladiator phenomenon: from the types of equipment the different classes of gladiator used-to the high place these sportsman came to occupy with the popular culture of the time. Nossov provides readers with a breathtaking tour of

Gladiator customs. At the beginning of their 800-year existence in the 4th century BC, gladiatorial games served as a solemn funeral rite to honor high-born citizens. From the height of their popularity to their decline, they were the equivalent of a multi-billion dollar industry--run by entrepreneurs and highly regulated by the government. Nossov shows how, with few exceptions, Roman leaders embraced the spectacle and how over the centuries new events such as mortal combat with animals and full-scale naval battles were added to the games. Using updated research that has never before appeared in English, Nossov's chapter on the everyday life and social status of gladiators will surprise many readers. Despite the persistent myth that Gladiators were treated as expendable refuse by their Roman handlers, Nossov demonstrates that the reality was much more nuanced. The professional gladiator pool was comprised primarily of highly-trained men (and, for a time, women) who volunteered for the arena. In return for a long-term contract with a local games master, these athletes would earn an annual salary hundreds of times greater than an ordinary person. And slaves who were willing to become gladiators could earn their freedom with as few as four wins. These athletes lived communal lives together and trained year round for events that occurred no more than seasonally. As Nossov shows, being a professional gladiator was not much different from the lifestyle of a modern professional football player or boxer. Since the advent of the 2000 film, *Gladiator*, and the HBO series, *Rome*, interest in gladiators is running at an all-time high. Nossov's comprehensive treatment of this enigmatic yet persistently popular phenomenon is sure to delight and enlighten readers everywhere.

**The Red Effect** Harvey Black, 2013-04-01 1983: The Cold War has been in existence since the end of World War Two. Although tensions have always been fraught between the Western nations and the members of the Soviet-led Warsaw Pact, common sense has prevailed. Until, as a consequence of the Cuban missile crisis in 1962, the shooting down of a Korean passenger aircraft in 1983, and the relentless build up of Soviet military strength, everything is about to change. In a panoramic novel, readers travel from centres of power to the front lines - a war is brewing and events are happening at every angle. Is the Cold War about to turn hot? Can NATO forces endure a mass strike by thousands of Soviet tanks? Can the West survive? Follow the series of gripping events that culminated in 'The Red Effect', in the first instalment of Harvey Black's The Cold War trilogy.

**Self-Propelled Anti-Aircraft Guns of the Soviet Union** Mike Guardia, 2015-05-20 During the Cold War, the Soviet Army was perhaps the deadliest fighting force the world had ever seen. Within its mechanized forces, the Soviets accomplished something that their American counterparts never could - the fielding of a self-propelled anti-aircraft gun (SPAAG) that could keep pace with its heavy armored formations. This volume examines the design, development and operational history of the Soviet Union's Cold War SPAAGs: the ZSU-37, ZSU-57-2, the infamous ZSU-23-4, and the 9K22 Tunguska (better known by its NATO reporting name: SA-19 'Grison'). These vehicles excelled in their air defense role, and many US Department of Defense publications were dedicated to examining how to defeat the ZSU and its radar tracking system. These formidable weapons equipped Russian forces in Afghanistan and were encountered again in Iraq during Operation Desert Storm and Iraqi Freedom, cementing their place in the landscape of modern warfare.

This study explores the full history of the SPAAGs with revealing photographs, technical illustrations and detailed analysis.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

*The Aesthetic of Our Anger* Matthew Worley,2016 Punk is one of the most fiercely debated post-war subcultures. Despite the attention surrounding the movement's origins, analyses of punk have been drawn predominantly from a now well-trodden historical narrative. *The Aesthetic of Our Anger* explores the development of the anarcho-punk scene from the late 1970s, raising questions over the origins of the scene, its form, structure and cultural significance examining how anarcho-punk moved away from using 'anarchy' as mere connotation and shock value towards an approach that served to make punk a threat again
