*Twelve Years a Slave* Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir

and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Germany's First Ally** Charles K. Kliment, Bfietislav Nakládal, 1997 Slovakia split from Czechoslovakia and formed its own state on March 14, 1939. The Slovak State was born under the auspices of Hitler's Third Reich and became its first ally on September 1, 1939, when it took part in the invasion of Poland. The Slovak army inherited its weapons, equipment, training manuals and its doctrine from the defunct Czechoslovak Army. Though hampered by a shortage of specialists in its air force, armored units and artillery, it managed to field several division-sized units and sustain them during the initial three years of combat on the Eastern front. Its Mobile division fought its way all the way from the Carpathian Mountains to the Caucasus. In the last years of the war, the Slovak people became more and more disillusioned with the war and with their own semi-fascist government. These

feelings led to mounting desertions in the fighting units, and culminated in the Slovak National Uprising in August 1944. Though the uprising was liquidated after two months of bitter fighting, it gave the Slovak nation the right to join the victorious allies and be accepted back into the restored Czechoslovakia. Though the Slovak army was by far the smallest of the armies of Germany's allies on the Eastern front, it was part of this grandiose clash of titans and deserves thus a place in the history of the Second World War. This book describes in detail the composition, dislocation and equipment of all branches of the Slovak army (infantry, artillery, armored and air force) and its operational history through the war years.

Czechoslovak Armored Fighting Vehicles, 1918-1948 Charles K. Kliment, Vladimir Francev, 1997

This book presents for the first time a complete and accurate picture of their development, organization and operational use before and during the war.

**Soviet Armoured Cars 1936–45** Jamie Prenatt,2020-10-29 The armoured car has an important place in the early history of Soviet armoured fighting vehicles (AFVs) – they were the most important AFV during the Russian Civil War and figured prominently in the mechanization of the Red Army that began in late 1929. The 1930s saw the development and production of a wide variety of armoured cars, which were used extensively in Soviet conflicts from then on. They saw service in the Spanish

Civil War, in the 1939 Manchurian conflict with Japan, and in the occupation of the Baltic states and the invasion of Poland and Finland. Although many of its armoured cars were lost in the early months following the German invasion in June 1941, Russia continued with its armoured car development program, and the final model, the BA-64, was accepted for service in 1942 with over 9,000 built before production ended in 1946. This detailed book provides a survey of Russian armoured cars from 1936 to 1945, focusing on the history, design, and specifications of the wheeled armoured cars that entered series production, including the rail variants and tracked BA-30. Packed with photographs, cross-sections, and stunning battleplates, this is a comprehensive guide to some of the Red Army's fastest AFVs.

Balkan Battles Ronald L. Tarnstrom,1998 Strife appears endemic to the Balkans. A crossroads of three continents, the area has provided the site for often violent convergence of three of the world's major religions and several major races and a swirl of human activity. This volume explores the battles

that have taken place in the region. Beginning with Turkey, the author describes the battles and examines the small arms, artillery, armoured vehicles, warships and warplanes used. Accompanying each weapons illustration throughout the book is a set of specifications providing the tactical abilities of the weapon in the field.

**Retribution** Prit Buttar, 2020-10-27 Beginning towards the end of the Battle of Kursk, *Retribution* explores the massive Soviet offensive that followed Operation Zitadelle, which saw depleted and desperate German troops forced out of Central Ukraine. In this fascinating title, Buttar describes in detail the little-known series of near-constant battles in which a weakened German army was confronted by a tactically sophisticated force of over six million Soviet troops. As a result, the Wehrmacht was driven back to the Dnepr and German forces remaining in the Taman Peninsula withdrew into the Crimea. As the Germans withdrew, the horrors they had inflicted on occupied lands were gradually uncovered, from the scorched earth program to the mass deportations and executions of countless men, women and children. With an avenging Soviet army in pursuit, retribution was

inevitable.--Amazon.com.

The book combines the analytical capabilities of experts in operations research and management, economics, risk analysis, and defense management, and presents graph theoretical analysis, advanced statistics, and applied modeling methods. In many chapters, the authors provide reproducible code that is available from the publisher's website. Lastly, the book identifies and discusses implications for risk assessment, policy, and insurability. The insights it offers are globally applicable, and not limited to particular locations, countries or contexts. Researchers, intelligence analysts, homeland security staff, and professionals who operate critical infrastructures will greatly

benefit from the methods, models and findings presented. While each of the twelve chapters is self-contained, taken together they provide a sound basis for informed decision-making and more effective operations, policy, and defense.

**Kumba Africa** Sampson Ejike Odum,2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several

thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of

civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

East Africa 1940-1941 (land Campaign) Marek Sobski,2020-12-10 When the Kingdom of Italy entered the war in Europe in June 1940, it did so only for a moment to hasten the fall of France and force Britain to the peace negotiations table. With each subsequent month it was turning out that the Italians had got involved in a war that was not going to have a quick and victorious end, and the state of their own unpreparedness for the conflict was shocking. Due to the Italian colonial possessions, the war also spread to East Africa, so distant for Europeans. This is where the situation of the Italian forces turned out to be the most difficult. The troops fighting there, mostly consisting of natives, were disastrously poorly armed, trained only for the purposes of colonial warfare or maintaining internal order in the colonies, cut off from supplies by neighbouring French and British possessions, and the Italian high command lacked the abilities of waging regular campaign. The British Empire, too, began the battle for the Horn of Africa poorly prepared, but quickly realised the importance of this campaign, namely the safety of its own lines of communication across the Red Sea, the Nile and Africa. Having

quickly mobilised its forces, it proceeded to eliminate the Italian threat in this part of the world. This work presents in detail the campaign that lasted until November 1941, in which soldiers of about twenty nationalities from three continents fought on both sides for the colonial interests of Italy and Britain. The campaign in East Africa is not only about the frontline combat, it is also a brutal war between Italians and Ethiopian partisans. We also present issues such as the economic situation of Italian East Africa, the fate of the Italians inhabiting it, the history of the countries that constituted it after the campaign ended, and the Italian underground resistance, whose flame was smouldering up to the very armistice between Italy and the Allies. The book is illustrated with 81 photos and 17 maps.
