Hokusai Seiji Nagata, Hokusai Katsushika, 1999 An introduction to the life and art of Japan's famous artist export, Hokusai, written by the curator of the Ota Memorial Museum in Tokyo. The book contains a commentary on the artist's life and work, and details outlining composition and technique. Hokusai is perhaps the Asian artist best known in the West. His influence has extended from the Impressionists to later modern art and even to commercial design. A few of his works are so frequently reproduced that they are almost as familiar as the face of the Mona Lisa. Yet the 'Great Wave' and the 'Red Fuji' from the

Watchmen and Philosophy William Irwin, Mark D. White, 2009-05-04 Alan Moore's *Watchmen* is set in 1985 and chronicles the alternative history of the United States where the US edges dangerously closer to nuclear war with the Soviet Union. Within this world exists a group of crime busters, who don elaborate costumes to conceal their identity and fight crime, and an intricate plot to kill and discredit these superheroes. Alan Moore's *Watchmen* popularized the graphic novel format, has been named one of Time magazine's top 100 novels, and is now being made into a highly anticipated movie adaptation. This latest book in the popular Blackwell Philosophy and Pop Culture series peers into Moore's deeply philosophical work to parse and deconstruct the ethical issues raised by *Watchmen*'s costumed adventurers, their actions, and their world. From nuclear destruction to utopia, from governmental authority to human morality and social responsibility, it answers questions fans have had for years about *Watchmen*'s ethical quandaries, themes, and characters.

Tiger I and Tiger II Dennis Oliver, 2016-10-31 A guide blending the history behind the two World War II German tanks with resources for military vehicle modeling enthusiasts. In spite of the relatively small numbers produced, the Tiger I and Tiger II tanks are arguably the most famous armored fighting vehicles of the Second World War. This book, the first in the TankCraft series, uses archive photos and extensively researched color illustrations to examine the tanks and units of the German Army and Waffen-SS heavy panzer battalions that attempted to hold back the Red Army during 1944. A large part of the book showcases available model kits and aftermarket products, complemented by a gallery of beautifully constructed and painted models in various scales. Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of the tanks that fought from the snow-covered fields of Byelorussia and the Ukraine, through the Baltic States, and into Poland and Hungary. "From a technical standpoint the book is a winner. Throw in all of the unit histories and then add the modelling, and it is a superb book on the Tiger I-II tanks. . . . The book is really a showcase of the [modelers] and their builds, and gives the rest of us a shot in the arm to up our game on our next Tiger tank." –A Wargamers Needful Things

Portrait of the Psychiatrist as a Young Man Allan Beveridge, 2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years. In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy. He championed the rights of the patient, and challenged the often inhumane methods of treating the mentally ill. Based on a wealth of previously unexamined archives relating to his private papers and clinical notes, Portrait of the Psychiatrist as a Young Man sheds new light on RD Laing, and in particular his early formative years - a crucial but largely overlooked period in his life. The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist. An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory, but also with a wide range of other disciplines, such as philosophy, literature, and religion. This part of the book considers how this shaped Laing's writing about madness and his evolution as a clinician. The second half draws on a rich and completely unexplored collection of Laing's clinical notes, which detail his encounters with patients in his early years as a psychiatrist, firstly in the British Army, subsequently in the psychiatric hospitals of Glasgow, and finally in the Tavistock Clinic in London. These notes reveal what Laing was actually doing in clinical practice, and how theory interacted with therapy. The majority of patients who were to appear in Laing's first two books, The Divided Self and The Self and Others have been identified from these records, and this volume provides a fascinating account of how the published case histories compare to the original notes. There is a considerable mythology surrounding Laing, partly created by himself and partly by subsequent commentators. By a careful examination of primary sources, Allan Beveridge, both a psychiatrist and an historian, examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker, who addressed questions about the nature of madness which are still being asked today. This book will be of interest to mental health workers and social historians alike as well as

anybody interested in the philosophy of psychiatry.
