The Mechanic Marc 'Elvis' Priestley, 2017-11-02 Meet Marc 'Elvis' Priestley: the former number-one McLaren mechanic, and the brains behind some of Formula One's greatest ever drivers. Revealing the most outrageous secrets and fiercest rivalries, The Mechanic follows Priestley as he travels the world working in the high-octane atmosphere of the F1 pit lane. While the spotlight is most often on the superstar drivers, the mechanics are the guys who make every World Champion, and any mistakes can have critical consequences. However, these highly skilled engineers don't just fine-tune machinery and crunch data through high-spec computers. These boys can seriously let their hair down. Whether it's partying on luxury yachts or gravity-defying photos aboard aeroplanes, this is a world which thrills on and off the track. This is Formula One, but not like you've seen it before.

Sport and Society Barrie Houlihan, 2007-12-20 Praise for the First Edition: Barrie Houlihan's astonishingly ambitious and skilfully assembled collection examines the relations between sport, social policy and the social context that underlies the two. Organized around such themes as exclusion, commercialism and international comparisons, the book allows the reader to understand not only the centrality of sport to contemporary society, but the often perplexing policies that contrive to encourage or deny participation, promote or deter public sector involvement and support or undermine physical education. Importantly, Houlihan never prioritises the general over the particular, always striving to find detail amid the bigger picture. - Ellis Cashmore, Professor of Culture, Media and Sport, Staffordshire University The most comprehensive study of contemporary issues in sport by leading international scholars. Houlihan's book is the answer to sports students' prayers, full of information, statistics, tables and figures, extensive guides to further reading and, most important of all, challenging ideas. A weighty vademecum for the early 21st century. - Jim Riordan Honorary Professor of Sports Studies, University of Stirling, Professor Emeritus at University of Surrey, and President of the European Sports History Association Fully updated and revised, the Second Edition of Barrie Houlihan's ground-breaking book provides students and lecturers with a one-stop text that is comprehensive, multi-disciplinary, accessible, international and engaging. Sport and Society allows students to: Approach the study of sport from a multi-disciplinary perspective. Understand the importance of social structure, power and inequality in analyzing the nature and significance of sport in society. Address the rapid commercialization and regulation of sport. Engage in comparative analysis to understand problems clearly and produce sound solutions. Expand their knowledge through chapter summaries, guides to further reading and extensive bibliographies. This Second Edition contains five brand new chapters, which reflect recent concerns with: young athletes and human rights, sport and the city, sport and violence, sport and health, and sport and Islam. A superb teaching text, it will be relished by lecturers seeking an authoritative introduction to sport and society and students who want a relevant, enriching text for their learning and research needs.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Hello, Stranger: Stories of Connection in a Divided World Will Buckingham, 2021-07-01 We navigate our interactions with strangers according to a host of unwritten rules, rituals and (sometimes awkward) attempts at politeness. But what if the people we meet were not a problem, but a gift? When philosopher and traveller Will Buckingham's partner died, he sought solace in throwing open the door to new people. Now, as we reflect on our experiences of the pandemic and its enforced separations, and as global migration figures ever more prominently in our collective future, Buckingham brings together insights from philosophy, anthropology, history and literature to explore how our traditions of meeting the other can mitigate the issues of our time. Taking in stories of loneliness, exile and friendship from classical times to the modern day, and alighting in adapting communities from Birmingham to Myanmar, Hello, Stranger asks: how do we set aside our instinctive xenophobia - fear of outsiders - and embrace our equally natural philoxenia - love of strangers and newness?
