*Fundamentals of Aircraft and Rocket Propulsion* Ahmed F. El-Sayed,2016-05-25 This book provides a comprehensive basics-to-advanced course in an aero-thermal science vital to the design of engines for either type of craft. The text classifies engines powering aircraft and single/multi-stage rockets, and derives performance parameters for both from basic aerodynamics and thermodynamics laws. Each type of engine is analyzed for optimum performance goals, and mission-appropriate engines selection is explained. Fundamentals of Aircraft and Rocket Propulsion provides information about and analyses of: thermodynamic cycles of shaft engines (piston, turboprop, turboshaft and propfan); jet engines (pulsejet, pulse detonation engine, ramjet, scramjet, turbojet and turbofan); chemical and non-chemical rocket engines; conceptual design of modular rocket engines (combustor, nozzle and turbopumps); and conceptual design of different modules of aero-engines in their design and off-design state. Aimed at graduate and final-year undergraduate students, this textbook provides a thorough grounding in the history and classification of both aircraft and rocket engines, important design features of all the engines detailed, and particular consideration of special aircraft such as unmanned aerial and short/vertical takeoff and landing aircraft. End-of-chapter exercises make this a valuable student resource, and the provision of a downloadable solutions manual will be of further benefit for course instructors.

**Developing Your Full Range of Leadership** Fil J. Arenas,Daniel A. Connelly,Michael David Williams,2019-07 Leadership is a daunting subject for most developing leaders, but eventually all followers will be called upon to lead. Where do we start? What model or theory do we utilize? The choices become overwhelming for anyone attempting online searches. Everywhere you look are leadership books, programs, degrees, workshops, seminars, boot camps, and even mobile apps! Many organizations at Air University are utilizing the full range of leadership approach. Initially introduced by James MacGregor Burns in 1978 and Bernard Bass in1985, these transformational and transactional leadership styles have sustained nearly four decades. Through (1) idealized transformational leader behaviors, one may raise the levels of his or her ethical and moral values while committing to doing the right thing for himself or herself and his or her followers: (2) by using inspirational motivation, leaders learn to articulate a vision to energize followers to accomplish more than they ever thought possible; (3) by intellectually stimulating followers, leaders will challenge followers to create and innovate as they reframe problems with renewed visions; and by providing individualized consideration, leaders may learn to incorporate each member's distinct gifts and talents as individual contributors to the organizational team. These transformational behaviors can offer connections to reaching (4) authentic transformational leadership by incorporating not only ethics and values but also, according to John Sosik, virtues and character strengths to refine one's leadership acumen, ameliorating leader-follower dynamics

**Unclaimed Experience** Cathy Caruth,2016-12-15 Her afterword serves as a decisive intervention in the ongoing discussions in and about the field.

**In Defiance of Painting** Christine Poggi,1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

**Murder in the Métro** Gayle K. Brunelle,Annette Finley-Croswhite,2010-05 On the evening of May 16, 1937, the train doors opened at the Porte Dorée station in the Paris Métro to reveal a dying woman slumped by a window, an eight-inch stiletto buried to its hilt in her neck. No one witnessed the crime, and the killer left behind little forensic evidence. This first-ever murder in the Paris Métro dominated the headlines for weeks during the summer of 1937, as journalists and the police slowly uncovered the shocking truth about the victim: a twenty-nine-year-old Italian immigrant, the beautiful and elusive Laetitia Toureaux. Toureaux toiled each day in a factory, but spent her nights working as a spy in the seamy Parisian underworld. Just as the dangerous spy Mata Hari fascinated Parisians of an earlier generation, the mystery of Toureaux's murder held the French public spellbound in pre-war Paris, as the police tried and failed to identify her assassin. In *Murder in the Métro*, Gayle K. Brunelle and Annette Finley-Croswhite unravel Toureaux's complicated and mysterious life, assessing her complex identity within the larger political context of the time. They follow the trail of Toureaux's murder investigation to the Comité Secret d'Action Révolutionnaire, a secret right-wing political organization popularly known as the Cagoule, or hooded ones. Obsessed with the Communist threat they perceived in the growing power of labor unions and the French left wing, the Cagoule's leaders aimed to overthrow France's Third Republic and install an authoritarian regime allied with Italy. With Mussolini as their ally and Italian fascism as their model, they did not shrink from committing violent crimes and fomenting terror to accomplish their goal. In 1936, Toureaux -- at the behest of the French police -- infiltrated this dangerous group of terrorists and seduced one of its leaders, Gabriel Jeantet, to gain more information. This operation, the authors show, eventually cost Toureaux her life. The tale of Laetitia Toureaux epitomizes the turbulence of 1930s France, as the country prepared for a war most people dreaded but assumed would come. This period, therefore, generated great anxiety but also offered new opportunities -- and risks -- to Toureaux as she embraced the identity of a modern woman. The authors unravel her murder as they detail her story and that of the Cagoule, within the popular culture and conflicted politics of 1930s France. By examining documents related to Toureaux's murder -- documents the French government has sealed from public view until 2038 -- Brunelle and Finley-Croswhite link Toureaux's death not only to the Cagoule but also to the Italian secret service, for whom she acted as an informant. Their research provides likely answers to the question of the identity of Toureaux's murderer and offers a fascinating look at the dark and dangerous streets of pre--World War II Paris.

**Monstrous Liminality** Robert G. Beghetto,2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality. As a 'spectral monster' that has a paradoxical and liminal relationship to both the sacred and the secular, the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other. With the advent of modernity, the stranger, the monster, and the spectre became interconnected. Haunting the edges of reason while also being absorbed into 'normal' society, all three, together with the cyborg, manifest the vulnerability of an age that is fearful of the return of the repressed. Yet these figures can also become re-appropriated as positive symbols, able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability. The book shows the explanatory potential of focusing on the resacralizing – in a paradoxical and liminal manner – of traditionally sacred concepts such as 'messianic' time and the 'utopian,' and the conflicts that emerged as a result of secularized modernity's denial of its own hybridization. This approach to modern literature shows how the modern stranger, a figure that is both paradoxically immersed and removed from society, deals with the dangers of failing to be re-assimilated into mainstream society and is caught in a fixed or permanent state of liminality, a state that can ultimately lead to boredom, alienation, nihilism, and failure. These 'monstrous' aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints, enabling new and fresh perspectives suspended between imagination and reality, past and future, nature and artificial. In many ways, the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the (post)modern contemporary age, both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society. However, while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries, and thereby dissolve the purpose and productiveness of both strangeness and liminality. The intention of "Monstrous Liminality" is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself. This space has consequently altered the makeup of the stranger from something external, into a figure far more liminal, which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any.

**Seventy Years of Exploration in Oceanography** Klaus Hasselmann,2010-04-08 It all began with Markus Jochum approaching one of us (HvS) – "when you guys are doing interviews with senior scientists from oceanography and related sciences, why are you not doing Walter Munk?" Indeed, why not? Walter Munk, an icon in oceanography, had just given a wonderful talk in a symposium in honor of his 90th birthday, sweeping a grand circle from his earliest work with Chip Cox on airborne measurements of ocean surface roughness to the latest satellite data – not simply a review, but the struggle of an active scientist opening up new perspectives – as inspiring and stimulating as when one of us (KH) rst met him at the Ocean Waves Conference in Easton in 1961 (Fig. I. 1). Walter immediately agreed to share with us his recollections on the nearly seventy years of his path-breaking contributions in a sheer amazing range of topics, from ocean waves, internal waves, ocean currents, tides, tsunamis, sea level, microseisms and the rotation of the earth to ocean acoustic tomography. With "you guys" Markus was referring to HvS and the various partners HvS had 1 invited to join him in conducting a series of interviews of retired colleagues.

**Constructions of Cultural Identities in Newsreel Cinema and Television after 1945** Kornelia Imesch,Sigrid Schade,Samuel Sieber,2016-12-31 Newsreel cinema and television not only served as an important tool in the shaping of political spheres and the construction of national and cultural identities up to the 1960s. Today's potent televisual forms were furthermore developed in and strongly influenced by newsreels, and much of the archived newsreel footage is repeatedly used to both illustrate and re-stage past events and their significance. This book addresses newsreel cinema and television as a medium serving the formation of cultural identities in a variety of national contexts after 1945, its role in forming audiovisual narratives of a »biopic of the nation«, and the technical, aesthetical, and political challenges of archiving and restaging cinematic and televisual newsreel.
