*Avro Lancaster* Ron Mackay,2019-11-28 The Avro Lancaster was the Royal Air Force's main four-engine bomber in World War II. Its superb design, overall performance, and load-carrying capacity proved key factors in successfully prosecuting the nocturnal bombing offensive against Hitler's industrial and military base. With its ability to carry up to 16,000 pounds in explosives and incendiaries, specialist Lancasters could also deliver the 12,000-pound Tallboy and 22,000-pound Grand Slam bombs that took out key targets. The Lancaster was also featured in the classic 1955 British film *The Dam Busters*, the story of the famed May 1943 low-level bombing raid in Germany's Ruhr River valley. By the end of the war, upward of sixty squadrons operated the Lancaster, demonstrating clear proof of its preeminent presence within the RAF's offensive. Part of the *Legends of Warfare* series.

Avro Lancaster in Military Service, 1945–1965 Martin Derry,Neil Robinson,2014-12-17 The Avro Lancaster, such a stalwart of the skies during the Second World War, also enjoyed an interesting and surprisingly colourful post-war career. It is this era that the authors have chosen to focus on by profiling the type across its many variants.Split into three primary sections, this book offers a concise yet informative history of the Lancaster's post-war operational career (from 1945-1965) charting the course of the various alterations and improvements that occurred during this time and including a selection of contemporary photographs with detailed captions. A 16-page section features 32 colour illustrations (in profiles, 2-views and 4-views) specially prepared by Mark Gauntlett. The book's final section provides a list and box top illustrations of the plastic model kits produced of the Lancaster in all scales plus reviews and 'how to' construction notes on building a selection of kits in 1/144, 1/72 and 1/48 scales. As with the other books in the *Flight Craft* series, whilst published primarily with the scale aircraft modeller in mind, it is hoped that those readers who might perhaps describe themselves as 'occasional' modellers - if indeed they model at all - may also find that this colourful and informative work offers something to provoke their interests too.

Modelling British Aircraft of World War II Jeff Herne,2020-11-23 *Modelling British Aircraft of World War II* provides essential guidance for modellers of all levels of experience. It gives advice on how to get started, from choosing the best kit to preparing your workspace with the right tools, paints and equipment. Tips on the use of reference material, construction techniques and painting recipes are given. The book provides step-by-step building and painting techniques of the following models: 1/48 Hurricane Mk IIc, 1/32 Spitfire Mk IIa, 1/48 Mosquito Mk VI, 1/48 Swordfish Mk II and 1/72 Lancaster B III. Instructional use of after-market detailing kits and accessories is given as well as advice on fitting a base or creating a diorama. Finally, there is a chapter on Royal Air Force camouflage and markings.

*The Lancaster Bomber Pocket Manual* Martin Robson,2017-12-14 The Avro

Lancaster was the RAF's most famous and successful heavy bomber of the Second World War. Used predominantly at night, 'Lancs' dropped 608,612 tons of bombs in 156,000 sorties in the period 1942-1945. Some of these missions were incredibly daring – notably the 'dambusters' raid of 617 squadron on the Ruhr valley dams in May 1943. The success of such operations was testament both to the rugged, reliable qualities of this amazing aircraft and the bravery and skill of the pilots, navigators, bombardiers, flight engineers and gunners that crewed it. They relied on their training and experience, supplemented by various pamphlets and manuals that were produced throughout the war. Supplemented with illustrative plans and diagrams, this fascinating pocket manual provides a unique insight into the wartime operation of this famous aircraft.
