*RAF Wings Over Florida* Willard Largent,2000 They fondly remember the times when they buzzed over the homes of their Florida families to let them know to expect them for Sunday dinner. More than fifty years later, their stories still resonate with universal emotions: fear of failure, love of country, camaraderie, romantic love, and the pain of tragic deaths. Their stories also remind the American reader of a unique time in our history, when, poised on the brink of war, the United States reached out to help a country in distress.--BOOK JACKET.

Fast Food Nation Eric Schlosser,2012 Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

**Abe, Son of Abraham** Abe J. Bassett,2014-02-03 Abe, Son of Abraham begins as a series of well written and funny vignettes about the author's early years and his special relationship with his father. It concludes with remembrances of his uncles and aunts, immigrants from Lebanon. In between are stories of adventures of hitchhiking in Europe, serving in the Army in the Far East and traveling in the Middle East. The title derives from the fact that Abe and Abraham are Junior and Senior, leading to the book's dedication to the father whose influence permeated the life of the junior. Abe J. Bassett is Emeritus Professor of Theatre Arts at Wright State University, and former Dean of the School of Fine and Performing Arts at Indiana University Purdue University Fort Wayne. He writes about his academic career and how his Theatre Arts department became the most outstanding undergraduate program in Ohio. Earlier he edited and published *Memories of Rahija*, stories of his mother. Altogether in 296 pages there are 55 entries in ten sections.

**What Technology Wants** Kevin Kelly,2011-09-27 From the author of the New York Times bestseller *The Inevitable*— a sweeping vision of technology as a

living force that can expand our individual potential In this provocative book, one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life, we paradoxically get a glimpse at where technology is headed-or what it wants. Kevin Kelly offers a dozen trajectories in the coming decades for this near-living system. And as we align ourselves with technology's agenda, we can capture its colossal potential. This visionary and optimistic book explores how technology gives our lives greater meaning and is a must-read for anyone curious about the future.

**Our Appalachia** Laurel Shackelford,Bill Weinberg,2014-10-17 Many books have been written about Appalachia, but few have voiced its concerns with the warmth and directness of this one. From hundreds of interviews gathered by the Appalachian Oral History Project, editors Laurel Shackelford and Bill Weinberg have woven a rich verbal tapestry that portrays the people and the region in all their variety. The words on the page have the ring of truth, for these are the people of Appalachia speaking for themselves. Here they

recollect an earlier time of isolation but of independence and neighborliness. For a nearer time they tell of the great changes that took place in Appalachia with the growth of coal mining and railroads and the disruption of old ways. Persisting through the years and sounding clearly in the interviews are the dignity of the Appalachian people and their close ties with the land, despite the exploitation and change they have endured. When first published, *Our Appalachia* was widely praised. This new edition again makes available an authentic source of social history for all those with an interest in the region.

*Basic Economics* Thomas Sowell, 2014-12-02 The bestselling citizen's guide to economics *Basic Economics* is a citizen's guide to economics, written for those who want to understand how the economy works but have no interest in jargon or equations. Bestselling economist Thomas Sowell explains the general principles underlying different economic systems: capitalist, socialist, feudal, and so on. In readable language, he shows how to critique economic policies in terms of the incentives they create, rather than the goals they proclaim. With clear explanations of the entire field, from rent control and the rise and fall of businesses to the international balance of payments, this is the first book for anyone who wishes to understand how the economy functions. This fifth edition includes a new chapter explaining the reasons for large differences of wealth and income between nations. Drawing on lively examples from around the world and from centuries of history, Sowell explains

basic economic principles for the general public in plain English.

**America's Fastest Growing Churches** Elmer L Towns, 2014-05-05 Here is the story of 10 churches in America that are growing at a very rapid pace. They are different in many respects: sections of the country, age of congregation, age of pastor, and their approach to the task of growth. Author Towns has done a very fine job in elaborating these differences but the major contribution of the book may well be the strong emphasis on the ways in which they are alike. It is must reading for every pastor and church member who is depressed by declining attendance or lack of growth.

**Idea Man** Paul Allen, 2012 What's it like to start a revolution? How do you build the biggest tech company in the world? And why do you walk away from it all? Paul Allen co-founded Microsoft. Together he and Bill Gates turned an idea writing software into a company and then an entire industry. This is the story of how it came about: two young mavericks who turned technology on its head; the bitter battles as each tried to stamp his vision on the future; and, the ruthless brilliance and fierce commitment. And finally, Allen's extraordinary step in walking away from it all to discover what it is you do after you've already changed the world.

*A Cognitive Psychology of Mass Communication* Richard Jackson Harris, Fred W. Sanborn, 2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the

world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for Media Effects, Media & Society, and Psychology of Mass Media coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.
