Chris Dunning

A History of the Mediterranean Air War, 1940–1945. Volume 2 Christopher Shores,Giovanni Massimello,Russell Guest,Frank Olynyk,Winfried Bock,2014-07-19 This second volume in the seminal series on aerial combat, pilots, and tactics in Libya and Egypt in the middle of World War II. In volume two of this series, historian Christopher Shores begins by exploring the 8th Army's movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya, as well as their defeat in June, 1942, the loss of Tobruk, and the efforts of Allied air forces to protect their retreating troops. Shores continues with the heavy fighting that followed in the El Alamein region. This features the Western Desert Air Force and the arrival of the first Spitfires. The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel's Deutsche Afrika Korps at Alam el Halfa, after which came the Second Battle of El Alamein. With the arrival of the United States Army Air Force, the Allied air forces gained dominance over the Axis. Shores recounts the lengthy pursuit of the Italo-German forces right across Libya, including the capture of Tripoli and the breakthrough into Southern Tunisia. This allowed a linkup with other Allied forces in Tunisia (whose story appears in Volume 3). Included with the action are stories of some of the great fighter aces of the Desert campaign such as Jochen Marseille and Otto Schulz of the Luftwaffe, Franco Bordoni-Bisleri of the Regia Aeronautica and Neville Duke, Billy Drake, and "Eddie" Edwards of the Commonwealth air forces. Finally, Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean.

Courage Alone Chris Dunning,2009 Derided by Allied propaganda which made it out to be an air force equipped solely with elderly biplanes, ineffective in attack or always in retreat, the Regia Aeronautica was overshadowed by its more ruthless Axis partner, the Luftwaffe. Using research from a mass of original

documentation, including personal accounts and combat diaries, the author takes an objective view and shows that the men who flew the Macchis, Fiats, and Savoias were no less skilled or determined than their opponents. The book discusses area commands, theaters, squadron allocations, anti-shipping operations, aircrew, and details of the top fighter aces. Comprehensive tables provide information on aircraft equipment, squadron allocation, and unit histories. With drawings from original aircraft handbooks, almost 250 photographs, more than 100 color profiles, and unit badges, Courage Alone provides a detailed reference source for historians, modelers, and enthusiasts alike.

Fighters Over the Desert Christopher F. Shores,Hans Ring,1969

Classic RAF Battles M. J. Armitage,2002 Forty superb full colour paintings accompanied by detailed background narratives, show the RAF in action, from the dogfights of the First World War to missions in the Gulf War. In compiling this superb visual testament to the RAF, the general aim has been to capture the very reason for the RAF's existence - the combat actions which have given it such an historic tradition of the defence of the nation. Some scenes are of general campaigns or aspects of the RAF's history; most, however, are of specific raids, operations or incidents; but they all demonstrate the variety of locations, tasks and aircraft types that feature in the RAF's reputation.
