Junkers Ju87 Stuka Martin Derry, Neil Robinson, 2017-11-30 The Junkers Ju 87 Stuka (a contraction of the German word Sturzkampfflugzeug, ie dive bomber) was arguably the Luftwaffe's most recognizable airplane, with its inverted gull wings and fixed spatted undercarriage. Designed by Hermann Pohlmann as a dedicated dive bomber and ground-attack aircraft, the prototype first flew in 1935, and made its combat debut in 1937 with the Luftwaffe's Condor Legion during the Spanish Civil War. After several design changes in the light of operational experiences, the Stuka went on to serve the Luftwaffe and Axis forces, from the invasion of Poland in 1939, through the Battles of France and Britain in 1940, over the North African desert and the across Mediterranean, the invasion of Russia and the subsequent bitter fighting in that vast area, and following several more design changes and upgrades, continued to serve through to the end of World War Two. This latest addition to the growing Flight Craft range, follows the previous well established format, in that it is split in to three main sections. The first section, after offering a concise design and development history, continues with coverage of the various subtypes, from Anton to Gustav and their operational use from the Spanish Civil War to the end of World War Two. This is followed by a 16-page full color illustration section featuring detailed profiles and 2-views of the color schemes and markings carried by the type in Luftwaffe and Axis service. The final section lists as many of the injection-moulded plastic model kits produced of the Junkers Ju 87 in all the major scales that the authors could find details of, including the brand new Airfix 1/72 and 1/48 scale kits which were released while this book was being written, with photos of many finished models made by some of the world's best modelers. As with all the other books in the Flight Craft range, whilst published primarily with the scale aircraft modeler in mind, it is hoped that those readers who might perhaps describe themselves as 'occasional' modelers, or even simply aviation enthusiasts, may also find that this colourful and informative work offers something to provoke their interests too.

Hitler's Stuka Squadrons John Ward, 2004 Hitler's Stuka Squadrons is a book that separates fact from fantasy regarding the achievements and military career of the Ju 87 aircraft. Able to deliver its bombs accurately onto a target, the Stuka wreaked havoc in Poland and France against ground targets and refugee columns. Hitler's Stuka Squadrons charts the Ju 87's career in 1939-40, when German aerial superiority ensured aircraft losses were low. However, against Spitfires and Hurricanes in the Battle of Britain in 1940 the Stuka was shot out of the skies. The campaign in Russia saw the re-establishment of the Ju 87's supremacy, and would lead to a change in role to one of tank-busting. Hitler's Stuka Squadrons also covers the individual Stuka squadrons, their campaigns,

tactics, and pilots. Illustrated with full-color artworks, which show the various changes in livery and design that the Ju 87 underwent during its career, accompanied by a full specifications table that lists range, armament, performance, dimensions, ceiling and weights;- An authoritative book written by an expert on Military history- First-hand accounts from Stuka pilots- Full-colored artworks- Specifications boxes

Junkers Ju 87 D-G Stanislaw Mokwa,2009-12-15 Includes free decals and masking foil A comprehensive reference for the modeler or enthusiast alike The Junkers Ju 87 or Stuka (from Sturzkampfflugzeug, dive bomber) was a two-seat (pilot and rear gunner) German ground-attack aircraft. Designed by Hermann Pohlmann, the Stuka first flew in 1935 and made its combat debut in 1936 as part of the Luftwaffe's Condor Legion during the Spanish Civil War. The D-series saw extensive use in the Eastern Front and the Middle East. With the G variant the aging airframe of the Ju 87 found new life as an anti-tank aircraft. This was the final operational A-T version of the Stuka and was deployed on the Eastern Front. The change in German military fortunes after 1943 and the appearance of huge numbers of well armored Soviet tanks caused Junkers to adapt the existing design to combat this new threat. This is a detailed technical guide to these formidable variants, and provides exceptional reference for any modeler or enthusiast. About the Series This series of highly illustrated books presents detailed scale drawings of aircraft and vehicles, with supporting color profile artwork. With detailed captions on the history, combat action and development of each machine, each volume is an exceptional reference tool for modelers, with extras such as free decals, masking foil and photo-etched brass.

Junkers Ju 87 Stukageschwader 1937–41 John Weal,2012-11-20 The Ju 87 Stuka was the most feared weapon in the German arsenal in the first year of World War 2, the Luftwaffe using it to deadly effect during the Blitzkrieg between September 1939 and June 1940. Although vulnerable to the enemy fighters due to its moderate speed in level flight and general lack of manoeuvrability, the Ju 87 nevertheless soon came to symbolise the might of Nazi Germany as the mere handful of Stukageschwader supporting the Wehrmacht rampaging out of the Fatherland took a heavy toll of the Allied forces.

Junkers Ju 87 - The Stuka Mantelli - Brown - Kittel - Graf,2015-03-24 The Stukas if you did not know you knew definitely looking from the deafening roar and fury disruptive. The Stuka was also famous for the scream that emitted launching into beaten against a target. in almost all versions, in fact, was mounted in the basket a siren that you drove with the beaten and emitted, in fact, a kind of scream. This served to terrorize the enemies on the ground and, for this reason, the Stuka earned a reputation even more terrible, the Junkers Ju 87 Stuka also said (in German Sturzkampfflugzeug, literally combat aircraft swooping), was a bomber swooping wing single-engine configuration with inverted gull wing. Although designed in 1933 by the German Junkers GmbH, the Stuka remained in production for over nine years, staying for the duration of the war, essentially unchanged in structure and basic configuration, test the overall validity of the machine. Were built more than 5,700 copies in a dozen versions, which fought on all fronts. In an attack dive against ground targets the greatest operational flaw lay in violent lateral acceleration experienced by the pilot, not having available at that time in chemical suits differentiated compression fainted at the height of the effort (coinciding with the release of the bomb). So not being able to regain control of the plane ended up crashing to the ground ... The German designers solved the problem by designing an automatic recall of the bar that was activated before the dive, and that allowed to bring back to share the plane after the attack in case of fainting of the pilot, who had so everything time to recover his senses and control apparatus.

Junkers Ju 87 Stukageschwader of the Russian Front John Weal,2012-10-20 This final volume of the Osprey trilogy on the Luftwaffe dive-bomber charts

its fortunes in the toughest theatre of all: the Eastern Front. Written by John Weal, a leading authority on the Luftwaffe, this book examines how, following its comprehensive defeat over the English Channel in the summer of 1940, the Stuka was able to restore its fearsome reputation over the Eastern Front.

Junkers Ju 87 Stuka Mike Guardia,2014-07-20 In the opening days of the Blitzkrieg campaign, few aircraft could invoke as much terror as the Junkers Ju 87. Nicknamed the “Stuka” (an abbreviation of Sturzkampfflugzeug – the German term for “dive-bomber”), the Ju 87 was perhaps the most feared tactical bomber of the ETO. With its fixed landing gear and inverted gull wings, the Stuka was the most recognizable aircraft of the Blitzkrieg era. With profile plates, close-up photographs and battlescene artwork, this book reveals the design and development history of the aircraft and how the inclusion of its dive-activated siren changed it from a reliable and sturdy dive bomber into a psychological weapon, spreading panic in ground units. Mike Guardia goes on to explain how the Stuka became easy prey for Allied aircraft and how its influence waned in the final years of the war.

Junkers Ju 87 Marek Józef Murawski,2010-01-05 Free extras for modelers, including decals and masking foil This is the fourth volume in the Junkers Ju 87 series by Kagero, and focuses on the variants and their combat during the Battle of Britain, with colour artwork and illustrations. The Junkers Ju 87 or Stuka (from Sturzkampfflugzeug, dive bomber) was a two-seat (pilot and rear gunner) German ground-attack aircraft. Designed by Hermann Pohlmann, the Stuka first flew in 1935 and made its combat debut in 1936 as part of the Luftwaffe's Condor Legion during the Spanish Civil War. The aircraft was easily recognizable by its inverted gull wings, fixed spatted undercarriage and its infamous Jericho-Trompete (Jericho Trumpet) wailing siren, becoming the propaganda symbol of German air power and the Blitzkrieg victories of 1939-1942. The Stuka's design included several innovative features, including automatic pull-up dive brakes under both wings to ensure that the plane recovered from its attack dive even if the pilot blacked out from the high acceleration. Although sturdy, accurate, and very effective, the Ju 87 was vulnerable to modern fighter aircraft, like many other dive bombers of the war, particularly during the conflict over the skies and seas of the British Channel. About the Series Monographs is a series focusing on an individual type of aircraft. Each monograph contains descriptions of the aircraft's origins, its variants and combat history. Each volume includes several hundred archive photographs, technical scale drawings and color profile artworks, with free extras for modelers, including decals and masking foil.

Junkers Ju 87 Eddie J. Creek,2012-06-07 This large format hardback is packed with information on the Ju87 Stuka. Highly illustrated, it represents a comprehensive, detailed reference work to be used by enthusiasts and modelers for one-stop ease of access to information to one of the most well-known aircrafts of World War II. Unquestionably, the Junkers Ju 87 was one of the most devastatingly effective and psychologically terrifying weapons of war ever produced. The howl of its sirens during a dive-bombing attack struck fear into those on the ground. Spearheading the German advances in Poland, Norway, the Low Countries, the Mediterranean, and Russia between 1939 and 1943, the Luftwaffe's Ju 87 Stuka became synonymous with the art of Blitzkrieg warfare. Next to the fighter aces, it was perhaps the Stuka crews who were held in the highest esteem by both German commanders and the German people and their accomplishments became legendary. This will be the book sought after by aviation enthusiasts and modelers.

Junkers Ju 87 Stukageschwader of North Africa and the Mediterranean John Weal, 1998-07-24 The 'terror weapon' of the invasion of Poland at the start of World War II (1939-1945), the assault on Scandinavia and the Blitzkrieg through western Europe, the Ju 87 Stuka had had its reputation severely dented during the Battle of Britain, where its vulnerability to fighter aircraft in hostile skies was savagely exposed. Licking their wounds, the Stukageschwader were sent south-east from their bases in France to the warmer climes of the Balkans in early 1941. In mid-1941, again frustrated at the inability of the Italians to

defeat numerically inferior Allied forces, the Germans arrived in North Africa. Included in the force were Ju 87s. However, like operations on the African continent, their efforts were doomed to failure, and from mid-1942 onwards the Stuka proved to be little more than cannon fodder for Allied fighters.

Supported by a comprehensive selection of photographs and technical drawings, Jonathan Falconer's Junkers JU 87 Stuka Manual describes the design, construction and operation of the feared Stuka, which saw frontline action wherever the German Army went – from Norway, western Europe and Russia, to North Africa.
