These aircraft are designed for free flight powered with a rubber band but could be adapted to a small gas or electric motor. These models are around 1/24 th scale. The Book contains a brief description of the aircraft, design, construction and trimming and flying instructions. Danger's Hour Maxwell Taylor Kennedy, 2009-11-03 Drawing on years of research and firsthand interviews with both American and Japanese survivors, Maxwell Taylor Kennedy draws a gripping portrait of men bravely serving their countries in war and the advent of a terrifying new weapon, suicide bombing, that nearly halted the most powerful nation in the world. In the closing months of World War II, Americans found themselves facing a new weapon: kamikazes--the first men to use airplanes as suicide weapons. By the beginning of 1945, facing imminent invasion, Japan turned to its most idealistic young men and demanded of them the greatest sacrifice. On May 11, 1945, days after Germany's surrender, the USS Bunker Hill--with thousands of crewmen and the most sophisticated naval technology available--was 70 miles off the coast of Okinawa when pilot Kiyoshi Ogawa flew his plane into the ship, killing 393 Americans in the worst suicide attack against

America until September 11.--From publisher description.

The First Team John Lundstrom,2013-04-11 Hailed as one of the finest examples of aviation research, this comprehensive 1984 study presents a detailed and scrupulously accurate operational history of carrier-based air warfare. From the earliest operations in the Pacific through the decisive Battle of Midway, it offers a narrative account of how ace fighter pilots like Jimmy Thach and Butch O'Hare and their skilled VF squadron mates - called the first team - amassed a remarkable combat record in the face of desperate odds. Tapping both American and Japanese sources, historian John B. Lundstrom reconstructs every significant action and places these extraordinary fighters within the context of overall carrier operations. He writes from the viewpoint of the pilots themselves, after interviewing some fifty airmen from each side, to give readers intimate details of some of the most exciting aerial engagements of the war. At the same time he assesses the role the fighter squadrons played in key actions and shows how innovations in fighter tactics and gunnery techniques were a primary reason for the reversal of American fortunes. After more than twenty years in print, the book remains the definitive account and is being published in paperback for the first time to reach an even larger audience.

The Tiger Of Malaya: Lt. Col. Aubrey Saint Kenworthy, 2015-11-06 Includes over 30 illustrations As in Nazi occupied countries that were liberated by the Allies, horrible crimes had been uncovered, perpetrated in the name of superior culture on defenceless civilians and prisoners of war. As the emaciated American, British, Australian soldiers emerged from the prisoner of war camps with barbaric tales of torture, mistreatment and neglect, it was clear that justice must be sought. The U.S. Military fixed on two Japanese generals who were foremost in causing and ordering these outrages, the conqueror of Malaya Tomoyuki Yamashita and the notorious "Death March" Masaharu Homma. Lt. Col. Kenworthy was a member of the U.S. military police assigned to the Philippines and saw at first hand the military tribunal ordered at the express command of General MacArthur. He was detailed to guard both Yamashita and Homma during the trial and was able to view their reactions to the detailed evidence that was used against them. He was determined to write this account of this momentous event, he recorded not only the evidence of the crimes but also the stoic calm with which the two generals faced the weight of Allied Justice. A fascinating sidelight on the ending of the World War Two.
