Japanese Destroyer Captain Tameichi Hara, 2011-08-15 This highly regarded war memoir was a best seller in both Japan and the United States during the 1960s and has long been treasured by historians for its insights into the Japanese side of the surface war in the Pacific. The author was a survivor of more than one hundred sorties against the Allies and was known throughout Japan as the Unsinkable Captain. A hero to his countrymen, Capt. Hara exemplified the best in Japanese surface commanders: highly skilled (he wrote the manual on torpedo warfare), hard driving, and aggressive. Moreover, he maintained a code of honor worthy of his samurai grandfather, and, as readers of this book have come to appreciate, he was as free with praise for American courage and resourcefulness as he was critical of himself and his senior commanders.

Grave Misfortune: The USS Indianapolis Tragedy Richard A. Hulver, 2019-06-03 Dedicated to the Sailors and Marines who lost their lives on the final voyage of USS Indianapolis and to those who survived the torment at sea following its sinking. plus the crews that risked their lives in rescue ships. The USS Indianapolis (CA-35) was a decorated World War II warship that is primarily remembered for her worst 15 minutes. . This ship earned ten (10) battle stars for her service in World War II and was credited for shooting down nine (9) enemy planes. However, this fame was overshadowed by the first 15 minutes July 30, 1945, when she was struck by two (2) torpedoes from Japanese

submarine I-58 and sent to the bottom of the Philippine Sea. The sinking of Indianapolis and the loss of 880 crew out of 1,196 --most deaths occurring in the 4-5 day wait for a rescue delayed --is a tragedy in U.S. naval history. This historical reference showcases primary source documents to tell the story of Indianapolis, the history of this tragedy from the U.S. Navy perspective. It recounts the sinking, rescue efforts, follow-up investigations, aftermath and continuing communications efforts. Included are deck logs to better understand the ship location when she sunk and testimony of survivors and participants. For additional historical publications produced by the U.S. Naval History and Heritage Command, please check out these resources here:

<https://bookstore.gpo.gov/agency/naval-history-heritage-command> Year 2016 marked the 71st anniversary of the sinking and another spike in public attention on the loss -- including a big screen adaptation of the story, talk of future films, documentaries, and planned expeditions to locate the wreckage of the warship.

Guadalcanal Richard B. Frank, 1992-01-01 "Brilliant...an enormous work based on the most meticulous research."—LA Times Book Review The battle at Guadalcanal—which began eight months to the day after Pearl Harbor—marked the first American offensive of World War II. It was a brutal six-month campaign that cost the lives of some 7,000 Americans and over 30,000 Japanese. This volume, ten years in the writing, recounts the full story of the critical

campaign for Guadalcanal and is based on first-time translations of official Japanese Defense Agency accounts and recently declassified U.S. radio intelligence, Guadalcanal recreates the battle—on land, at sea, and in the air—as never before: it examines the feelings of both American and Japanese soldiers, the strategies and conflicts of their commanders, and the strengths and weaknesses of various fighting units.

Submarine Commander Paul R. Schratz, 2013-07-24 A fascinating personal memoir of underwater combat in World War II, told by a man who played a major role in those dangerous operations. Frank and beautifully written, Submarine Commander's breezy style and irrepressible humor place it in a class by itself. This book will be of lasting value as a submarine history by an expert and as an enduring military and political analysis. In early 1943 the submarine USS Scorpion, with Paul R. Schratz as torpedo officer, slipped into the shallow waters east of Tokyo, laid a minefield, and made successful torpedo attacks on merchant shipping. Schratz participated in many more patrols in heavily mined Japanese waters as executive officer of the Sterlet and the Atule. At war's end he participated in the Japanese surrender, aided the release of American POWs, and had a key role in the disarming of enemy suicide submarines. He then took command of the revolutionary new Japanese submarine I-203 and returned it to Pearl Harbor. But this was far from the end of Schratz's submarine career. In 1949 he commissioned the ultramodern USS Pickerel, the most deadly submarine then afloat, and set a world's record

in a 21-day, 5,200-mile submerged passage from Hong Kong to Honolulu. With the outbreak of the Korean War, the Pickerel was immediately sent to Korea to participate in secret intelligence operations only recently declassified and never before revealed in print. Schratz's broad military experience makes this a far from ordinary memoir.

Pearl Harbor Homer N. Wallin, 2001-09 Pearl Harbor will long stand out in men's minds as an example of the results of basic unpreparedness of a peace loving nation, of highly efficient treacherous surprise attack and of the resulting unification of America into a single tidal wave of purpose to victory. Therefore, all will be interested in this unique narrative by Admiral Wallin. The Navy has long needed a succinct account of the salvage operations at Pearl Harbor that miraculously resurrected what appeared to be a forever shattered fleet. Admiral Wallin agreed to undertake the job. He was exactly the right man for it _ in talent, in perception, and in experience. He had served intimately with Admiral Nimitz and with Admiral Halsey in the South Pacific, has commanded three different Navy Yards, and was a highly successful Chief of the Bureau of Ships. On 7 December 1941 the then Captain Wallin was serving at Pearl Harbor. He witnessed the events of that shattering and unifying Day of Infamy. His mind began to race at high speeds at once on the problems and means of getting the broken fleet back into service for its giant task. Unless the United States regained control of the sea, even greater disaster loomed. Without victory at sea, tyranny soon would

surely rule all Asia and Europe. In a matter of time it would surely rule the Americas. Captain Wallin salvaged most of the broken Pearl Harbor fleet that went on to figure prominently in the United States Navys victory. So the account he masterfully tells covers what he masterfully accomplished. The United States owes him an unpayable debt for this high service among many others in his long career.

The Chinese Navy Institute for National Strategic Studies,2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's navel modernization.

Day Of Deceit Robert Stinnett,2001-05-08 Using previously unreleased documents, the author reveals new evidence that FDR knew the attack on Pearl Harbor was coming and did nothing to prevent it.

Shooting the Pacific War Thayer Soule,2014-10-17 Thayer Soule couldn't believe his orders. As a junior officer with no military training or indoctrination and less than ten weeks of active duty behind him, he had been assigned to be photographic officer for the First Marine Division. The Corps had never had a photographic division before, much less a field photographic unit. But Soule accepted the challenge, created the unit from scratch, established policies for photography, and led his men into combat. Soule and

his unit produced films and photos of training, combat action pictures, and later, terrain studies and photographs for intelligence purposes. Though he had never heard of a photo-litho set, he was in charge of using it for map production, which would prove vital to the division. Shooting the Pacific War is based on Soule's detailed wartime journals. Soule was in the unique position to interact with men at all levels of the military, and he provides intriguing closeups of generals, admirals, sergeants, and privates -everyone he met and worked with along the way. Though he witnessed the horror of war firsthand, he also writes of the vitality and intense comradeship that he and his fellow Marines experienced. Soule recounts the heat of battle as well as the intense training before and rebuilding after each campaign. He saw New Zealand in the desperate days of 1942. His division was rebuilt in Australia following Guadalcanal. After a stint back in Quantico training more combat photographers, he went to Guam and then to the crucible of Iwo Jima. At war's end he was serving as Photographic Officer, Fleet Marine Force Pacific, at Pearl Harbor.

World War II at Sea Craig L. Symonds, 2018-04-02 Author of Lincoln and His Admirals (winner of the Lincoln Prize), The Battle of Midway (Best Book of the Year, Military History Quarterly), and Operation Neptune, (winner of the Samuel Eliot Morison Award for Naval Literature), Craig L. Symonds has established himself as one of the finest naval historians at work today. World War II at Sea represents his crowning achievement: a complete narrative

of the naval war and all of its belligerents, on all of the world's oceans and seas, between 1939 and 1945. Opening with the 1930 London Conference, Symonds shows how any limitations on naval warfare would become irrelevant before the decade was up, as Europe erupted into conflict once more and its navies were brought to bear against each other. World War II at Sea offers a global perspective, focusing on the major engagements and personalities and revealing both their scale and their interconnection: the U-boat attack on Scapa Flow and the Battle of the Atlantic; the miracle evacuation from Dunkirk and the pitched battles for control of Norway fjords; Mussolini's Regia Marina-at the start of the war the fourth-largest navy in the world-and the dominance of the Kidō Butai and Japanese naval power in the Pacific; Pearl Harbor then Midway; the struggles of the Russian Navy and the scuttling of the French Fleet in Toulon in 1942; the landings in North Africa and then Normandy. Here as well are the notable naval leaders-FDR and Churchill, both self-proclaimed Navy men, Karl Dönitz, François Darlan, Ernest King, Isoroku Yamamoto, Erich Raeder, Inigo Campioni, Louis Mountbatten, William Halsey, as well as the hundreds of thousands of seamen and officers of all nationalities whose lives were imperiled and lost during the greatest naval conflicts in history, from small-scale assaults and amphibious operations to the largest armadas ever assembled. Many have argued that World War II was dominated by naval operations; few have shown and how and why this was the case. Symonds combines precision with story-telling verve, expertly illuminating not only

the mechanics of large-scale warfare on (and below) the sea but offering wisdom into the nature of the war itself.

Fleets of World War II (revised Edition) Richard Worth, 2021-01-28 Caught up in global chaos, the navies of World War II had to fight campaigns that rarely matched prewar planning. Each country found itself adapting its fleet compositions, ship designs, personnel training, and weaponry to ever-changing circumstances and ever-fluctuating resources-with varying degrees of success. An understanding of the successes and failures requires an uncompromising critique of the tools of war. *Fleets of World War II* pins down the warships' actual qualities, a nation-by-nation survey covering everything from the mightiest battlewagons to modest patrol craft. After fifteen years as a staple of naval research, *Fleets of World War II* now appears in this updated edition with expanded text and more than 150 photographs. Praise for the first edition: With a substantial library of good books on the fighting ships of the last century and a half, I am glad to add Richard Worth's *Fleets of World War II* to my collection. -Frank Uhlig, Jr., U. S. Naval War College This one book contains a perfect distillation of facts, theory and application on almost any ship that saw use in World War II. -Wargamer.com *Fleets of World War II* probably represents the best single-volume comprehensive treatment of World War II warships available today. -William J. Jurens, Warship International

Coral and Brass Holland M. Smith, Percy Finch, 2017-06-29 *Coral and Brass* is the biography of General Holland McTyeire Howlin' Mad Smith, known as the father of modern U.S. amphibious warfare. His book is a riveting first-hand account of key battles fought in the Pacific between the U.S. Army and Canadian troops against the Japanese, including assaults on the Gilbert Islands, the Marshall Islands, the island of Saipan, Tinian in the Marianas and Iwo Jima.

Shipping and Globalization in the Post-War Era Niels P. Petersson, Stig Tenö, Nicholas J. White, 2019-11-21 This open access book belongs to the Maritime Business and Economic History strand of the Palgrave Studies in Maritime Economics book series. This volume highlights the contribution of the shipping industry to the transformations in business and society of the postwar era. Shipping was both an example and an engine of globalization and structural change. In turn, the industry experienced and pioneered, mirrored and enabled key developments that led to the present-day globalized economy. Contributions address issues such as the macro-level shift of shipping's centre of gravity from Europe to Asia, the political and legal frameworks within which it developed, the strategies and performance of both successful and unsuccessful firms, and the links between the shipping industry and the wider economy and society. Without shipping and its ability to forge connections and networks of a global reach, the modern world would look very

different. By bringing together scholars from various disciplinary and national backgrounds, this book advances our understanding of the linkages that bind economies and societies together.

Start with Why Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same

way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

American Airpower Comes Of Age—General Henry H. “Hap” Arnold’s World War II Diaries Vol. II [Illustrated Edition] Gen. Henry H. “Hap.” Arnold, 2015-11-06 Includes the Aerial Warfare In Europe During World War II illustrations pack with over 180 maps, plans, and photos. Gen Henry H. “Hap.” Arnold, US Army Air Forces (AAF) Chief of Staff during World War II, maintained diaries for his several journeys to various meetings and conferences throughout the conflict. Volume 1 introduces Hap Arnold, the setting for five of his journeys, the diaries he kept, and evaluations of those journeys and their consequences. General Arnold’s travels brought him into strategy meetings and personal conversations with virtually all leaders of Allied forces as well as many AAF troops around the world. He recorded his impressions, feelings, and expectations in his diaries. Maj Gen John W. Huston, USAF, retired, has captured the essence of Henry H. Hap Arnold—the man, the officer, the AAF chief, and his mission. Volume 2 encompasses General Arnold’s final seven journeys and the diaries he kept therein.

Silver State Dreadnought Stephen M. Younger, 2018 Silver State Dreadnought is the story of a ship and the men who sailed in her. It covers the ship's life from its construction in 1912 to its sinking in 1948. It covers its

activity In World War I, during which it was based in Queenstown, Ireland as protection for American convoys bringing troops to Europe. The book also looks at the naval reduction treaties of the 1920s and the ship's reconstruction in 1928 with the latest in naval technology.--Provided by publisher.
