Japanese Tanks 1939-45 Steven J.

Zaloga, 2011-12-20 The Japanese Army used tanks to great effect in the build-up to World War II. Inspired by European designs, in the 1920s and 1930s an innovative Japanese tank program facilitated their campaigns in China prior to the Pacific War. During the ensuing war against the Allies tanks were deployed imaginatively in jungle terrain previously thought impassable by such vehicles, being integral in Malaya and the capture of Singapore. Steven J Zaloga uses detailed and colorful artwork and photographs to explore these designs, explaining their neglect in favor of the naval priorities that left Japanese tanks outmoded by Western designs.

Single Vehicle No. 04 Type 95 Ha-Go, 2022-01-20 This book compiles the color profiles, scale plans, and photo details of the single variant of the Type 95 Ha-Go Japanese light tank used in WW2. Scale plans in 1/35 scale plus drawings from wartime technical manuals. Also includes photos of the details in B&W.

World War II Japanese Tank Tactics Gordon L.

Rottman, Akira Takizawa, 2011-10-20 ALSO AVAILABLE AS AN E-BOOK. In this book, expert author and tactician Gordon L Rottman provides the first English-language study of Japanese Army and Navy tank units, their tactics and how they were deployed in action. The Japanese army made extensive use of its tanks in the campaigns in China in the 1930s, and it was in these early successes that the Japanese began to develop their own unique style of tank tactics. From the steam-rolling success of the Japanese as they invaded Manchuria until the eventual Japanese defeat, Rottman provides a battle history of the Japanese tank units as they faced the Chinese, the Russians, the British and the Americans.

USMC M4A2 Sherman vs Japanese Type 95 Ha-Go

Romain Cansière, Ed Gilbert, 2021-02-18 The different national tank doctrines of the United States and Imperial Japan resulted in a terrible mismatch of the predominant tank types in the crucial Central Pacific campaign. A flawed Japanese doctrine emphasized light infantry support tanks, often used in small numbers. Tactically, tanks were often frittered away in armored versions of the familiar banzai attacks. Meanwhile, the Americans saw the tank as an infantry support weapon, but developed a more systematic tactical doctrine. They settled upon a larger medium tank – in the case of most Marine Corps tank battalions, the diesel-powered M4A2 (unwanted by the US Army). This superbly detailed title reveals how both the two sides' tactical and technical differences in the approach to armored warfare soon became apparent over a series of deadly engagements, from the first tank fight at the battle of Tarawa in November 1943, through to engagements on Parry Island, Saipan, and Guam, before ending with Peleliu in September 1944.

M4 Sherman vs Type 97 Chi-Ha Steven J.

Zaloga, 2012-05-22 While the Pacific campaign is not well

known as a theater for tank combat, the US Army deployed nearly a third of its tank battalions to the Pacific, and Japan was among the top five tank manufacturers during the war. The obscurity of Pacific tank battles largely hinged on the tactics used in the Pacific theater due to terrain. Tanks were generally used as infantry support weapons, and the terrain precluded the use of tanks in maneuver warfare that might have led to large scale tank-vs.-tank battles. This book begins by surveying the early tank battles in the Pacific between US and Japanese forces, starting with the first encounters in the Philippines in 1941 between US M3 Stuart light tanks and Japanese Type 95 tanks. Tank-vs.-tank action became more common in 1944 as both sides poured larger numbers of tanks into the combat zone. The largest Japanese tank attack of war took place in July 1944 on Saipan, but there were frequent tank encounters in the ensuing months on Guam, and Peleliu. The Philippines saw the largest Japanese tank deployment of the war, with the Japanese sending a tank division to Luzon in 1944. This led to extensive clashes with US army forces, sometimes pitting tank vs. tank, but often a mixture of tanks, infantry anti-tank weapons, and even self-propelled guns. The last two campaigns of the war on Iwo Jima and Okinawa saw tank use on the part of both sides, the Japanese finally concluding that the fight against the US Army is a fight against his M4 tanks. This book will take a look at the two best tanks of the Pacific campaign. On the American side, the M4A3 Sherman medium tank was used by both the US Army and US Marine Corps. On the Japanese side, the Type 97-kai Shinhoto Chi-Ha was the best tank to see combat. This was a very uneven contest, which is the main reason that in 1944 on Luzon, the Japanese were so reluctant to deploy the Chi-ha against the Sherman and preferred to use them as dug-in pillboxes. The book illustrations will follow

the usual Duel pattern with profile illustrations of the Type 97-kai Shinhoto Chi-ha and M4A3, views showing the ammunition of both types, interior illustrations showing the turret layout in both types, and a Battlescene showing the Type 97-kai in combat against US armor.

Global Trends 2040 National Intelligence Council,2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of

trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The U.S. Army GHQ Maneuvers of 1941 Christopher Richard Gabel, 1991

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor, 2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy. Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns

Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

Dirty Little Secrets of World War II James F.

Dunnigan, 1996-03-14 *Dirty Little Secrets of World War II* exposes the dark, irreverent, misunderstood, and often tragicomic aspects of military operations during World War II, many of them virtually unknown even to military buffs. Like its successful predecessor, *Dirty Little Secrets*, Dunnigan and Nofi's new book vividly brings to life all theaters and participants of the war. Revelations include: - The real death count for the war, and why it has never been previously released. - The new age general who refused to smoke or drink, who lived on a vitamin-enriched diet, who opposed animal experimentation, and who regularly consulted his astrologer. - How equipment developed for the war led to such modern high-tech innovations as smart bombs, electronic warfare, and nuclear missiles. - The lackadaisical relationship between Germany and Japan throughout the war. - Tricky bits of information about the lingering effects of the war -- like the thousands of live shells and mines that are still buried in Europe and off the East Coast of America.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M.

Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade

and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, *U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era*.

Triumph in the Philippines Robert Ross Smith, 1963 The reconquest of the Philippine archipelago (exclusive of Leyte), with detailed accounts of Sixth Army and Eighth Army operations on Luzon, as well as of the Eighth Army's reoccupation of the southern Philippines.

The Imperial Arm Beth Mikell, 2015-04-21 Darrius of Blackstone, emissary to King Henry III, is sent to northern England to snuff out an enemy of the crown. Everything spirals out of control when the scales of justice tip and the controlled warrior unleashes his heart upon a woman suffering from neglect. He knows the risks, but he needs her light in his dark world. Abused by her power-greedy father all her life, Lady Brenna of Carthmore despises her pawn like status and the arranged marriage hanging over her head. Yet her new husband confounds her at every turn. She stumbles upon his secret, tipping the scale of the heart until betrayal vilifies a new day. The Imperial Arm and his Elite are confronted by all sides of misery and everyone must reveal their deepest soul before blood runs.

A Close Encounter: The Marine Landing on Tinian

Richard Harwood, 2022-05-29 This book is the account of the Battle of Tinian. It was a battle of the Pacific campaign of World War II, fought on the island of Tinian in the Mariana

Islands from 24 July until 1 August 1944. The American forces eliminated the 8,000-man Japanese garrison, and the island joined Saipan and Guam as a base for the Twentieth Air Force.

Born a Crime Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, *Time*), “poignant” (*Entertainment Weekly*), “soul-nourishing” (*USA Today*) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—*Esquire* Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by *The New York Times*, *USA Today*, *San Francisco Chronicle*, *NPR*, *Esquire*, *Newsday*, and *Booklist* Trevor Noah’s unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless,

rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Tanks in the Battle of the Bulge Steven J.

Zaloga, 2020-04-30 The Battle of the Bulge raises many questions which, until now, have not been adequately answered: How did the major tank types perform during the battle? What were the specific 'lessons learned' from the combat? And did these lessons result in changes to tanks in the subsequent months? Offering detailed answers to these questions, and many more, this book provides a survey of the principal tank and tank-equivalents (such as tank destroyers and Jagdpanzers) that took part in the Ardennes Campaign of December 1944-January 1945. Beginning with a basic overview of the campaign, accompanied by an order of battle of the major armoured units, it examines the opposing forces, covering the organization of the two tank forces to explain how they were deployed. Author Steven Zaloga also scrutinises the technical balance between the opposing sides, comparing armour, mobility and firepower as well as other important factors such as reliability, crew situational awareness, and tank layout/efficiency. Full of specially commissioned and highly accurate artwork plates

of the tanks themselves, as well as fascinating technical data based on cutting-edge research, this title is the definitive guide to tank warfare in the Battle of the Bulge.
