Ki-61 and Ki-100 Aces Nicholas Millman, 2015-11-20 This is the story of the elite Japanese Army Air force (JAAF) aces that flew the Kawasaki Ki-61 Hien (Swallow), and the Ki-100 Goshikisen in the Pacific Theatre of World War 2. The former, codenamed 'Tony' by the allies, was a technically excellent aircraft, possessing power, stability and a good rate of climb - differing radically from the usual Japanese philosophy of building light, ultra-maneuvrable fighters. Its pilots soon realised, however, that the type was plagued by a number of dangerous mechanical issues. Then as the war moved relentlessly closer to Japan's doorstep, a desperate, expedient innovation to the Ki-61 airframe by fitting it with a radial instead of inline engine resulted in one of the finest fighters of World War 2 - the Ki-100. This book uses the latest findings to provide a gripping account of some of the most remarkable and hard-pressed fighter pilots of the war. It reveals how these men, unlike so many of their unfortunate late-war colleagues, could surprise Allied aircraft in high-performance fighters and claim successes in the face of enormous odds.

Kawasaki Ki-61 Hien / Ki-100 Leszek A. Wieliczko, 2015-01-22 The Kawasaki Ki-61 Hien or Type 3 Fighter remains to this day one of the most recognizable Japanese fighters of the World War II era. What makes Hien unique is the powerplant - it was the only mass-produced Japanese fighter powered by an inline, liquid cooled engine. The Ki-61 began to arrive at the frontlines in large numbers in the summer of 1943 and took part in battles over New Guinea and later over the Philippines and Okinawa, as well as in the defense of the Japanese Home Islands. In total over 3,000 examples of various Ki-61 variants and derivatives were built. The Ki-100, a Ki-61-II Kai airframe mated to the Mitsubishi Ha-112-II radial engine, entered service towards the end of the war.

Ki-43 'Oscar' Aces of World War 2 Hiroshi Ichimura,2012-10-20 Dubbed the 'Oscar' by the Allies, the Ki-43 Hayabusa Peregrine was the most prolific Japanese fighter of World War 2. Designed for manoeuvrability and speed, the low-wing model meant that firepower and safety had to be sacrificed, with only two machine guns per plane. Despite this, more Japanese pilots achieved Ace status flying the Hayabusa than any other plane. This book expertly charts the experiences of the pilots and discusses the early stages of the war in South-East Asia, China, Burma and New Guinea. Accompanied by detailed appendices and specially commissioned artwork, this is the first volume in English to focus exclusively on the exploits of the Ki-43.

Flying Tigers Daniel Ford, 2023-05-01 During World War II, in the skies over Burma and China, a handful of American pilots met and bloodied the Imperial Wild Eagles of Japan and won immortality as the Flying Tigers. One of America's most famous combat forces, the Tigers were recruited to defend beleaguered China for \$600 a month and a bounty of \$500 for each Japanese plane they shot down--fantastic money in an era when a Manhattan hotel room cost three dollars a night. This May 2023 revision has never-before-published information about Chennault's early years. Admirable, wrote Chennault biographer Martha Byrd of Ford's original text. A readable book based on sound sources. Expect some surprises. Flying Tigers won the Aviation/Space Writers Association Award of Excellence in the year of its first publication.

The Imperial Japanese Navy in the Pacific War Mark Stille, 2014-11-20 An highly illustrated examination of the key ships, tactics and operations of the Imperial Japanese Navy in the War in the Pacific in World War II. The Imperial Japanese Navy (IJN) was the third most powerful navy in the world at the start of World War II, and came to dominate the Pacific in the early months of the war. This was a remarkable turnaround for a navy that only began to modernize in 1868, although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose. Bringing together for the first time material previously published in Osprey series books, and with the addition of new writing making use of the most recent research, this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed, how they were armed, when and where they were deployed and how effective they were in battle. The Imperial Japanese Navy in the Pacific War provides a history of the IJN's deployment and engagements, analysis of the evolution of strategy and tactics, and finally addresses the question of whether it truly was a modern navy, fully prepared for the rigors of combat in the Pacific. Illustrated throughout with photographs and detailed colour artworks, this is a valuable reference source for Pacific War enthusiasts and historians alike.

The Saburo Hasegawa Reader Mark Dean Johnson, Dakin Hart, 2019-05-14 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. The Hasegawa Reader is an open access companion to the bilingual catalogue copublished with The Noguchi Museum to accompany an international touring exhibition, *Changing and Unchanging Things: Noguchi and Hasegawa in Postwar Japan*. The exhibition features the work of two artists who were friends and contemporaries: Isamu Noguchi and Saburo Hasegawa. This volume is intended to give scholars and general readers access to a wealth of archival material and writings by and about Saburo Hasegawa. While Noguchi's reputation as a preeminent American sculptor of the twentieth century only grows stronger, Saburo Hasegawa is less well known, despite being considered the most literate artist in Japan during his lifetime (1906–1957). Hasegawa is credited with introducing abstraction in Japan in the mid 1930s, and he worked as an artist in diverse media including oil and ink painting, photography, and printmaking. He was

also a theorist and widely published essayist, curator, teacher, and multilingual conversationalist. This valuable trove of Hasegawa material includes the entire manuscript for a 1957 Hasegawa memorial volume, with its beautiful essays by philosopher Alan Watts, Oakland Museum Director Paul Mills, and Japan Times art writer Elise Grilli, as well as various unpublished writings by Hasegawa. The ebook edition will also include a dozen essays by Hasegawa from the postwar period, and one prewar essay, professionally translated for this publication to give a sense of Hasegawa's voice. This resource will be an invaluable tool for scholars and students interested in midcentury East Asian and American art and tracing the emergence of contemporary issues of hybridity, transnationalism, and notions of a "global Asia."
