The Imperial Japanese Navy in the Pacific War Mark Stille, 2014-11-20 An highly illustrated examination of the key ships, tactics and operations of the Imperial Japanese Navy in the War in the Pacific in World War II. The Imperial Japanese Navy (IJN) was the third most powerful navy in the world at the start of World War II, and came to dominate the Pacific in the early months of the war. This was a remarkable turnaround for a navy that only began to modernize in 1868, although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose. Bringing together for the first time material previously published in Osprey series books, and with the addition of new writing making use of the most recent research, this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed, how they were armed, when and where they were deployed and how effective they were in battle. The Imperial Japanese Navy in the Pacific War provides a history of the IJN's deployment and engagements, analysis of the evolution of strategy and tactics, and finally addresses the question of whether it truly was a modern navy, fully prepared for the rigors of combat in the Pacific. Illustrated throughout with photographs and detailed colour artworks, this is a valuable reference source for Pacific War enthusiasts and historians alike.

Attack on Pearl Harbor Alan D. Zimm, 2013-10-19 Nothing previously published has offered such a close examination of Japanese strategy . . . an in-depth study of the Japanese planning, preparation and execution of the attack with particular focus on factors not thoroughly considered by other historians, if at all . . . detailed analyses that lead to a much better understanding of what the Japanese did, why they did it, and especially how the attack was very nearly an abject failure instead of a stunning success. Naval Institute Proceedings For seven decades, conventional wisdom has extolled the Japanese attack on Pearl Harbor as brilliant in its planning and execution . . . this masterful analysis topples that pillar of Pacific War history . . . with its amazing depth of meticulous research and analysis, this forceful book is essential reading for anyone with a serious interest in Pearl Harbor. World War II The first militarily professional description of the Pearl Harbor attack, and for those who are serious about military history and operations, it is a joy to read. . . . a superb military analysis of the attack . . . not only renders all other histories of Pearl Harbor obsolete, it has set the bar high for other histories of the Pacific War. Japan's Empire Disaster Jean Sénat Fleury, 2021-04-27 A former judge with a passion for history, Jean Sénat Fleury was born in Haiti and currently lives in Boston. He wrote several historical books, such as: *The Stamp Trial*, *Jean-Jacques Dessalines: Words from Beyond the Grave*, *Toussaint Louverture: The Trial of the Slave Trafficking*, *Adolf Hitler: Trial in Absentia in Nuremberg*, *The Trial of Osama Bin Laden*, *Hirohito Guilty or Innocent: The Trial of the Emperor*. His new book, *Japan's Empire Disaster*, provides an understanding of the expansionist policy practiced by Japan during the end of the nineteenth and the first period of the twentieth century. From the adoption of the Meiji constitution in 1889 and the first period of the Shōwa era (1927-1945), the military controlled the Japanese constitutional government. The result was years of political instability, more internal conflicts, violence, murders, assassinations, overseas aggression, and war crimes. The book demonstrates that in Japan, during the Pacific War, the real driving force of the war was the Imperial Japanese Army and the Imperial Japanese Navy. Hirohito, as supreme commander, gave full support to the army and navy. On multiple occasions, he sanctioned many government policies. In fact, he was responsible for the atrocities that the Japanese troops committed in Asia during the Pacific War. *Japan's Empire Disaster* is a book of information and training. The book describes Japan's opening to modernization with the 1853 arrival of commodore Matthew Calbraith Perry in the country, and also details the history of the wars launched by Emperor Meiji and Emperor Hirohito to build Japan's empire in the nineteenth and the twentieth centuries.

The First Team John Lundstrom,2013-04-11 Hailed as one of the finest examples of aviation research, this comprehensive 1984 study presents a detailed and scrupulously accurate operational history of carrier-based air warfare. From the earliest operations in the Pacific through the decisive Battle of Midway, it offers a narrative account of how ace fighter pilots like Jimmy Thach and Butch O'Hare and their skilled VF squadron mates - called the first team - amassed a remarkable combat record in the face of desperate odds. Tapping both American and Japanese sources, historian John B. Lundstrom reconstructs every significant action and places these extraordinary fighters within the context of overall carrier operations. He writes from the viewpoint of the pilots themselves, after interviewing some fifty airmen from each side, to give readers intimate details of some of the most exciting aerial engagements of the war. At the same time he assesses the role the fighter squadrons played in key actions and shows how innovations in fighter tactics and gunnery techniques were a primary reason for the reversal of American fortunes. After more than twenty years in print, the book remains the definitive account and is being published in paperback for the first time to reach an even larger audience.

Tora! Tora! Tora! Mark Stille,2011-11-20 In the early hours of December 7, 1941, the Japanese First Air Fleet launched a massive air-strike against the American Pacific Fleet based at Pearl Harbor in Hawaii. Supported by a group of midget submarines, the attack gutted the American battleship fleet but, owing to a lack of intelligence, the American aircraft carriers they hoped to destroy were not present. In this new study of the raid, Mark Stille reexamines the political context of the attack and the intelligence operations of both sides, and gives a detailed analysis of all the major events during the battle. Backed with numerous photographs, diagrams, maps, and artwork, this book is a complete study of the Japanese attack that awoke 'the sleeping giant'.

December 7, 1941 Gordon William Prange,Donald M. Goldstein,Katherine V. Dillon,1988 The last of the Prange manuscripts about Pearl Harbor--Page ix. A detailed chronological account of the day. Includes reminiscences of officers, both American and Japanese.

Staff Ride Handbook for the Attack on Pearl Harbor, 7 December 1941 Jeffrey J. Gudmens,2005

Pearl Harbor Gordon W. Prange,Donald M. Goldstein,Katherine V. Dillon,2014-05-06 The New York Times--bestselling authors of *Miracle at Midway* delve into the surprise attack on Pearl Harbor during WWII in "a superb work of history" (Albuquerque Journal Magazine). In the predawn hours of December 7, 1941, a Japanese carrier group sailed toward Hawaii. A few minutes before 8:00 a.m., they received the order to rain death on the American base at Pearl Harbor, sinking dozens of ships, destroying hundreds of airplanes, and taking the lives of over two thousand servicemen. The carnage lasted only two hours, but more than seventy years later, terrible questions remain unanswered. How did the Japanese slip past the American radar? Why were the Hawaiian defense forces so woefully underprepared? What, if anything, did American intelligence know before the first Japanese pilot shouted "Tora! Tora! Tora!?" In this incomparable volume, Pearl Harbor experts Gordon W. Prange, Donald M. Goldstein, and Katherine V. Dillon tackle dozens of thorny issues in an attempt to determine who was at fault for one of the most shocking military disasters in history.

Fork-Tailed Devil: The P-38 Martin Caidin,2016-10-05 One of America's greatest military aviation historians relates the astonishing--and true--story of the only American warplane to fight in every operational theater in World War II from Pearl Harbor to Alaska and North Africa to Northern Europe.

Bring Back My Stringbag John Kilbracken,1996 Vigorous, light-hearted and extraordinarily vivid, this account by Lord Kilbracken of his five years

in the Fleet Air Arm during the Second World War provides a remarkable picture of personal dealings with Swordfish aircraft, affectionately known as Stringbags, which, he asserts, 'seemed to have been left in the war by mistake.' At the same time he reveals what a significant often dramatic, role they played in the world course of hostilities.

December 1941 Evan Mawdsley, 2011-12-01 An account of the dramatic turning point in World War II that marked "the dawn of American might and the struggle for supremacy in Southeast Asia" (Times Higher Education). In far-flung locations around the globe, an unparalleled sequence of international events took place between December 1 and December 12, 1941. In this riveting book, historian Evan Mawdsley explores how the story unfolded . . . On Monday, December 1, 1941, the Japanese government made its final decision to attack Britain and America. In the following days, the Red Army launched a counterthrust in Moscow while the Japanese bombed Pearl Harbor and invaded Malaya. By December 12, Hitler had declared war on the United States, the collapse of British forces in Malaya had begun, and Hitler had secretly laid out his policy of genocide. Churchill was leaving London to meet Roosevelt as Anthony Eden arrived in Russia to discuss the postwar world with Stalin. Combined, these occurrences brought about a "new war," as Churchill put it, with Japan and America deeply involved and Russia resurgent. This book, a truly international history, examines the momentous happenings of December 1941 from a variety of perspectives. It shows that their significance is clearly understood only when they are viewed together. "Marks the change from a continental war into a global war in an original and interesting way."—The Sunday Telegraph Seven (Books of the Year) "Suspenseful . . . Mawdsley embarks on the action from the first day and never lets up in this crisp, chronological study . . . A rigorous, sharp survey of this decisive moment in the war."—Kirkus Reviews

World War II at Sea ,2012

Pacific Alamo John Wukovits, 2004-07-06 It happened in the shadow of Pearl Harbor—mere hours after the first attack on the day that would "live in infamy." But few know the full story of Wake Island. Now a prominent military historian, breaking new ground on the assault, relates the compelling events of that day and the heroic struggle that followed. Thanks to the brave Marines stationed there-and the civilian construction workers who selflessly put their lives on the line to defend the island-what was supposed to be an easy victory became a protracted and costly battle for Imperial Japan. This is the story of that battle, from survivors on both sides, and with a gallery of historic photos.

Mustang Designer Ray Wagner, 2014-12-02 Mustang Designer tells the story of American wartime fighter development, including engines and armaments, as part of a nationwide program of aircraft builders and fliers, focusing on Edgar Schmued, the designer of the Mustang. The P-51 Mustang is widely regarded as the best propeller-driven fighter that ever flew. What many might not realize is that the plane's developer was a German migrant. This book tells of how Schmued created a weapon that would ultimately prove lethal to the aspirations of those who had seized control over his native land.

Danger's Hour Maxwell Taylor Kennedy, 2009-11-03 Drawing on years of research and firsthand interviews with both American and Japanese survivors, Maxwell Taylor Kennedy draws a gripping portrait of men bravely serving their countries in war and the advent of a terrifying new weapon, suicide bombing, that nearly halted the most powerful nation in the world. In the closing months of World War II, Americans found themselves facing a new weapon: kamikazes--the first men to use airplanes as suicide weapons. By the beginning of 1945, facing imminent invasion, Japan turned to its most idealistic young men and demanded of them the greatest sacrifice. On May 11, 1945, days after Germany's surrender, the USS Bunker Hill--with thousands of crewmen and the most sophisticated naval technology available--was 70 miles off the coast of Okinawa when pilot Kiyoshi Ogawa flew his plane into the ship, killing 393 Americans in the worst suicide attack against America until September 11.--From publisher
