Official book of Knutpunkt 2014. Published in conjunction with the Knutpunkt 2014 conference.

Zhukov's Greatest Defeat David M. Glantz,1999 One of the least-known stories of WWII was Operation Mars, a Soviet operation designed to dislodge the German Army from its position west of Moscow. This account of a catastrophe censored from postwar Soviet histories reveals key players and details major events, using sources in German and Russian archives to reconstruct the historical context of Operation Mars and review the entire operation from High Command to platoon level.

March of the Titans the Complete History of the White Race Volume II Arthur Kemp,2016-10-30

The complete history of the white race, spanning 350 centuries. Revealed in this work is the one true cause of the rise and fall of the world's greatest empires - that all civilizations rise and fall according to their racial homogeneity and nothing else-a nation can survive wars, defeats, natural catastrophes, but

not racial dissolution. Volume II contains chapters 40 to 69, postscript, appendices and index.

The Manufacturing of Greta Thunberg Cory Morningstar, 2019-11-19 The manufacturing of Greta Thunberg - for consent: the political economy of the non-profit industrial complex We are introduced to the not-so accidental phenomena of Greta Thunberg, the current child prodigy and face of the youth climate change movement. The climate change is real message is reframed for public consumption and rolled out at an international level, using Greta and her global platform to sound the alarm on climate change. This climate emergency is likened to a house on fire, while urging the public to be serious, patriotic, empathetic and, of course, nonviolent. Not one sentence of the new strategy mentions the horrific impact militarism has on climate change. The New Climate Economy being pushed by groups like Extinction Rebellion merely repackage our oppression into emergency mode. This urgency becomes global so that governments, NGOs and corporations will all direct immediate funding towards unlocking trillions of capital needed to save capitalism by further funding the new green imperialism. Today's youth are used and molded into market solutions to insulate a global elite.

Celebrity-sponsored activism seeks to build a new industry in which NGOs, the media and corporate powers collude to get people to support the very industries we should be erasing from the planet. The planet's most powerful capitalists lie behind these youth-led movements for climate change, helping to manufacture consent for the fourth industrial revolution in an attempt to quell resistance to industrial civilisation.

Völkisch Writers and National Socialism Guy Tourlmain,2014 This book follows the work of a group of right-wing nationalist writers from 1890 to 1960, whose writings both paved the way for the rise of Nazism and continued to stimulate debate about German cultural and political identity after 1945. The volume features studies of Hans Grimm, Kolbenheyer, Schäfer, Strauß, von Münchhausen and Binding.

March of the Titans Arthur Kemp,2018-07-26 The complete history of the white race, spanning 350 centuries. Revealed in this work is the one true cause of the rise and fall of the world's greatest empires - that all civilizations rise and fall according to their racial homogeneity and nothing else-a

nation can survive wars, natural catastrophes, but not racial dissolution.

Tree Shaker Bill Keller,2008 Without deifying its subject, this biography looks at the life of Nelson Mandela, placing his awe-inspiring political accomplishments into historical context for young readers.

With 160 pages of illustrated maps, engaging infographics, mind-blowing photography and a large dose of humour, this is the atlas that shows kids aged 8 and up what the world is really like.

America's National Game Albert Goodwill Spalding,1911 This book is Albert Spaldings work of historic facts concerning the beginning, evolution, development and popularity of base ball, with personal reminiscences of its vicissitudes, its victories and its votaries. It is one of the defining books in the early formative years of modern baseball.

A Life Less Ordinary John Hodge,1997 He's a down-on-his-luck janitor with aspirations of writing

the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

Galactic Pot-healer Philip K. Dick, 1994 What could an omnipresent and seemingly omnipotent entity want with a humble pot-healer? Or with the dozens of other odd creatures it has lured to Plowman's Planet? And if the Glimmung is a god, are its ends positive or malign? Combining quixotic adventure, spine-chilling horror, and deliriously paranoid theology, Galactic Pot-Healer is a uniquely Dickian voyage to alternate worlds of the imagination.
