Antifascisms David Ward,1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

The Book of Dungeon Traps Kent David Kelly,2018 Tumbling boulders crushing over powdered bones, Death pits filled with gibbering slime, Strangling vines, enchanted lodestones, lightning bolts, Hateful wraiths Imprisoned in chests of ancient gold, Chained by holy symbol and silver seal ... Every mechanical horror, every thief's demise, Every fell contraption Lies here, deep in this book of secrets. Would you like to fill your dungeons with traps, but you can never find coherent rules or guidelines to show the way? Are your players weary of arbitrary deathtraps? Have you ever searched in vain for a system which codifies spells into magical traps? Are you bored with the famous four - pits, gas, arrows and poisoned needles - but never know what to replace them with? Castle Oldskull Supplement BDT1, THE BOOK OF DUNGEON TRAPS, is filled with over 800 classic traps and trap variations. Herein you will find rules for boiling mud, Illusionary bridges, amnesia vapor, polymorph traps, unseen servant-triggered machinations, collapsing columns, and much more. Best of all, all traps are collated into hierarchies of Lethality Levels, so that you can always challenge your players without killing their heroes outright. This elaborate tome also includes rules for trap placement in dungeon designs, advice on trap locations, trap triggers, trap detection, trap removal, 10' poles as trap detection devices, and even a complete set of random monster tables to aid you in populating monster pits, cages, summoning traps, alarm-trapped dungeon chambers, and much more. Every trap type features detailed rules which have been culled from dozens of books and dungeon modules, turning hidden and obscure rulings into a methodical and internally consistent system for trap design. Everything you will ever need to fill every dungeon you create with any trap you can dream of, it's all here in a single source. This book is made to interface with Castle Oldskull Supplement CDDG1, THE CLASSIC DUNGEON DESIGN GUIDE, but the integration is completely optional. You do not need both books to make use of them; they simply amplify one another. 49,800 words, 308 pages. Another classic Fantasy Role-Playing Game Supplement from Wonderland Imprints, Only the Finest Works of Fantasy.

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Sissy Dreams: From Boyfriend to Girlfriend Paul Zante, Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Brutified Robert Benefiel,2020-11-27 Brutified is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.

The Acharnians Aristophanes,2021-04-25 Acharnians is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.
