Walking to Aldebaran Adrian Tchaikovsky,2019-05-28 I'M LOST. I'M SCARED. AND THERE'S SOMETHING HORRIBLE IN HERE. My name is Gary Rendell. I'm an astronaut. When they asked me as a kid what I wanted to be when I grew up, I said, "astronaut, please!" I dreamed astronaut, I worked astronaut, I studied astronaut. I got lucky; when a probe exploring the Oort Cloud found a strange alien rock and an international team of scientists was put together to go and look at it, I made the draw. I got even luckier. When disaster hit and our team was split up, scattered through the endless cold tunnels, I somehow survived. Now I'm lost, and alone, and scared, and there's something horrible in here. Lucky me. Lucky, lucky, lucky. A new standalone novella by the Arthur C Clarke Award-winning author of Children of Time.

Jungle Girl Vol. 1 Doug Murray,2008-10-01 Dynamite proudly presents Frank Cho's Jungle Girl! Overseen by co-writer and artist Frank Cho and infused the issue with everything Cho fans want to see - beautiful women, thrilling adventures, and, of course, dinosaurs - Jungle Girl also features Co-writer Doug (Red Sonja: Queen of the Frozen Wastes, The 'Nam) Murray who's along for the ride, as is series artist Adriano (New Battlestar Galactica: Zarek, Red Sonja) Batista as they bring the Jungle Girl to life! Jana the Jungle Girl races to save a group of intruders into this strange land - a land filled with dinosaurs, prehistoric men, and much, much more! Each issue reveals more clues about the nature of Jana, and of the island itself!

Between Technology and Humanity Chris Gastmans, 2002 In the last decade health care has witnessed a host of technological novelties in the field of diagnostic and therapeutic practices, as well as in the supportive information and communication technology and in various applications of genetics, microbiology and informatics. As a result a few questions need to be answered: -Is health care ethics due for a splitting up into an ethics of technology (focusing on the ethical implications of new technologies) and an ethics of care (focusing on the ethical problems concerning chronic diseases, decay, disability, end of life)? -How to cope with dependence, limitation, finiteness, suffering, ... in spite of technological progress? -Could a better integration of technology and care preclude situations where patients are being dehumanised? Starting with a philosophical ethical reflection about the possibilities and dangers of technologies in health care, this book highlights both the relation between technology and care, and the normative aspects of economic analyses in health care. Finally, a series of concrete examples from various clinical fields (prenatal diagnosis, genetic tests, digital imaging in psychiatry, tube feeding in care for the elderly, and palliative sedation) will help the authors to consider how to integrate these technologies in a care context aimed upon humaneness. Since each topic is analysed by leading European clinicians and health care ethicists, this book clearly stands for the interdisciplinary approach in health care ethics This book may be a rich source of material for reflection on the role, meaning and ends of technology and care, as harmonious aspects of clinical health care practice. However, the authors main concern is to show what such a reflection may consist of and how it can contribute to the inquiry into the experience of technology, the needs of humanity and the development of appropriate health care.

To Defend the Earth William Stroock, 2011-09-28 A collection of short stories about an alien invasion of earth. Chapter-1 Presidential Briefing: The newly elected president is briefed by a secret committee which tells her of the alien's approach. The president learns the background of the discovery as well as American military capabilities which include ASAT missiles, Mid-Course Interceptors and airborne lasers. In Washington the pundits wonder, can a president who campaigned on defense cuts and 'bringing the troops home' wage a war against alien invaders? Chapter-2 Kim is ill: North Korean dictator, Kim Jong Il, offers to make an alliance with the approaching aliens. In response China and the United States attack.... Chapter-3: Lt. Wales, the King: In London a pacifist prime minister orders the British armed forces to stand down and the new king moves to stop him. Chapter-4: The Waiting Below: As the war unfolds above, the crew of the USS Olympia bides time and hopes the boat's orders will never have to be carried out. Chapter-5: Citadel: A grizzled news man and a young videographer cover the alien attack on Iceland, a key US base in the defense of Earth. Chapter -6: The French Interrogator's Alien: The French have captured an alien. A cynical interrogator discovers his motivations are very human. Chapter-7: Arawat Kill Box: The aliens invade the sub-continent and take on the cream of the Indian Army, the 1st Armoured Division, the Black Elephants or Arawat in Hindi. Chapter-8: Rising Again: A Japanese skipper takes command of the surviving ships of an American carrier battle group and battles an alien starship. Chapter-9: Guitars and Stars: A guitar playing vagabond flees to his family's mountain home only to find his estranged brother and his family are already there. Oh, and the aliens show up too, but they've never seen anything like the fighting Canavan brothers. Chapter-10: Third

Temple: Far into the future; a religious ceremony commemorates the alien invasion of earth. Chapter-11: The Battle of Luna: A decade after the war the United States Space Ship Wasp attacks alien bases on the moon.
