Logistics Sector Developments ,2008 The study examines policy options relating to the establishment and further development of inland logistics centres and dry ports with an international role. It provides the Economic and Social Commission for Asia and the Pacific (ESCAP) secretariat with a solid base to engage in further research and analysis in this area, in order to present countries with policy options in developing inland logistics centres and dry ports. It examines at the extent to which the concept of a seaport can be applied inland. The publication also developed a cluster concept applied to industry, in particular to the logistics and port industry. It also provides Governments and industry with an initial step- by-step process to evaluate the potential of future logistics centres and dry ports.

What If I Had Never Tried It Enrico Borghi,Valentino Rossi,2009-09-10 Arguably the world's all-time greatest motorcycle road racing champion, Valentino Rossi is without a doubt the best--and the best-loved--in modern times. In What If I Had Never Tried It he tells his remarkable story for the first time. And as might be expected, the story he tells is fast-paced, full of surprises, action-packed, and always entertaining. The son of 1970s racer Graziano Rossi (whose number, 46, he wears when racing), Valentino was born in Urbino, Italy in 1979. Here he relates how he started racing as a teenager, first with karts and minimotos (minibikes). He then traces his rapid and seemingly inexorable progress--from the 125 class to the 250 class to the 500s and finally on to 990 cc four-stroke, now known as MotoGP--to become a seven-time World Champion in Grand Prix racing by the time he was twenty-six. As he describes starting his career as a clownish upstart, only to emerge as "The Doctor" so famed for his precision, Rossi's crowd-pleasing character comes through in abundance. One moment a charismatic jokester, the next an insightful analyst, he is finally the single-minded, focused, strategic racer with split-second skills the rest of us can only dream of, giving us a glimpse of how one man has forever changed the face of motorcycle road racing.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch,2013-03 *Gender Ideologies and Military Labor Markets in the U.S.* offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women's military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women's military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.

Motocourse 2020-2021 Michael Scott,2021-02-16 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alavaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

Estimating Market Value and Establishing Market Rent at Small Airports Aviation Management Consulting Group, Inc., Aeroplex Group Partners, Decker Associates, DKMG Consulting, Hangar Network, 2020 Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development.-- Foreword.
