Stirling Engine Design Manual William Martini,2013-01-25 For Stirling engines to enjoy widespread application and acceptance, not only must the fundamental operation of such engines be widely understood, but the requisite analytic tools for the stimulation, design, evaluation and optimization of Stirling engine hardware must be readily available. The purpose of this design manual is to provide an introduction to Stirling cycle heat engines, to organize and identify the available Stirling engine literature, and to identify, organize, evaluate and, in so far as possible, compare non-proprietary Stirling engine design methodologies. This report was originally prepared for the National Aeronautics and Space Administration and the U. S. Department of Energy.

Global Monitoring Report 2014/2015 World Bank;International Monetary Fund,2014-10-21 The Global Monitoring Report 2014/2015: Ending Poverty and Sharing Prosperity was written jointly by the World Bank Group (WBG) and the International Monetary Fund, with substantive inputs from the Organisation for Economic Co-operation and Development. This year's report details, for the first time, progress toward the WBG's twin goals of ending extreme poverty by 2030 and promoting shared prosperity and assesses the state of policies and institutions that are important for achieving them. The report continues to monitor progress on the Millennium Development Goals (MDGs). Also for the first time, the report includes information about high-income countries. It finds that while gaps in living standards have been closing in many countries, the well-being of households in the bottom 40 percent, as measured by the non-income MDGs such as access to education and health services, remains below that of households in the top 60 percent. The focus of this year's report is on three elements needed to make growth more inclusive and sustainable: investment in human capital that favors the poor, the best use of safety nets, and steps to ensure the environmental sustainability of economic growth. These three elements are imperative to all countries' development strategies, and are also fundamental to global efforts to achieve the twin goals, the MDGs, and the Sustainable Development Goals that will succeed the MDGs. Global Monitoring Report 2014/2015 was prepared in collaboration with regional development banks and other multilateral partners.

Pounder's Marine Diesel Engines and Gas Turbines Malcolm Latarche,2020-12-01 Pounder's Marine Diesel Engines and Gas Turbines, Tenth Edition, gives engineering cadets, marine engineers, ship operators and managers insights into currently available engines and auxiliary equipment and trends for the future. This new edition introduces new engine models that will be most commonly installed in ships over the next decade, as well as the latest legislation and pollutant emissions procedures. Since publication of the last edition in 2009, a number of emission control areas (ECAs) have been established by the International Maritime Organization (IMO) in which exhaust emissions are subject to even more stringent controls. In addition, there are now rules that affect new ships and their emission of CO2 measured as a product of cargo carried. Provides the latest emission control technologies, such as SCR and water scrubbers Contains complete updates of legislation and pollutant emission procedures Includes the latest emission control technologies and expands upon remote monitoring and control of engines

Navigating COVID-19 in Asia and the Pacific Bambang Susantono,Yasuyuki Sawada,Cyn-Young Park,2020-09-01 Coronavirus disease (COVID-19) has unleashed unparalleled challenges. At the same time, it offers a window to rethink Asia's most fundamental development policies and strategies to address inequality, socioeconomic vulnerability, and environmental challenges. This publication gathers blogs and short policy pieces contributed by ADB staff and experts in an attempt to tackle immediate challenges and prepare for what may lie beyond the horizon. It covers a broad range of development challenges and highlights the crucial role of rapid adoption of digital technologies, adequate supply of quality infrastructure, disaster risk management, and strengthening regional cooperation for a resilient and sustainable future by shaping post-pandemic conditions.

The Boston Consulting Group on Strategy Carl W. Stern,Michael S. Deimler,2012-06-14 A collection of the best thinking from one of the most innovative management consulting firms in the world For more than forty years, The Boston Consulting Group has been shaping strategic thinking in business. The Boston Consulting Group on Strategy offers a broad and up-to-date selection of the firm's best ideas on strategy with fresh ideas, insights, and practical lessons for managers, executives, and entrepreneurs in every industry. Here's a sampling of the provocative thinking you'll find inside: You have to be the scientist of your own life and be astonished four times:at what is, what always has been, what once was, and what could be. The majority of products in most companies are cash traps[They] are not only worthless, but a perpetual drain on corporate resources. Use more debt than your competition or get out of the business. When information flows freely, reputation, more than reciprocity,becomes the basis for trust. As a strategic weapon, time is the equivalent of money, productivity,quality, even innovation. When brands become business systems, brand management becomes far too important to leave to the marketing department. The winning organization of the future will look more like a collection of jazz ensembles than a symphony orchestra. Most of our organizations today derive from a model whose original purpose was to control creativity. Rather than being an obstacle, uncertainty is the very engine of transformation in a business, a continuous source of new opportunities. IP assets lack clear property lines. Every bit of intellectual property you can own comes with connections to other valuable

innovations.

Shipwrecks of the Dominican Republic and A Guide to Shipwreck Identification Through Recovered Artifacts Black Duck,2010-08-25 This book is for the young and the old, for the novice and the expert. Automotive Technology James D. Halderman,2012 Automotive Technology: Principles, Diagnosis, and Service, Fourth Edition, meets the needs for a comprehensive book that covers all eight areas of automotive service, plus the soft skills and tool knowledge that must also be taught. Because many automotive systems are intertwined, presenting all systems together in one text makes it easier for the student to see how they are all connected. Topics are divided into 133 short chapters, which makes it easier for instructors and students to learn and master the content.

None Such Like It Annie Dike,2016-05-19 Bilge? What bilge? Sink? It can't sink ... can it? First he was in shock, then he was angry. Then he pretended like it never even happened, like he didn't just buy a magnificent chore-of-a-boat that needed to be stocked, cleaned, repaired and maintained. But we've all been there, and I knew one thing for sure. Helping our hapless buddy bring his new boat home across the Gulf of Mexico was going to make for one heck of a story and endless entertainment when the boat-as boats tend to do-started to give him plenty of grief.
