**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the

war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*On Toleration* Susan Mendus, David S. Edwards, 1987 Contributors: A.J. Ayer, Maurice Cranston, Lord Fitt, F.A. Hayek, Karl Popper, Lord Scarman, and Mary Warnock. Is toleration a requirement of morality or a dictate of prudence? What limits are there to toleration? What is required of us if we are to promote a truly tolerant society? These themes - the grounds, limits, and requirements of toleration - are central to this book, which presents the W. B. Morrell Memorial Lectures on Toleration, given between 1981 and 1987 at the University of York. The lectures cover a wide range of practical and theoretical issues. They consider the philosophical difficulties inherent in the concept as well as the practical problems of implementing a policy of toleration. Although the contributors differ in their conclusions about the grounds of toleration, they all share a belief in the importance of the concept both historically and in modern British society.
