The Last Palace Norman Eisen,2019-09-03 A sweeping yet intimate narrative about the last hundred years of turbulent European history, as seen through one of Mitteleuropa's greatest houses—and the lives of its occupants When Norman Eisen moved into the US ambassador's residence in Prague, returning to the land his mother had fled after the Holocaust, he was startled to discover swastikas hidden beneath the furniture in his new home. These symbols of Nazi Germany were remnants of the residence's forgotten history, and evidence that we never live far from the past. From that discovery unspooled the twisting, captivating tale of four of the remarkable people who had called this palace home. Their story is Europe's, and *The Last Palace* chronicles the upheavals that transformed the continent over the past century. There was the optimistic Jewish financial baron, Otto Petschek, who built the palace after World War I as a statement of his faith in democracy, only to have that faith shattered; Rudolf Toussaint, the cultured, compromised German general who occupied the palace during World War II, ultimately putting his life at risk to save the house and Prague itself from destruction; Laurence Steinhardt, the first postwar US ambassador whose quixotic struggle to keep the palace out of Communist hands was paired with his pitched efforts to rescue the country from Soviet domination; and Shirley Temple Black, an eyewitness to the crushing of the 1968 Prague Spring by Soviet tanks, who determined to return to Prague and help end totalitarianism—and did just that as US ambassador in 1989. Weaving in the life of Eisen's own mother to demonstrate how those without power and privilege moved through history, *The Last Palace* tells the dramatic and surprisingly cyclical tale of the triumph of liberal democracy.

Emergency Response Guidebook U.S. Department of Transportation,2013-06-03 Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Mein Kampf Adolf Hitler,2024-02-26 Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich Beer-hall putsch was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blueprint for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

Reinventing Organizations Frédéric Laloux,2014 The way we manage organizations seems increasingly out of date. Deep inside, we sense that more is possible. We long for soulful workplaces, for authenticity, community, passion, and purpose. In this groundbreaking book, the author shows that every time, in the past, when humanity has shifted to a new stage of consciousness, it has achieved extraordinary breakthroughs in collaboration. A new shift in consciousness is currently underway. Could it help us invent a more soulful and purposeful way to run our businesses and nonprofits, schools and hospitals? A few pioneers have already cracked the code and they show us, in practical detail, how it can be done. Leaders, founders, coaches, and consultants will find this work a joyful handbook, full of insights, examples, and inspiring stories.--Page [4] of cover.

Business Model You Timothy Clark,Alexander Osterwalder,Yves Pigneur,2012-03-12 A one-page tool to reinvent yourself and your career The global bestseller *Business Model Generation* introduced a unique visual way to summarize and creatively brainstorm any business or product idea on a single sheet of paper. *Business Model You* uses the same powerful one-page tool to teach readers how to draw personal business models, which reveal new ways their skills can be adapted to the changing needs of the marketplace to reveal new, more satisfying, career and life possibilities. Produced by the same team that created *Business Model Generation*, this book is based on the *Business Model Canvas* methodology, which has quickly emerged as the world's leading business model description and innovation technique. This book shows readers how to: Understand business model thinking and diagram their current personal business model Understand the value of their skills in the marketplace and define their purpose Articulate a vision for change Create a new personal business model harmonized with that vision, and most important, test and implement the new model When you implement the one-page tool from *Business Model You*, you create a game-changing business model for your life and career.

The Language of Architecture Andrea Simitch,Val Warke,2014-06-01 *DIV* Learning a new discipline is similar to learning a new language; in order to master the foundation of architecture, you must first master the basic building blocks of its language – the definitions, function, and usage. *Language of Architecture* provides students and professional architects with the basic elements of architectural design, divided into twenty-six easy-to-comprehend chapters. This visual reference includes an introductory, historical view of the elements, as well as an overview of how these elements can and have been used across multiple design disciplines.

Nonlinear Model Predictive Control Frank Allgöwer,Alex Zheng,2012-12-06 During the past decade model predictive control (MPC), also referred to as receding horizon control or moving horizon control, has become the preferred control strategy for quite a number of industrial processes. There have been many significant advances in this area over the past years, one of the most important ones being its extension to nonlinear systems. This book gives an up-to-date assessment of the current state of the art in the new field of nonlinear model predictive control (NMPC). The main topic areas that appear to be of central importance for NMPC are covered, namely receding horizon control theory, modeling for NMPC, computational aspects of on-line optimization and application issues. The book consists of selected papers presented at the International Symposium on Nonlinear Model Predictive Control – Assessment and Future Directions, which took place from June 3 to 5, 1998, in Ascona, Switzerland. The book is geared towards researchers and practitioners in the area of control engineering and control theory. It is also suited for postgraduate students as the book contains several overview articles that give a tutorial introduction into the various aspects of nonlinear model predictive control, including systems theory, computations, modeling and applications.

Free Software, Free Society Richard Stallman,2002 Essay Collection covering the point where software, law and social justice meet.

Housing Policy Martin Lux,2003 Housing is not a simple category that can be viewed from a single perspective. On one hand, housing is one of the basic human needs and the right to adequate housing has been classified as a basic human right. On the other hand, housing constitutes a special type of private property, traded on the market. Studies from six countries (Bulgaria, Czech Republic, Estonia, Romania, Poland and Slovakia) that make up this volume describe the different patterns of privatisation during the past decade and give an assessment of national housing policies. The country reports evaluate the effectiveness of local government housing policies, paying special attention to the comparison of different local government solutions regarding the issue of a decrease in housing affordability for low-and middle-income households and to their critical evaluation from the point of view of economic efficiency and social effectiveness.
