Maintaining the traditional approach to the subject, this textbook comprehensively covers first semester paper Principles of Microeconomics. This textbook acquaints the students with the important concepts of microeconomics such as demand, supply & market equilibrium, theory of consumer's behaviour, theory of production & cost, theory of firm & pricing in perfect competition, price & output under monopoly & imperfect competition, theory of distribution and lastly welfare economics & economic efficiency

Principles of Microeconomics, 22e Ahuja H.L., The book makes a comprehensive and analytical study of theories of

demand, production/cost and determination of price and output of products in different market structures. It also discusses theory of factor pricing and income distribution as wages, rent, interest and profits. Above all, it critically analyses the conditions of economic efficiency and maximum social welfare and causes of market failures. It takes a further lead with this revision by aligning its contents with the prescribed UGC model curriculum and new Choice Based Credit System (CBCS) syllabus.

Business Economics HL Ahuja, 2017 The book provides conceptual understanding of essential concepts in business life. It details the foundations of business economics with special emphasis on demand analysis and consumer behaviour. It also discusses analysis of production and cost of the firm, market structures and pricing of products, factor pricing and income distribution and concludes with the discussion of capital budgeting. Based on the author's extensive teaching experience, the book champions a collaborative approach to delivering an appropriate textbook that is curriculum relevant.

Advanced Microeconomic Theory Geoffrey Alexander Jehle, Philip J. Reny, 2001 This advanced economics text bridges the gap between familiarity with microeconomic theory and a solid grasp of the principles and methods of modern neoclassical microeconomic theory.

Introductory Economic Theory [NEHU, Shillong] HL Ahuja, This book begins with an introduction to economics highlighting the economic problem of scarcity and choice. Further, it goes on and discusses the scope of economics as well as acquaints the students with the methodologies of economics. Basic microeconomic concepts such as demand, supply, competitive market equilibrium, elasticity and indifference curve analysis of demand have been explained in a simple and lucid manner. The book also dwells into theories of production, distribution, rent, interest and profits. It also discusses the market structures prevailing in the capitalist economy, namely, perfect competition and imperfect competition; thoroughly highlighting the sub categories of imperfect competition such as monopolistic competition, oligopoly and monopoly. Concepts of average revenue and marginal revenue have also been discussed in the book.
