After nine years of desperate searching for the next Avatar, the discovery of young, charming Avatar Yun has brought stability to the four nations—that is, until Earth Kingdom-born Kyoshi, Yun’s unassuming friend and servant, demonstrates remarkable bending during a mission to the South Pole. With the identity of the true Avatar at stake and the growing unrest among her allies turning into violence, Kyoshi is forced to flee the Avatar mansion with her fiery friend Rangi, taking little more than the metal war fans and headdress her parents left behind. It isn’t easy finding Avatar training on the run, but Kyoshi and Rangi find unlikely supporters in the daofoi: ragtag criminals and outlaws living in the shadows of the Earth Kingdom. Torn between following the traditional path of an Avatar and seeking vengeance for those she has lost, Kyoshi struggles to accept her newfound power as she trains in secret. But while Kyoshi, Rangi, and her daofoi friends face off against brutal underworld rivals, those who seek to control the Avatar draw ever closer to her, leaving trails of the dead in their wake. The story behind the longest-living Avatar in the history of this beloved world, The Rise of Kyoshi maps Kyoshi’s journey from a girl of humble origins to the merciless pursuer of justice still feared and admired centuries after becoming the Avatar.

Narratives Unfolding Martha Langford, 2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. Narratives Unfolding considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. Narratives Unfolding is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

Transtopia in the Sinophone Pacific Howard Chiang,2021-04-06 As a broad category of identity, “transgender” has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another. Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, Transtopia in the Sinophone Pacific highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.

Happiness 6 Shuzo Oshimi,2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, Happiness follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for Flowers of Evil: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, Flowers of Evil is a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo
