Jean Reese Worthley

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

The Edible Flower Garden Rosalind Creasy, 2012-11-27 Learn how to grow lovely and fragrant flowers then use them create delicious meals with this beautifully illustrated flower gardening and cooking book. Anyone who picks up *The Edible Flower Garden* will be tempted to grow, harvest, and sample at least a few of the more than forty varieties of edible flowers. Among them, you'll find more familiar food plants—dill and mustard, for example—in addition to common flowers, such as tulips or roses. Author Rosalind Creasy's stunning photography and detailed plans for an edible flower garden make this a must-have book for any flower gardener or home chef. Come along with Creasy on a tour in colorful pictures and careful diagrams and descriptions of her own flower gardens. Included is a tour of the edible flower gardens of Alice Waters famed *Chez Panisse*

restaurant. Creasy catalogues each variety of flower and how to grow it, plus gives a myriad of delectable ideas on how to use the flower from candied violets and roses to decorate appetizers and cakes, to nasturtiums for a colorful shrimp salad, to day lily buds, pink clover and wild mustard flowers that are tossed together in a spectacular stir-fry. Favorite Recipes Include: Flower Butters Candied Flowers Tulip and Endive Appetizer Pineapple Sage Salsa Rose Petal Syrup Lavender Ice Cream And many more...

The Great International Paper Airplane Book Jerry Mander, Howard Luck Gossage, George Dippel, 1998-08 Paper airplanes as serious science? No longer shamefully relegated to the back rows of elementary-school sports stadiums, paper airplanes come into their own with this amusing -- and instructive -- book. The Great International Paper Airplane Book documents the proceedings of the first (and possibly only) International Paper Airplane Competition conducted by Scientific American. In addition to the behind-the-scenes story and official records of the Competition, readers will discover intriguing mini-essays on the historical, aesthetic, technological, and folkloric aspects of the paper airplane and on its startling implications for the future of aviation. Best of all, there are dozens of cut-fold-and-fly-them-yourself planes to experiment with. Combining real science with outright fun, this book appeals to paper airplane enthusiasts and would-be aviators of every age.

The People's Book Jennifer Powell McNutt, David Lauber, 2017-04-11 Five hundred years ago, Martin Luther's Ninety-Five Theses caught Europe by storm and initiated the Reformation, which fundamentally transformed both the church and society. Yet by Luther's own estimation, his translation of the Bible into German was his crowning achievement. The Bible played an absolutely vital role in the lives, theology, and practice of the Protestant Reformers. In addition, the proliferation and diffusion of vernacular Bibles—grounded in the original languages, enabled by advancements in printing, and lauded by the theological principles

of sola Scriptura and the priesthood of all believers—contributed to an ever-widening circle of Bible readers and listeners among the people they served. This collection of essays from the 2016 Wheaton Theology Conference—the 25th anniversary of the conference—brings together the reflections of church historians and theologians on the nature of the Bible as the people's book. With care and insight, they explore the complex role of the Bible in the Reformation by considering matters of access, readership, and authority, as well as the Bible's place in the worship context, issues of theological interpretation, and the role of Scripture in creating both division and unity within Christianity. On the 500th anniversary of this significant event in the life of the church, these essays point not only to the crucial role of the Bible during the Reformation era but also its ongoing importance as the people's book today.

High Speed Catamarans and Multihulls Liang Yun, Alan Bliault, Huan Zong Rong, 2018-10-29 High speed catamaran and multihull high speed marine vessel have become very popular in the last two decades. The catamaran has become the vessel of choice for the majority of high speed ferry operators worldwide. There have been significant advances in structural materials, and structural design has been combined with higher power density and fuel efficient engines to deliver ferries of increasing size. The multihull has proven itself to be a suitable configuration for active power projection across oceans as well as for coastal patrol and protection, operating at high speed for insertion or retrieval with a low energy capability. At present there is no easily accessible material covering the combination of hydrodynamics, aerodynamics, and design issues including structures, powering and propulsion for these vehicles. Coverage in High Speed Catamarans and Multihulls includes an introduction to the history, evolution, and development of catamarans, followed by a theoretical calculation of wave resistance in shallow and deep water, as well as the drag components of the multihull. A

discussion of vessel concept design describing design characteristics, empirical regression for determination of principal dimensions in preliminary design, general arrangement, and methods is also included. The book concludes with a discussion of experimental future vehicles currently in development including the small waterplane twin hull vessels, wave piercing catamarans, planing catamarans, tunnel planing catamarans and other multihull vessels.

Going Backwards Dale S. Rogers, Ronald S. Tibben-Lembke, 1999

Sanctuaries and the Sacred in the Ancient Greek World John Pedley, 2005-10-17 Covering important themes and issues which are linked to historic and specific sanctuaries, this book will provide students with an accessible yet authoritative introduction to ancient Greek sanctuaries.

Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck,

the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Rockhounding for Beginners Lars W. Johnson, Stephen M. Voynick, 2021-06-08 Go on an outdoor treasure hunt and enjoy all nature has to offer with this field guide to rockhounding, perfect for armchair geologists or anyone headed out on an adventure! Geology meets treasure hunting with this field guide to rockhounding! If you've ever kept an interesting rock or shell, bought a polished stone from a gift shop, or even just enjoyed a 'gram of a really cool crystal, congratulations! Complete with full-color photos to help you identify each rock and mineral wherever you find them, this guide has all the rockhounding information you need whether you're ready to get down and dirty or simply want to learn more from the comfort of your couch.

Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has

focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

The Australian Official Journal of Trademarks, 1906

Babies with Down Syndrome Susan J. Skallerup, 2008 *Babies with Down Syndrome*-- the book that tens of thousands of new parents have turned to for information and guidance-- is now completely revised and updated. Covering medical care, daily care, family life, development, early intervention, learning, legal rights, and much more, the new edition is a complete roadmap to every aspect of your child's health and well being from birth through age five.

The Ephemeral Museum Francis Haskell, 2000-01-01 In this illustrated book, an eminent art historian examines the intriguing history and significance of the international art exhibition of the Old Master paintings.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero

mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Polymer Clay Global Perspectives Cynthia Tinapple, 2013-07-30
Explore the World--in Polymer Clay! Polymer artists are connected like never before. As the acclaimed curator of the popular blog *PolymerClayDaily.com*, Cynthia Tinapple brings together 115 diverse artists from around the world to showcase the work of this new international community. *Polymer Clay Global Perspectives* invites you to explore the trends and cutting-edge styles that are influencing the future of this medium. Begin your own journey through the new landscape of contemporary polymer. A world of possibilities awaits.

Small Steel Craft : Design, Construction and Maintenance Ian Nicolson, 1978

The Form of the Book Jan Tschichold, 1991

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Best Paper Airplanes You'll Ever Fly Klutz Press,1998 When we say these are the best, we're not kidding. The folding instructions are, of course, Klutz-clear and the trimming and flying information is fully field-tested and approved.

The Complete Family Nature Guide Jean Reese Worthley,1976 Introduces some basic facts about plants and animals and offers suggestions for observing them in their natural setting.
