*Recycling Christmas Cards* Anneke Lipsanen, 2014-09-10 If you are a crafter, teacher or parent interested in recycling Christmas cards, then you will love these pretty eco crafts, ideas and special templates to repurpose your used Holiday cards into charming new crafted items. The full color book with instructions and photographs for the 50 projects, plus the template collection with easy craft templates, are all you need to give used greeting cards a second life. The templates are designed and adapted for greeting card sizes and can be used again and again. Don't throw away those beautiful cards after the very short holiday period! Create nifty new items for fabulous scrapbooking, pretty packaging, little personal gifts, fun favors, small tokens of appreciation, creative containers, decor, decorations and ornaments! There are bonus projects, printable pattern paper and a second set of blank craft templates too. Make them for yourself, or to sell at craft markets and fundraising events. And use them for school arts and crafts projects too, as many projects are suitable for children. No fancy coordinated craft shop designs or expensive embellishments are needed. Just use what you have on hand. The happy patchwork medley is exactly what makes the projects in *Recycling Christmas Cards* so charming. Those lavish graphics on greeting cards were created by professional designers and make fabulous crafting material for pennies on the dollar - and in sturdy cardstock to boot. They are just waiting for the new life you can give them. Folks love to browse craft fairs and the likes for those inexpensive little something gifts. Many projects are geared towards such little gifts and stocking stuffers. Crafters will love the 45 craft templates in the book, as they have the perfect size for the projects. (Suggestions for recycling Christmas cards are easy to find, but finding templates that are ready to use and scaled to size are not). For convenience the templates are also available as printable downloads. If you have some odd cards left in a box somewhere, you can start your crafting straight away. Then ask friends, family and neighbors for theirs, as you will soon need (and want) a lot of cards. You can even arrange collection boxes at super markets, clubs and such. It is not just about recycling Christmas cards, but about recycling Christmas fun - all year long! So keep every one of your cards and get started for the next Holiday season, because 40 million recycled cards save 13 600 trees! Reuse, remake, repurpose, reduce, recycle and rethink!

**Sticks and Stones** Melissa Lennig,2019-05-07 Sticks and Stones presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using the materials made readily available to them, from cabins and tipis to bridges and dams. Many smaller scale projects are included, too--such as how to make ochre paint with shale, make a fishing pole, and carve a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog Fireflies and Mud Pies) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. Sticks and Stones details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. Sticks and Stones is an essential resource for every junior outdoor adventurer.

**Zen drawing - a new way to become an artist** Michelle Dujardin,2014-07-25 This eBook is derived from the hardcover book called 'the Zen drawing Pack', which was published in October 2014 by Rockpoint publishers and as an eBook called 'The Zen drawing eBook' by the authors. In this eBook called 'Zen drawing - a new way to become an artist', the authors have put less emphasis on the Zen Buddhism background of Zen drawing and more emphasis on the artistic benefits that can be found by using the techniques described in the hardcover book. For instance by adding a chapter on the use of watercolors and ink. As with all their books on Zen drawing, this eBook is based on the works of Frederick Franck and Betty Edwards. In this eBook artist Michelle Dujardin helps you to awaken your inner artist and add soul to your sketches by ignoring conventional drawing techniques and focus on really seeing your subject. Michelle helps you achieve a meditative state just by changing the way

you see a subject, and allow your hands to follow the movement of your eyes. When you trust your own drawing reflex, the art that you create will become more expressive and beautiful than what you've done before. Not great with a pencil? Don't worry, everyone can learn to draw this way and you don't need any special talent or class. For any level of artist, from a beginner with little talent to an illustration expert, Zen drawing is not about making perfect pictures, it is about the experience of drawing, finding inspiration, and connecting to the world around you.
