**Instruction Manual for Ford Trimotor Airplane**

Stout Metal Aircraft Co 2013-06 First produced in 1925, the Ford Trimotor had an immediate impact on commercial aviation, enabling Transcontinental Air Transport to launch coast-to-coast service in the USA and helping Pan American Airways expand into Central and South America. Developed by William B. Stout, whose Stout Metal Airplane Company was acquired by Ford Motor Co. in 1924, the aircraft had three Wright radial engines and boasted all-metal construction. It could fly in both passenger and cargo configurations and was, for its time, both reliable and rugged. Its capacity however was limited,

with Rapid advances in aviation led to the curtailment of production in 1933. By then 199 "Tin Gooses" had been produced. They would go on to fly with over 100 airlines worldwide, and in the service of the U.S. military and other air forces. Originally entitled "Suggestions on the Operation of the Ford Trimotor," this flight manual dates to 1926. It provides a fascinating look inside the cockpit of one of history's most iconic aircraft.

**Vought A-7 Corsair II** Mat "Irish" Garretson 2021-09-28 Born of necessity during the Vietnam

War, the Vought A-7 Corsair II ushered in a level of lethality, target accuracy, and economy not realized in any plane before it, and, arguably, any that followed. Originally designed as a "bomb truck," the A-7 would, with the assistance (and insistence) of the US Air Force, realize its full potential. It was the first combat aircraft to feature a heads-up display (HUD)--an incredibly accurate, integrated navigation/weapons computer--and a host of other innovations like fly-by-wire and forward-looking infrared (FLIR) cameras; abilities today's combat pilot takes for granted. This book tells the story of the A-7 from design and development to combat deployment from Vietnam to its last use in Operation Desert Storm. Its multiple variants are discussed along with its use by the US Navy and Air Force, as well as overseas with the air forces of Greece and Portugal.
