Taoist Astrology Susan Levitt 1997-06-01 This guide brings Chinese astrology back to its ancient roots, providing all the information you need for understanding one of the world's oldest systems of divination. The ancient Chinese people developed a sophisticated science of astrology that continues to have profound influence in China today. Rooted in the fundamentals of Taoism, it evolved into a system vastly different from Western astrology. Rather than determining personality by the time of the year in which you are born, in Taoist astrology it is the year itself that determines your character. The years form a twelve-year cycle of signs, each named after an animal. Additionally, your personality depends on which of the five traditional Taoist elements you are born under—water, wood, fire, earth, or metal. This makes for a cycle of sixty unique signs. Taoist Astrology includes information for each sign's personality, compatibility, child-parent relations, and rising and falling fortunes during the twelve-year cycle. Discussions of yin and yang, Confucianism and Buddhism, Taoist alchemy, and the connection between Taoist astrology and Western astrology give you all the background you need for understanding one of the oldest systems of divination known to humanity. Taoist Astrology differs from other books on the subject by grounding its concepts in the ancient traditions from which it originated.

Dog Days Ivan Franceschini 2019-04-05 According to the Chinese zodiac, 2018 was the year of the 'earthly dog'. In the middle of the long, hot, and feverish dog days of the summer of 2018, some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union. While this action was met by the harshest repression, it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country, which in turn were immediately and severely suppressed. China's year of the dog was also imbued with the spirit of another canine, Cerberus—the three-headed hound of Hades—with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society, starting from the northwestern region of Xinjiang. This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour, civil society, and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

Having participated in a spectacular betrayal in Los Angeles, the giant, silent Arthur Key drifts into work as a carpenter in southern Idaho. Here he is hired, along with the shiftless and charming Ronnie Panelli, to build a stunt ramp beside a cavernous void. The two will be led by Darwin Gallegos, the foreman of the local ranch who is filled with a primeval rage at God, at man, at life. As they endeavor upon this simple, grand project, the three reveal themselves in cautiously resonant, profound ways. And in a voice of striking intimacy and grace, Carlson's novel reveals itself as a story of biblical, almost spiritual force. A bellwether return from one of our greatest craftsmen, Five Skies is sure to be one of the most praised and cherished novels of the year.

Gilded Age Ivan Franceschini 2018-04-01 According to the Chinese zodiac, 2017 was the year of the 'fire rooster', an animal often associated with the mythical fenghuang, a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing. Considering the auspicious symbolism surrounding the fenghuang, it is fitting that on 18 October 2017, President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a 'new era' for Chinese socialism. However, in spite of such ecumenical proclamations, it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities. Migrant workers,

for one, remain disposable. Lawyers, activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world. This Yearbook traces the stark new 'gilded age' inaugurated by the Chinese Communist Party. It does so through a collection of more than 40 original essays on labour, civil society and human rights in China and beyond, penned by leading scholars and practitioners from around the world.
