MiniEco Kate Lilley, 2013 *MiniEco* is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the *MiniEco* website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

Alexander Calder and His Magical Mobiles Jean

Lipman,Margaret Aspinwall,1981 Alexander Calder is surely the most beloved artist of the twentieth century - as well as a major figure in the history of modern sculpture. Calder invented the mobile and the stabile; he was endlessly creative at making drawings, jewellery, toys, and household objects; he even made a miniature circus that is treasured by children of all ages. Calder has been appreciated as much for his witty and playful personality as for his artistic genius. Now aspects of both the man and the artist are captured in a beautifully produced book, created to be especially accessible for young readers. *Alexander Calder and His Magical Mobiles* with its delightful text tells the story of Calder's life and career, and relates - often in the artist's own words - his working methods and his own feelings about his art. The publication also presents a treasury of favourite works by Calder, as well as fascinating photographs of the artist at work. There is also a sequence of photographs that can be flipped to show a mobile in motion. AUTHOR: Jean Lipman, an authority on American art and modern sculpture is a long-time friend of Calder and his family and has collected his work for many years. Mrs Lipman is the author three Calder books and was the editor of *Art in America* magazine for thirty years, then following that she was editor of publications at the Whitney Museum of American Art. SELLING POINTS: *In 95 illustrations Calder's sculptures are presented as studies of motion, which also depict his playfulness and humour *Includes a guide to many of the Calder sculptures that can be seen in museums and public spaces around the world ILLUSTRATIONS: 40 colour & 55 b/w illustrations

Paper Dandy's Horrorgami features 20 kirigami (cut-and-fold) designs based around haunted houses and scenes from horror films by the creator of the successful Horrorgami blog and exhibition. Each project features step-by-step instructions and a template that you remove from the book. You then follow the lines on the template, cutting and folding to make your own kirigami model. All you need is a scalpel, a cutting mat and a ruler. Clear cutting tips help you with the tricky stages and give you an order in which to complete your work, while photos of the finished model show you the final design. Suitable for folding experts and beginners alike, Paper Dandy's Horrorgami makes the perfect Halloween activity.

Origami Puzzles Marc Kirschenbaum, 2013-02-02 Some puzzles work very well as origami models - all of these works are based on existing puzzle designs. Providing the opportunity to fold your own pieces makes the geometric relationships of the pieces more apparent, but not necessarily easier to solve. Every effort was made to have the pieces for these puzzles begin with the same sized square.

Paper Boxes Jennifer Sanderson, 2014-07 This easy to follow introduction to the art of paper-folding will teach you how to make classic origami models and brand new crafts. Each fun project is illustrated with clear, step-by-step photographs. Inside you will learn how to make lots of different containers, from pen holders and star-shaped boxes to little baskets.
