Civil Society Revisited Kerstin Jacobsson, Elżbieta Korolczuk, 2017-06-01 In much social scientific literature, Polish civil society has been portrayed as weak and passive. This volume offers a much-needed corrective, challenging this characterization on both theoretical and empirical grounds and suggesting new ways of conceptualizing civil society to better account for events on the ground as well as global trends such as neoliberalism, migration, and the renewal of nationalist ideologies. Focusing on forms of collective action that researchers have tended to overlook, the studies gathered here show how public discourse legitimizes certain claims and political actions as “true” civil society, while others are too often dismissed. Taken together, they critique a model of civil society that is ‘made from above’.

*Rebellious Parents* Katalin Fábián, Elżbieta Korolczuk, 2017-07-18 Parental activism movements are strengthening around the world and often spark tense personal and political debate. With an

emphasis on Russia and Central and Eastern Europe, this collection analyzes formal organizations as well as informal networks and online platforms which mobilize parents to advocate for change on a grassroots level. In doing so, the work collected here explores the interactions between the politics, everyday life, and social activism of mothers and fathers. From fathers' rights movements to natural childbirth to vaccination debates, these essays provide new insight into the identities and strategies applied by these movements as they confront local ideals of gender and family with global ideologies.

The Polish Climate in the European Context: An Historical Overview Rajmund Przybylak, Jacek Majorowicz, Rudolf Brázdil, Marek Kejan, 2009-12-03 Reconstruction of the climate variability of the past 500 years is a topic of great scientific interest not only in global terms, but also at regional and local levels. This period is interesting on account of the increasing influence of anthropogenic forcing and its overlap with natural factors. The Polish Climate in the European Context: An Historical Overview summarises the results of research into climate variability based on a combination of instrumental, documentary, dendrochronological and borehole data from Poland. The first part of the book provides a Central European perspective of research in these fields, which forms the general background for a presentation of the state of the art of climatic change studies in Poland during the past 500 years (Part 2). This is followed by a selection of papers dealing mainly with different aspects of climate variability in Poland and Central Europe (Part 3). This book is a valuable tool integrating Polish, Central and Eastern European climate research into the global context. It is, as such, a must for climate researchers worldwide. (Gaston Demarée, Royal Meteorological Institute of Belgium) This volume marks a significant step forward in our understanding of European climatic history. (Christian Pfister, University of Bern)

*The Stone Carvers* Jane Urquhart, 2010-10-29 Set in the first half of the twentieth century, but reaching back to Bavaria in the late nineteenth century, *The Stone Carvers* weaves together the story of ordinary lives marked by obsession and transformed by art. At the centre of a large cast of characters is Klara Becker, the granddaughter of a master carver, a seamstress haunted by a love affair cut short by the First World War, and by the frequent disappearances of her brother Tilman, afflicted since childhood with wanderlust. From Ontario, they are swept into a colossal venture in Europe years later, as Toronto sculptor Walter Allward's ambitious plans begin to take shape for a war memorial at Vimy, France. Spanning three decades, and moving from a German-settled village in Ontario to Europe after the Great War, *The Stone Carvers* follows the paths of immigrants, labourers, and dreamers. Vivid, dark, redemptive, this is novel of great beauty and power.

*The European Union and Russia* Great Britain. Parliament. House of Lords. European Union Committee, 2008 The relationship between the European Union and Russia has been going through a difficult phase with disputes over energy supplies, foreign policy issues, and tension between Russia and individual Member States. The change of presidency in Russia provides an opportunity to take stock and to consider whether this deterioration can and should be reversed. Russian politicians emphasise the importance of the relationship. This report discusses how the relationship might be developed in practice. The report examines Russia as a European country, its recent history, and the current economic situation in Russia. It then considers the institutional framework for Russia-EU relations, including the Partnership and Co-operation Agreement. The Committee believes closer co-operation should be fostered in several areas of common interest: economic, freedom, security and justice, research and education and culture. Energy is an important subject: there are concerns

about whether Russia can supply sufficient gas and oil to meet its current and foreseeable domestic demand and international commitments. The security of energy supply to the EU is vital. The Russian view of international security issues is also very different from that of the West, and developments in the near neighbourhood of Russia are a very sensitive geopolitical area. Russian support for Serbia is contrasted with their co-operation on Iran. The two sides work together usefully on the Middle East, terrorism, non-proliferation, and other issues. The EU should continue and strengthen its efforts to reach common ground with the Russians on such international issues, but should also speak out if the Russian government falls short of the standards it has formally accepted in a number of international agreements.
