Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Ijrvet International Journal for Research in Vocational Education and Training Michael Gessler, Karen Evans, Johanna Lasonen, 2019-01-07 The International Journal for Research in Vocational Education and Training (IJRVET) is a double blind peer-reviewed journal for VET-related research. This journal provides full open electronic access to its content on the principle that making research freely available to the science community and the public supports a greater global exchange of knowledge and the further development of expertise in the field of Vocational Education and Training (understood in a wide sense and also

known as e.g. TVET Technical Vocational Education and Training, Professional Education and Training, Career and Technical Education, Workforce Education). All articles can also be downloaded from the IJRVET Homepage: <http://www.ijrvet.net>. IJRVET covers all topics of VET-related research from Career and Technical Education (CTE) and Initial Vocational Education and Training (IVET) to Workforce Education and Continuing Vocational Education and Training (CVET). The Yearbook includes all electronic articles published in 2018

Foreign Bodies Bronwen Douglas, Chris Ballard, 2008-10-01 From the 18th century, Oceania became the principal laboratory of raciology for scholars, voyagers, and colonizers alike. By juxtaposing encounters and theory, this magisterial book explores the semantics of human difference in all its emotional, intellectual, religious, and practical dimensions. The argument developed is subtle, engrossing, and gives the paradigm of 'race' its full use value. Foreign Bodies is a model of analysis and erudition from which historians of science and everyone interested in intercultural relations will greatly profit.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first

English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Sick Tom Leveen, 2014-08-26 Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers. The four poems from the first volume also included in this volume are, *Streets of Fire*, *Gausius Dia*, *Heaven Descends to Dwell*, *Amelia and Memories*. Speeches of Note Shaun Usher, 2018-12-04 From the author of the New York Times bestseller *Letters of Note* comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement address affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, *Speeches of Note* honors the words and ideas of some of history's most provocative and inspiring personages.

Adobe PageMaker 6.5, 1997 Classroom in a Book: Adobe PageMaker 6.5 is a cross-platform, self-paced training guide to all the power and features of the top-rated DTP software. In a matter of hours, users can fully comprehend the complexities of the software by doing rather than reading. The CD contains the art files, text files, fonts, and training materials needed to complete the tutorial lessons.

Grandpa and Thomas and the Green Umbrella Pamela Allen, 2009 This beautiful picture book for the very young follows on from the CBC Award-winning *Grandpa and Thomas* and again depicts the special relationship between grandchild and grandfather. This time, when Grandpa and Thomas go to the beach they swim, picnic, slide down the

sand-dunes and build a sand-car. Then the weather turns stormy and the two shelter in the car, under the green umbrella, until the storm passes. Pamela Allen's picture books are ideal for showing students how rhythm, repetition and humour can be used to create a successful and engaging text. It is wonderful to share and read aloud with very small children, as the words encourage their active participation.

Introducing Transformational Grammar Jamal Ouhalla, 1999 The first edition of this book quickly established itself as one of the clearest and most readable introductions to generative grammar.
