Cultural Memory Jeanette Rodríguez,Ted Fortier,2009-01-27 Sangre llama a sangre. (Blood cries out to blood.)—Latin American aphorism The common blood of a people—that imperceptible flow that binds neighbor to neighbor and generation to generation—derives much of its strength from cultural memory. Cultural memories are those transformative historical experiences that define a culture, even as time passes and it adapts to new influences. For oppressed peoples, cultural memory engenders the spirit of resistance; not surprisingly, some of its most powerful incarnations are rooted in religion. In this interdisciplinary examination, Jeanette Rodríguez and Ted Fortier explore how four such forms of cultural memory have preserved the spirit of a particular people. Cultural Memory is not a comparative work, but it is a multicultural one, with four distinct case studies: the image of Our Lady of Guadalupe and the devotion it inspires among Mexican Americans; the role of secrecy and ceremony among the Yaqui Indians of Arizona; the evolving narrative of Archbishop Oscar Romero of San Salvador as transmitted through the church of the poor and the martyrs; and the syncretism of Catholic Tzeltal Mayans of Chiapas, Mexico. In each case, the authors' religious credentials eased the resistance encountered by social scientists and other researchers. The result is a landmark work in cultural studies, a conversation between a liberation theologian and a cultural anthropologist on the religious nature of cultural memory and the power it brings to those who wield it.

Barack Obama's America John White,2018-03-22 White's Barack Obama's America eloquently captures both the important nuances of the current political scene and its long-term consequences. ---Richard Wirthlin, former pollster for Ronald Reagan This delightfully written and accessible book is the best available account of the changes in culture, society, and politics that have given us Barack Obama's America. ---Stan Greenberg, pollster for Bill Clinton and Chairman and CEO of Greenberg Quinlan Rosner Research From one of the nation's foremost experts on how values shape our politics, a clear and compelling account of the dramatic shifts in social attitudes that are transforming American political culture. White's masterful blend of narrative and data illuminates the arc of electoral history from Reagan to Obama, making a powerful case for why we are entering a new progressive political era. ---Matthew R. Kerbel, Professor of Political Science, Villanova University, and author of Netroots John Kenneth White is bold. He asks the big questions . . . Who are we? What do we claim to believe? How do we actually live? What are our politics? John Kenneth White writes compellingly about religion and the role it played in making Barack Obama president. White's keen insight into America's many faiths clarifies why Barack Obama succeeded against all odds. It is a fascinating description of religion and politics in twenty-first-century America---a must-read. ---Kathleen Kennedy Townsend, former Lieutenant Governor of Maryland and author of Failing America's Faithful In Barack Obama's America, John Kenneth White has written the political equivalent of Baedeker or Michelin, the definitive guide to and through the new, uncharted political landscape of our world. White captures and explains what America means---and what it means to be an American---in the twenty-first century. ---Mark Shields, nationally syndicated columnist and political commentator for PBS NewsHour John White has always caught important trends in American politics that others missed. With his shrewd analysis of why Barack Obama won, he's done it again. ---E. J. Dionne, Jr., Senior Fellow, Brookings Institution, and University Professor in the Foundations of Democracy and Culture at Georgetown University The election of Barack Obama to the presidency marks a conclusive end to the Reagan era, writes John Kenneth White in Barack Obama's America. Reagan symbolized a 1950s and 1960s America, largely white and suburban, with married couples and kids at home, who attended church more often than not. Obama's election marks a new era, the author writes. Whites will be a minority by 2042. Marriage is at an all-time low. Cohabitation has increased from a half-million couples in 1960 to more than 5 million in 2000 to even more this year. Gay marriages and civil unions are redefining what it means to be a family. And

organized religions are suffering, even as Americans continue to think of themselves as a religious people. Obama's inauguration was a defining moment in the political destiny of this country, based largely on demographic shifts, as described in Barack Obama's America. John Kenneth White is Professor of Politics at the Catholic University of America in Washington, D.C. Cover image: Out of many, we are one: Dare to Hope: Faces from 2008 Obama Rallies by Anne C. Before Nature H. Paul Santmire, 2014 *Before Nature* caps a set of themes first brought to the fore in Santmire's previous work. Santmire continues the pursuit of a theology bound up with nature and its condition, especially the fragility and fervent expectation of nature's redemption. Santmire invites readers on a theological and spiritual journey to a prayerful and contemplative knowledge of the Triune God, in which practitioners are inducted into a bountiful relationship with the cosmic and universal ministry of Christ and the Spirit.

General A.P. Hill James I. Robertson, Jr., 2010-08-11 A Confederate general who ranks with Lee, Jeb Stuart, and Stonewall Jackson but whose achievements have been unfairly neglected until now, finally receives his due in this invaluable biography by a noted historian of the Civil War. Drawing extensively on newly unearthed documents, this work provides a gripping battle-by-battle assessment of Hill's role in Antietam, Fredericksburg, Gettysburg, and other battles. 8 pages of photographs.

Being the Church in the Midst of Empire Karen L. Bloomquist, 2007 Against the backdrop of a general sense of what empire entails, the purpose of this book is to engage in some constructive theological reflection. Empire refers to various interrelated processes of domination and their effects that are in tension with biblical visions for life in community. There are countless effects and crucial ethical issues raised by empire, especially in economic and political terms. But it also poses deeply theological challenges because of how all-encompassing empire becomes, permeating how we think about ourselves and others, our world, our hopes and our desires. This book presupposes that the publicly embodied identity (or being) of the church in the midst of empire is fundamentally rooted in the life of the Triune God. From this Trinitarian perspective the writers develop theological responses that have the potential to counter, transform, and nurture long-term reform of empire, especially in and through communities of faith.

Anthropology and the Racial Politics of Culture Lee D. Baker, 2010-03-03 In the late nineteenth century, if ethnologists in the United States recognized African American culture, they often perceived it as something to be overcome and left behind. At the same time, they were committed to salvaging "disappearing" Native American culture by curating objects, narrating practices, and recording languages. In *Anthropology and the Racial Politics of Culture*, Lee D. Baker examines theories of race and culture developed by American anthropologists during the late nineteenth century and early twentieth. He investigates the role that ethnologists played in creating a racial politics of culture in which Indians had a culture worthy of preservation and exhibition while African Americans did not. Baker argues that the concept of culture developed by ethnologists to understand American Indian languages and customs in the nineteenth century formed the basis of the anthropological concept of race eventually used to confront "the Negro problem" in the twentieth century. As he explores the implications of anthropology's different approaches to African Americans and Native Americans, and the field's different but overlapping theories of race and culture, Baker delves into the careers of prominent anthropologists and ethnologists, including James Mooney Jr., Frederic W. Putnam, Daniel G. Brinton, and Franz Boas. His analysis takes into account not only scientific societies, journals, museums, and universities, but also the development of sociology in the United States, African American and Native American activists and intellectuals, philanthropy, the media, and government entities from the Bureau of Indian Affairs to the Supreme Court. In *Anthropology and the Racial Politics of Culture*, Baker tells how anthropology has both responded to and helped shape ideas about race and culture in the United States, and how its ideas have been appropriated (and misappropriated) to wildly different ends.

Wild at Heart John Eldredge,2011-04-17 In all your boyhood dreams of growing up, did you dream of being a nice guy? Eldredge believes that every man longs for a battle to fight, an adventure to live, and a beauty to rescue. That is how he bears the image of God; that is what God made him to be.

Early Photography at Gettysburg William A. Frassanito,1998-06-01 This book is the best and most complete study of Gettysburg photography. It is the long-awaited companion to *Gettysburg: A Journey in Time*. In the 20 years since *Journey*, Frassanito has uncovered many more never-before published photos of people and places significant to Gettysburg's early history as well as new information on commonly known photos, presented in a clear format. One of the greatest battlefields in the world was documented when the field still looked essentially as it did at the time of the battle. Frassanito focuses on the period between 1859 and 1869, a period that begins with the earliest outdoor photograph known to have been recorded in the town, through the photographic series which comprised the last substantial postwar coverage of the field itself before the memorial craze adorned the area with monuments and avenues. - Publisher.

FAITH IN THE FACE OF EMPIRE RAHEB,2014-02-10 A Palestinian Christian theologian shows how the reality of empire shapes the context of the biblical story, and the ongoing experience of Middle East conflict.

Gettysburg William A. Frassanito,1975 This book is a unique example of photographic detective work in which the famous battle is re-created almost as if it were a contemporary news event. The reader is transported to the battlefield by the photographs and through the analysis of the photographs to the battle itself. We watch it unfold, action by action. In meticulous close-up fashion, with documentary force, we see the terrible encounters of men at war. - Publisher.

A Climate of Justice: An Ethical Foundation for Environmentalism Marvin T. Brown,2022-01-01 This open access book helps readers combine history, politics, and ethics to address the most pressing problem facing the world today: environmental survival. In *A Climate of Justice*, Marvin Brown connects the environmental crisis to basic questions of economic, social, and racial justice. Brown shows how our current social climate maintains systemic injustices, and he uncovers resources for change through a civic ethics of repair and reciprocity. A must-read for researchers and educators in the area of environmental ethics and those teaching courses in the fields of public policy and environmental sustainability. With the support of more than 30 libraries, the LYRASIS United Nations Sustainable Development Goals Fund has enabled this publication related to SDG13 (Climate Action) to be available fully open access.

Who Is the Church? Cheryl M. Peterson,2013-05-01 Many congregations today are beset by fears, whether over loss of members and money, or of irrelevancy in an increasingly pluralistic society. To counter this, many congregations focus on strategy and purpose-what churches do-but Cheryl Peterson submits that mainline churches need to focus instead on what or who they are-to reclaim a theological, rather than sociological, understanding of themselves. To do this, she places the questions of the church's identity and mission into a conversation with the primary ecclesiological paradigms of the past century: the neo-Reformation concept of the church as a word event and the ecumenical paradigms of the church as communion. She argues that these two paradigms assume a context of cultural Christendom that no longer exists-focused on the church that is gathered-rather than the missional church that is sent out.

The End of Evangelicalism? Discerning a New Faithfulness for Mission David E. Fitch, 2011-02-04 In *The End of Evangelicalism?* David Fitch examines the political presence of evangelicalism as a church in North America. Amidst the negative image of evangelicalism in the national media and its purported decline as a church, Fitch asks how evangelicalism's belief and practice has formed it as a political presence in North America. Why are evangelicals perceived as arrogant, exclusivist, duplicitous, and dispassionate by the wider culture? Diagnosing its political cultural presence via the ideological theory of Slavoj Žižek, Fitch argues that evangelicalism appears to have lost the core of its politic: Jesus Christ. In so doing its politic has become empty. Its witness has been rendered moot. The way back to a vibrant political presence is through the corporate participation in the triune God's ongoing work in the world as founded in the incarnation. Herein lies the way towards an evangelical missional political theology. Fitch ends his study by examining the possibilities for a new faithfulness in the current day emerging and missional church movements springing forth from evangelicalism in North America.
