The African American Experience in Vietnam James E. Westheimer 2008 In this book James E. Westheimer explores the social and professional paradoxes facing African-American soldiers in Vietnam. Service in the military started as a demonstration of the merits of integration as blacks competed with whites on a near equal basis for the first time. Military service, especially service in Vietnam, helped shape modern black culture and fostered a sense of black solidarity in the Armed Forces. But as the war progressed, racial violence became a major problem for the Armed Forces as they failed to keep pace with the sweeping changes in civilian society. Despite the boasts of the Department of Defense, personal and institutional racism remained endemic to the system. Westheimer tells this story expertly and accessibly by providing the history and background of African American participation in the U.S. Armed Forces then following all the way through to the experience of African Americans returning home from the Vietnam war.

Written in consultation with original series writer Tim Hedrick! ***Japanese Influence on American Children's Television*** Gina O'Melia 2019-07-11 Japanese Influence on American Children's Television examines the gradual, yet dramatic, transformation of Saturday morning children's programming from being rooted in American traditions and popular culture to reflecting Japanese popular culture. In this modern era of globalization and global media/cultural convergence, the book brings to light an often overlooked phenomenon of the gradual integration of narrative and character conventions borrowed from Japanese storytelling into American children's media. The book begins with a brief history of Saturday morning in the United States from its earliest years, and the interaction between American and Japanese popular media during this time period. It then moves onto reviewing the dramatic shift that occurred within the Saturday morning block through both an overview of the transitional decades as well as an in-depth analysis of the transformative ascent of the shows Mighty Morphin Power Rangers, Pokémon, and Yu-Gi-Oh!
