Imagining the Global Fabienne Darling-Wolf, 2014-12-22 Based on a series of case studies of globally distributed media and their reception in different parts of the world, *Imagining the Global* reflects on what contemporary global culture can teach us about transnational cultural dynamics in the 21st century. A focused multisited cultural analysis that reflects on the symbiotic relationship between the local, the national, and the global, it also explores how individuals' consumption of global media shapes their imagination of both faraway places and their own local lives. Chosen for their continuing influence, historical relationships, and different geopolitical positions, the case sites of France, Japan, and the United States provide opportunities to move beyond common dichotomies between East and West, or United States and "the rest." From a theoretical point of view,

Imagining the Global endeavors to answer the question of how one locale can help us understand another locale. Drawing from a wealth of primary sources—several years of fieldwork; extensive participant observation; more than 80 formal interviews with some 160 media consumers (and occasionally producers) in France, Japan, and the United States; and analyses of media in different languages—author Fabienne Darling-Wolf considers how global culture intersects with other significant identity factors, including gender, race, class, and geography. Imagining the Global investigates who gets to participate in and who gets excluded from global media representation, as well as how and why the distinction matters.

Global Warming David Archer, 2011-09-21 Archer's Global Warming: Understanding the Forecast 2nd Edition, is the first real text to present the science and policy surrounding climate change at the right level. Accompanying videos, simulations and instructional support makes it easier to build a syllabus to improve and create new material on climate change. Archer's polished writing style makes the text entertaining while the improved pedagogy helps better understand key concepts, ideas and terms. This edition has been revised and reformulated with a new chapter template of short chapter introductions, study questions at the end, and critical thinking puzzlers throughout. Also a new asset for the BCS was created that will give ideas for assignments and topics for essays and other projects. Furthermore, a number of interactive models have been built to help

understand the science and systems behind the processes.

JLA. Kurt Busiek, Allan Heinberg, Geoff Johns, 2017 In the wake of IDENTITY CRISIS, the JLA decides the time has come to tell Batman that they stole part of his memory. But, the League is attacked by the Secret Society of Super-Villains -- out for vengeance now that their own memories are restored. As the JLA battles, the Martian Manhunter confronts Despero -- the alien conqueror and the one behind the villains' memory-restoration. By the time the dust settles, the JLA may have won the battle but lost the war!--

The Social Media Reader Michael Mandiberg, 2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers, The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson,

Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

Mainstream Culture Refocused Xueping Zhong, 2019-01-31 Serialized television drama (dianshiju), perhaps the most popular and influential cultural form in China over the past three decades, offers a wide and penetrating look at the tensions and contradictions of the post-revolutionary and pro-market period. Zhong Xueping's timely new work draws attention to the multiple cultural and historical legacies that coexist and challenge each other within this dominant form of story telling. Although scholars tend to focus their attention on elite cultural trends and avant garde movements in literature and film, Zhong argues for recognizing the complexity of dianshiju's melodramatic mode and its various subgenres, in effect refocusing mainstream Chinese culture. Mainstream Culture Refocused opens with an examination of television as a narrative motif in three contemporary Chinese art-house films. Zhong then turns her attention to dianshiju's most important

subgenres. Emperor dramas highlight the link between popular culture's obsession with emperors and modern Chinese intellectuals' preoccupation with issues of history and tradition and how they relate to modernity. In her exploration of the anti-corruption subgenre, Zhong considers three representative dramas, exploring their diverse plots and emphases. Youth dramas' rich array of representations reveal the numerous social, economic, cultural, and ideological issues surrounding the notion of youth and its changing meanings. The chapter on the family-marriage subgenre analyzes the ways in which women's emotions are represented in relation to their desire for happiness. Song lyrics from music composed for television dramas are considered as popular poetics. Their sentiments range between nostalgia and uncertainty, mirroring the social contradictions of the reform era. The Epilogue returns to the relationship between intellectuals and the production of mainstream cultural meaning in the context of China's post-revolutionary social, economic, and cultural transformation. Provocative and insightful, *Mainstream Culture Refocused* will appeal to scholars and students in studies of modern China generally and of contemporary Chinese media and popular culture specifically.

PoC or GTFQ Manul Laphroaig, 2017-10-31 This highly anticipated print

collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTF0 follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELF's are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

Programming for TV, Radio & The Internet Lynne Gross, Brian Gross, Philippe Perebinosoff, 2012-11-12 Where do program ideas come from? How are concepts developed into saleable productions? Who do you talk to about getting a show produced? How do you schedule shows on the lineup? What do you do if a series is in trouble? The answers to these questions, and many more, can be found in this comprehensive, in-depth look at the roles and responsibilities of the electronic media programmer. Topics include: Network relationships with affiliates, the expanded market of syndication, sources of programming for stations and networks, research and its role in programming decisions,

fundamental appeals to an audience and what qualities are tied to success, outside forces that influence programming, strategies for launching new programs or saving old ones. Includes real-life examples taken from the authors' experiences, and 250+ illustrations!

Millennial Monsters Anne Allison, 2006-06-30 Millennial Monsters explores the global popularity of Japanese consumer culture--including manga (comic books), anime (animation), video games, and toys--and questions the make-up of fantasies and capitalism that have spurred the industry's growth.

Pantone: The Twentieth Century in Color Leatrice Eiseman, Keith Recker, 2011-10-19 Pantone, the worldwide color authority, invites you on a rich visual tour of 100 transformative years. From the Pale Gold (15-0927 TPX) and Almost Mauve (12-2103 TPX) of the 1900 Universal Exposition in Paris to the Rust (18-1248 TPX) and Midnight Navy (19-4110 TPX) of the countdown to the Millennium, the 20th century brimmed with color. Longtime Pantone collaborators and color gurus Leatrice Eiseman and Keith Recker identify more than 200 touchstone works of art, products, decor, and fashion, and carefully match them with 80 different official PANTONE color palettes to reveal the trends, radical shifts, and resurgences of various hues. This vibrant volume takes the social temperature of our recent history with the panache that is uniquely Pantone.

Afrofuturism Ytasha L. Womack, 2013-10-01 2014 Locus Awards Finalist, Nonfiction Category In this hip, accessible primer to the music, literature, and art of Afrofuturism, author Ytasha Womack introduces readers to the burgeoning community of artists creating Afrofuturist works, the innovators from the past, and the wide range of subjects they explore. From the sci-fi literature of Samuel Delany, Octavia Butler, and N. K. Jemisin to the musical cosmos of Sun Ra, George Clinton, and the Black Eyed Peas' will.i.am, to the visual and multimedia artists inspired by African Dogon myths and Egyptian deities, the book's topics range from the alien experience of blacks in America to the wake up cry that peppers sci-fi literature, sermons, and activism. With a twofold aim to entertain and enlighten, Afrofuturists strive to break down racial, ethnic, and social limitations to empower and free individuals to be themselves.

Cinema in the Digital Age Nicholas Rombes, 2017-12-19 Have digital

technologies transformed cinema into a new art, or do they simply replicate and mimic analogue, film-based cinema? Newly revised and expanded to take the latest developments into account, *Cinema in the Digital Age* examines the fate of cinema in the wake of the digital revolution. Nicholas Rombes considers *Festen* (1998), *The Blair Witch Project* (1999), *Timecode* (2000), *Russian Ark* (2002), and *The Ring* (2002), among others. Haunted by their analogue pasts, these films are interested not in digital purity but rather in imperfection and mistakes—blurry or pixilated images, shaky camera work, and other elements that remind viewers of the human behind the camera. With a new introduction and new material, this updated edition takes a fresh look at the historical and contemporary state of digital cinema. It pays special attention to the ways in which nostalgia for the look and feel of analogue disrupts the aesthetics of the digital image, as well as how recent films such as *The Social Network* (2010) and *The Girl with the Dragon Tattoo* (2011)—both shot digitally—have disguised and erased their digital foundations. The book also explores new possibilities for writing about and theorizing film, such as randomization.

Paratextualizing Games Benjamin Beil, Gundolf S. Freyermuth, Hanns Christian Schmidt, 2021-11-30 Gaming no longer only takes place as a <closed interactive experience> in front of TV screens, but also as broadcast on streaming platforms or as cultural events in exhibition centers and e-sport arenas. The popularization of new technologies, forms of expression, and online services

has had a considerable influence on the academic and journalistic discourse about games. This anthology examines which paratexts gaming cultures have produced - i.e., in which forms and formats and through which channels we talk (and write) about games - as well as the way in which paratexts influence the development of games. How is knowledge about games generated and shaped today and how do boundaries between (popular) criticism, journalism, and scholarship have started to blur? In short: How does the paratext change the text?

Doing Grammar Max Morenberg, 1997 The new edition of this innovative text employs insights from contemporary linguistic theories but builds them into a practical and coherent system that stays firmly rooted within traditional models. Its down-to-earth explanations about how language works are illustrated at every step with diagrams and other visual models. The examples and exercises consist of provocative and intelligent sentences, not desiccated grammar-book examples. Each chapter includes a sentence-analysis exercise with fifty problems. Answers are provided for ten sentences per chapter. A new chapter on how grammar functions in literature and how it is used to improve writing extends the applications of *Doing Grammar* in this second edition, which also includes new introductory chapter outlines and thoroughly revised chapter summaries. The new edition was class tested for over a year. Every page has been re-thought and redefined to make grammatical analysis clear, understandable, useful, and interesting. It will be an

invaluable guide for students in introductory and advanced grammar and composition courses and for all readers seeking to discover how language works.

The Annihilation Score Charles Stross, 2016-06-28 From the Hugo Award-winning author of *The Rhesus Chart* comes another supernatural case from *The Laundry Files*... Dominique O'Brien—her friends call her Mo—lives a curious double life with her husband, Bob Howard. To the average civilian, they're boring middle-aged civil servants. But within the labyrinthine secret circles of Her Majesty's Government, they're operatives working for the nation's occult security service known as the Laundry, charged with defending Britain against dark supernatural forces threatening humanity. Unfortunately, one of those supernatural threats has come between Mo and Bob. An antique violin, an Erich Zahn original, made of white human bone, was designed to produce music capable of slaughtering demons. Mo is the custodian of this unholy instrument. It invades her dreams and yearns for the blood of her colleagues—and her husband. And despite Mo's proficiency as a world-class violinist, it cannot be controlled...

The Psychology of Superheroes Robin S. Rosenberg, Jennifer Canzoneri, 2008-02-09 This latest installment in the *Psychology of Popular Culture* series turns its focus to superheroes. Superheroes have survived and fascinated for more than 70 years in no small part due to their psychological depth. In *The Psychology of Superheroes*, almost two dozen psychologists get

into the heads of today's most popular and intriguing superheroes. Why do superheroes choose to be superheroes? Where does Spider-Man's altruism come from, and what does it mean? Why is there so much prejudice against the X-Men, and how could they have responded to it, other than the way they did? Why are super-villains so aggressive? The Psychology of Superheroes answers these questions, exploring the inner workings our heroes usually only share with their therapists.
