Mind-Blowing Modular Origami Byriah Loper 2016-10-11  
Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper polyhedra to bristling buckyballs that are reminiscent of sea urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex geometric paper constructions ever assembled. While

many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear "wire frame" approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a featured artist at the "Surface to Structure" exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you create look fantastic on your desk or shelf!

**The Sleeping Beauty and Other Fairy Tales from the Old French - Illustrated by Edmund Dulac** Arthur Quiller-Couch 2013-04-16 The Sleeping Beauty and Other Fairy Tales from the Old French contains a collection of stories, adapted and translated by Sir Arthur Thomas Quiller-Couch. Quiller-Couch was a Cornish writer, who published under the pen-name of Q. Originally penned by such famed folklorists as Charles Perrault and Madame D'Aulnoy, these stories proved to their original seventeenth century readers that such works were important, enjoyable, as well as thought-provoking. The stories in this particular text encompass favourites such as 'Sleeping Beauty, 'Blue Beard', 'Cinderella, or the Little Glass Slipper', and 'Beauty and the Beast.' This edition of Sleeping Beauty and Other Fairy Tales further contains a set of dazzling coloured illustrations by a true master of the 'Golden Age'; Edmund Dulac (1882 - 1953). A French artist himself, Dulac had a particular affinity with these Old French tales as well as a rigorously painterly background. The end result was beautifully coloured images which further refined the wonderful stories of Perrault, D'Aulnoy - retold by Arthur Quiller-Couch. Appearing alongside the text, his illustrations enhance and elucidate the enchanting narratives. [Princess Bedtime Stories Special Edition](#) Disney Book Group 2014-11-25

**Magic** Ernesto De Martino 2015 The work of Ernesto de Martino is relatively unknown outside of Italian intellectual circles, but with a growing interest in his ethnographic and theoretical work, he is now widely considered to be one of the great anthropologists and historians of religion of the early twentieth century. *Magic: A theory from the south* (first published in Italian as *Sud e Magia*) is de Martino's stunning ethnography of ceremonial magic in southern Italy (Luciana/Basilicata), an intimate "other" to Western European civilization. Rigorous and detailed analyses of evil eye, possession, witchcraft, religious belief, "binding," exorcism, and various magical practices lead de Martino to question the historical, ideological, ritual,

psychological, and pragmatic grounds of the arts of enchantment. The question here is not whether magic is irrational or rational, but why it came to be perceived as a problem of knowledge in the first place. De Martino's response is contextualized within his wider, pathbreaking theorization of ritual, as well as his politically sensitive reading of the south's subaltern culture in its historical encounter with Western science. In addition to the ethnography, De Martino's historical anthropology traces the development of "jettatura" in Enlightenment Naples as a paradigm of the complex dynamics between hegemonic and subaltern cultures. Far ahead of its time, this first English edition (annotated and translated by Dorothy Louise Zinn) stands to be as relevant as ever as anthropologists (among others) continue to theorize modernity's continued tryst with magical thinking. 1st Edition Publication Data: [1959] 2001. *Sud e magia*. Milano: Feltrinelli Editore. ISBN: 9788807816758.
