In Mortal Combat John Toland  
2016-05-31 A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. *In Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from

the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

How to Build a Café Racer Doug Mitchel 2013 What's old is new again, and the newest trend on the block is Cafe Racers. Written by well-known motorcycle and automotive author Doug Mitchel, "How to Build a Cafe Racer" starts with a history lesson. While those first bikes were built in the UK for racing from cafe to cafe, the current rage for Cafe Racers has definitely spread to the US. Converting a stock motorcycle to a Cafe Racer requires more than a fairing and a few decals. The book starts with chapters on planning and choosing an appropriate bike, followed by chapters that detail the modifications that will likely be embraced by anyone converting a stocker to a rocker. From shocks and tires to engine modifications, Doug's book lays out each type of modification and how it's best carried through. The center of the book holds a gallery of finished bikes. These are not just Triumphs or Nortons, but nearly every brand imaginable from Japan, Italy, the UK, and Germany. The final chapters include two, start-to-finish cafe builds. This is the chance for the reader to see how professional shops take a stock Honda, Triumph, or Ducati and convert it into a fast, sexy, and functional Cafe Racer, ready to race from cafe to cafe on Saturday night, or around the race track on Sunday afternoon.

Motorcycle Messengers Jeremy Kroeker  
2015-10-01 "Motorcycle Messengers" is a collection of travel stories from some of the leading writers in the genre . . . plus a few people you've never heard of. Consider it a sample pack of authors. Stuff a copy into your saddlebag, read a story by the fire, and discover your new favourite motorcycle travel writer. Lois Pryce exploits her dead grandmother and an imaginary husband to access the Congo. Neil Peart finds his rhythm through the curves of North Carolina. Geoff Hill breaks a Royal Enfield, falls in love, and becomes a hookah hooligan in Iran. Mark Richardson puts his foot up and makes connections in Rwanda. Christopher P. Baker nearly crashes as he crushes crustaceans in Cuba. Ted Simon ponders humanity while observing a rescue at sea off the coast of Malaysia.

*The Night Market* Jonathan Moore  
2018-01-16 "The book's tone is Chanderlesque, the conspiracy worrying Carver and Jenner expands to Pynchonian proportions, and the physical ick they encounter might have oozed out of a Cronenberg movie."—Washington Post "It's Miami Vice meets The Matrix, and George Orwell is hosting the party."—Pittsburgh Post-Gazette It's late Thursday and Inspector Ross Carver is at a crime scene: a dead man covered in an unknown substance that's eating through his skin. Suddenly, six FBI agents burst in and haul Carver outside and into a disinfectant trailer, where he's shocked unconscious. On Sunday he wakes up in his own bed, his neighbor Mia—who he's barely spoken to—by his side. He can't remember the past three days. Mia says police officers brought him home and told her he'd been poisoned. Carver can't disprove her, but his gut says to keep her close. A mind-bending, masterfully

plotted thriller—"like Blade Runner if it were written by Charles de Lint or Neil Gaiman"\*—The Night Market follows Carver as he works to find out what happened to him, soon realizing he's entangled in a massive web of conspiracy. And that Mia knows a lot more than she lets on. "Mystery and thriller readers will find much to love here, but fans of science fiction also should embrace this incredible work."—Bookreporter \*Publishers Weekly, starred review

*BMW - Geschenkausgabe Im Schuber* Rainer W. Schlegelmilch 2013 The sign of the white and blue propeller circle has signified BMW since the 1930s: sporty, dynamic, radiating brilliance and timeless elegance. The mention of BMW brings to mind legendary cars like the pre-war 328, the 507 from the 1950s, or the M1 of the 1970s. But the name BMW also stands for attempts to lend mobility to a wide class of buyers, for example with the Isetta and the 700. In an historical overview, this book first tells the legendary history of the Bavarian automobile firm and goes back to its beginning, the traces of which are lost in the darkness of the First World War. This book introduces all car models in chronological order, from the "Wartburg Motorwagen" of 1898 to the Mini Roadster of 2012. Includes the following new models: BMW1 F20 BMW3 F30 BWM5 F10 BMW6 Gran Coupé BMW X3 F25 BMW X5 E70 Mini Countryman Mini Roadster R59

**The Upper Half of the Motorcycle**  
Bernt Spiegel 2019-08-06 Bernt Spiegel's The Upper Half of the Motorcycle was a best-selling motorcycling book in its original German with multiple editions and printings to its credit. Now translated into English, its provocative message is available to a wider audience. Spiegel's metaphor considers the rider and the motorcycle as a single unit, the rider being the upper half. Taking a multidisciplinary approach, the author draws on anthropology, psychology, biology, physics, and other disciplines to analyze the theory and function of the man-machine unit. Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves. The ultimate goal for riders is the integration of the man-machine interface and subsequent skill development to the point of virtuosity. Spiegel considers the various aspects of motorcycle riding that must be understood, practiced, and mastered before virtuosity can be attained. Many anecdotes, supplementary material, and in-depth treatment of specialized topics is contained in sidebars and footnotes. Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set.

**Motocourse 2020-2021** Michael Scott 2021-02-16 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea

looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alavaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

**BMW R100RS** Bill Stermer 2011-12-15 When the R100RS first came on the scene in 1977, it caused a complete sensation. Sporting a revolutionary wedge-shaped fairing that offered the rider near total enclosure, it provided unparalleled riding ease and protection. When fitted with optional saddlebags it sang the song of the open road that BMW riders cherished: long distances at high speeds with comfort and convenience. The first modern street motorcycle with a frame-mounted fairing, it was not only the most stunning BMW model, but with its new 980cc flat-twin motor, also the most powerful. Soon, a vast aftermarket sprang up around it with all sorts of updates for its suspension, handling, and power, as well as a large community of loyal fans and owners which exists to this day. Stermer's timeless book is the engaging story of where that legendary motorcycle came from including an interview with designer Hans Muth, what it was like to ride, and what it meant to motorcycling, told well and with luscious full-color photographs. Stermer's insightful insider's view of this

storied machine shows why it continues to live on as one of the most recognizable and groundbreaking machines of our times.

**Achtung-Panzer!** Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*BSA Bantam* Owen Wright 2003-08-31 The diminutive BSA Bantam is one of the icons of British motoring in the twentieth century. It was not fast, or glamorous, or particularly well built; but it was cheap, easy to ride and reasonably reliable. It was an introduction to motoring for thousands of men and women in the fifties and sixties, and it still holds an important place in the memory of many. This book charts the huge success of the little bike from Birmingham that started its life in pre-war Germany and went on to conquer the world.
