Personal note: Hello, my darlings! I am incredibly pleased to present **BUFFERING: Unshared Tales of a Life Fully Loaded!** As a big fan of memoirs, I wanted to try my hand at writing about the events of my life that deserve a little more consideration than can be accomplished in 140-characters or a 6-minute vlog. Now on the cusp of turning 30, I'm ready to expose some parts of my life that I haven't shared before. Before, it was all about privacy, process and time. And now the time has come! I'm ready to put myself out there, for you. I'm a little nervous about all these vulnerable words going into the world, these tales about my love life, the wrestling I've done with faith, how I feel about sex and my family and myself. I've had a lot of trials, a lot of errors, but also a lot of passion. Here's the thing--I've always found comfort in the stories shared by others, so I hope my stories, now that I feel ready to tell them, will bring you some comfort too. And when you read this book please remember: Buffering is just the time it takes to process. Enjoy! Love, Hannah

**Felines of New York** Jim Tews 2015-11-24 Featuring more than 100 photos and quotes from cats in America's most glamorous city, *Felines of New York* exposes the furry underbelly of New York City's most glamorous, self-important residents. Where New York humans are accomplished, interesting, thoughtful, creative, and even sometimes tragic figures, the cats are simply cats. They do not stand in line for brunch, or have season tickets to the Met, or go indoor-rock climbing in Brooklyn. They do not shop at thrift stores or nibble finger sandwiches at the Russian Tea Room. And they certainly do not give a flying f\*ck about the Yankees. No, the felines of New York bathe, purr, bask languidly in the sun, and occasionally cast baleful glances at the humans who provide them food and shelter. They are proof that behind every New Yorker, there lays a cat just waiting to destroy their IKEA futon and then eat their faces off when they die.

**Bad with Money** Gaby Dunn 2019-01-01 "Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun...Dunn's book delivers." --Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her "Bad With Money" podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. "That's a very personal question," they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In *Bad With Money*, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh\*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that--even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers--we can all start taking control of our financial futures.

**Carrion Ecology and Management** Pedro P. Olea 2019-07-22 Carrion, or dead animal matter, is an inherent component of aquatic and terrestrial ecosystems worldwide, and is exploited by a wide diversity of organisms from different trophic levels, including microbes, arthropods and vertebrates. Further, carrion consumption by scavengers, i.e. scavenging, supports key ecosystem functions and services such as recycling nutrients and energy, disposing of carcasses and regulating disease spread. Yet, unlike dead plant matter, dead animal decomposition has received little attention in the fields of ecology, wildlife conservation and environmental management, and as a result the management of carrion for maintaining biodiversity and functional ecosystems has been limited. This book addresses the main ecological patterns and processes relating to the generation and consumption of carrion both in terrestrial and aquatic ecosystems. It also discusses a number of conservation concerns and associated management issues, particularly regarding the increasing role of human-mediated carrion in ecosystems. Lastly, the book outlines future research lines in carrion ecology and management, and identifies the major challenges for scavengers and scavenging processes in the Anthropocene.

**A Choir of Honest Killers** Buddy Wakefield 2019-10-15 A Choir of Honest Killers, Buddy Wakefield's first new book of prose and poetry in eight years, is an episodic novel exploring his creative climb out of the gritty underbelly of anger and shame, into the dissolution of tragedy addiction and the unmistakable clearing ahead. Having toured the world performing poetry for the last eighteen years, navigating the blunt loneliness of life on the road and a rotating cast of unlikely antagonists, Buddy keenly unpacks topics like the intense overcompensation of his masculinity, growing up terribly queer in the south, the detriments of public shame, a toxic fear of intimacy and the devastation of a failed major relationship. Wakefield revs up for his relay race to the light with refreshing humor and insight by finding meditation as the love of his life, accepting bliss and learning to let go. While the poetry in A Choir of Honest Killers undeniably throws plenty of insightful punches, it's the through-story about moving from devastation to frequent serendipity that gives the book pace. But it's worth noting, as Wakefield writes, "Perfect probably isn't what you think it is." Wakefield is ultimately catapulted through collective misery, landing in a sustainably joyful life governed by awareness, equanimity and a constant thorough understanding of impermanence. A Choir of Honest Killers is the result of a lifetime of intense work, fervent seeking and largely takes aim at an exodus from tragedy addiction, into the transmutation of his self-admitted density.

**How to Make White People Laugh** Negin Farsad 2016-05-24 From the acclaimed writer, director, and star of the hit documentary The Muslims are Coming! comes a memoir in essays about growing up Iranian-American in a post-9/11 world and the power of comedy to combat racism. Negin Farsad is an Iranian-American-Muslim female stand-up comedian who believes she can change the world through jokes. And yes, sometimes that includes fart jokes. In this candid and uproarious book, Farsad shares her personal experiences growing up as the "other" in an American culture that has no time for nuance. In fact, she longed to be black and/or Mexican at various points of her youth, you know, like normal kids. Right? RIGHT? Writing bluntly and hilariously about the elements of race we are often too politically correct to discuss, Farsad takes a long hard look at the iconography that still shapes our concepts of "black," "white," and "Muslim" today--and what it means when white culture defines the culture. Farsad asks the important questions like, What does it mean to have a hyphenated identity? How can we actually combat racism, stereotyping, and exclusion? Do Iranians get bunions at a higher rate than other ethnic groups? (She's asking for a friend.) How to Make White People Laugh tackles these questions with wit, humor, and incisive intellect. And along the way, you might just learn a thing or two about tetherball, Duck Dynasty, and wine slushies. **#VERYFAT #VERYBRAVE** Nicole Byer 2020-06-02 If you've ever seen a fat person post a bikini shot on social media, you already know that they are #verybrave, because apparently existing in a fat body in public is #brave. **Everything's Trash, But It's Okay** Phoebe Robinson 2019-10-15 New York Times bestselling author and star of 2 Dope Queens Phoebe Robinson is back with a new, hilarious, and timely essay collection on gender, race, dating, and the dumpster fire that is our world. Wouldn't it be great if life came with instructions? Of course, but like access to Michael B. Jordan's house, none of us are getting any. Thankfully, Phoebe Robinson is ready to share everything she has experienced to prove that if you can laugh at her topsy-turvy life, you can laugh at your own. Written in her trademark unfiltered and witty style, Robinson's latest collection is a call to arms. Outfitted with on-point pop culture references, these essays tackle a wide range of topics: giving feminism a tough-love talk on intersectionality, telling society's beauty standards to kick rocks, and calling foul on our culture's obsession with work. Robinson also gets personal, exploring money problems she's hidden from her parents, how dating is mainly a warmed-over bowl of hot mess, and definitely most important, meeting Bono not once, but twice. She's struggled with being a woman with a political mind and a woman with an ever-changing jeans size. She knows about trash because she sees it every day--and because she's seen roughly one hundred thousand hours of reality TV and zero hours of Schindler's List. With the intimate voice of a new best friend, Everything's Trash, But It's Okay is a candid perspective for a generation that has had the rug pulled out from under it too many times to count.

**Bird by Bird** Anne Lamott 2007-12-18 From the acclaimed New York Times bestselling author: An essential volume for generations of writers young and old. The twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. For a quarter century, more than a million readers--scribes and scribblers of all ages and abilities--have been inspired by Anne Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father--also a writer--in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'" **Head, Thoracic, Abdominal, and Vascular Injuries** Hans-Jörg Oestern 2011-01-19 There currently is a clear tendency to an increasing number of accidental injuries in elderly people, in sport injuries and car crashes also in countries which recently joined the European Union and candidates to join the European Union. Patients expect very good functional results even after serious injuries. But in contrast to this development, Trauma Surgery as an independent field, is not yet established in all European countries. Therefore, it seems mandatory to compile a book that covers the state-of-the-art in Trauma Surgery. The book also serves to harmonise the practice of Trauma Surgery within the European Union, and to prepare for the exam of the U.E.M.S.

**Vitamin C in Health and Disease** Anitra C. Carr 2018-08-09 This book is a printed edition of the Special Issue "Vitamin C in Health and Disease" that was published in Nutrients

**Neuroendocrine Neoplasia Management** Giordano Beretta 2021-08-14 This book provides the most recent update on the management of neuroendocrine neoplasia (NEN), a term covering all tumors of various organs and/or with a particular histology, including MEN (multiple endocrine neoplasia) related tumors, MiNEN (mixed

neuroendocrine-non-neuroendocrine neoplasms), NEC (neuroendocrine carcinoma) and Merkel's carcinoma. NENs are heterogeneous in their biology, clinical presentation and prognosis, showing a great variability in aggressiveness and therapy response. As a result, their treatment is based on a large spectrum of options. The standard therapies are surgery in early disease, various loco-regional procedures in certain conditions and mostly of a palliative nature in metastatic disease. At present, thanks to our increased understanding of molecular signaling pathways, several pharmacological approaches can be used in patients with advanced NENs. Somatostatin analogs display both anti-tumor effects and symptom control. Novel peptide-radio-receptor treatment (PRRT) is used in patients with well differentiated tumors. The agents targeting angiogenesis and/or PI3K/AKT/mTOR pathway, alone or in combination with analogues, have provided encouraging results in advanced disease. The first part of the book focuses on the history, epidemiology and the most relevant scientific achievements, covering the discoveries in genetic and molecular biology, the endoscopic techniques with guided biopsy, and the metabolic imaging with hybrid PET/CT and MRI/CT. It particularly highlights the emerging strategies in therapy, surgery and mini-invasive surgery as well as loco-regional and systemic treatments, including targeted therapy and/or biological therapies. The second part then explores the management of NENs of various anatomical origins and/or with peculiar biology. It describes the range of the current options and the most relevant results from the clinical trials. This informative book provides valuable insights for all those interested in the management of neuroendocrine neoplasia.

**I Like to Watch** Emily Nussbaum 2020-06-09 From The New Yorker's fiercely original, Pulitzer Prize-winning culture critic, a provocative collection of new and previously published essays arguing that we are what we watch. "Emily Nussbaum is the perfect critic—smart, engaging, funny, generous, and insightful."—David Grann, author of Killers of the Flower Moon NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • Chicago Tribune • Esquire • Library Journal • Kirkus Reviews From her

creation of the "Approval Matrix" in New York magazine in 2004 to her Pulitzer Prize-winning columns for The New Yorker, Emily Nussbaum has argued for a new way of looking at TV. In this collection, including two never-before-published essays, Nussbaum writes about her passion for television, beginning with Buffy the Vampire Slayer, the show that set her on a fresh intellectual path. She explores the rise of the female screw-up, how fans warp the shows they love, the messy power of sexual violence on TV, and the year that jokes helped elect a reality-television president. There are three big profiles of television showrunners—Kenya Barris, Jenji Kohan, and Ryan Murphy—as well as examinations of the legacies of Norman Lear and Joan Rivers. The book also includes a major new essay written during the year of #MeToo, wrestling with the question of what to do when the artist you love is a monster. More than a collection of reviews, the book makes a case for toppling the status anxiety that has long haunted the "idiot box," even as it transformed. Through it all, Nussbaum recounts her fervent search, over fifteen years, for a new kind of criticism, one that resists the false hierarchy that elevates one kind of culture (violent, dramatic, gritty) over another (joyful, funny, stylized). I Like to Watch traces her own struggle to punch through stifling notions of "prestige television," searching for a more expansive, more embracing vision of artistic ambition—one that acknowledges many types of beauty and complexity and opens to more varied voices. It's a book that celebrates television as television, even as each year warps the definition of just what that might mean.
