I Like Him, He Likes Her Phyllis Reynolds Naylor, 2010-05-18 Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's is trying to look on the bright side. Monograph by Chris Ware Chris Ware,2020-10-06 For the first time in his career, Chris Ware presents a comprehensive, behind-the-scenes autobiographical visual monograph, and opens a revealing window into the worlds he inhabits. Similar to Chip Kidd

Book One and Shepard Fairey Covert to Overt, this book serves as a personal chronicle of a contemporary iconic illustrator, and is a must-have for those interested in illustration, graphic novels, and pop culture. The first and much-anticipated monograph by multi-award-winning cartoonist and graphic novelist Chris Ware, chronicling his influential twenty-five-year career.

In the Studio Todd Hignite, 2007-09-21 Nine critically acclaimed cartoonists and graphic novelists invite us into their studios to discuss their art and inspirations. These studio visits with some of today's most popular and innovative comic artists present an unparalleled look at the cutting edge of the comic medium. The artists, some of whom rarely grant interviews, offer insights into the creative process, their influences and personal sources of inspiration, and the history of comics. The interviews amount to private gallery tours, with the artists commenting, now thoughtfully, now passionately, on their own work as well as the works of others. The book is generously illustrated with full-color reproductions of the artists' works, including some that have been published and others not originally intended for publication, such as sketchbooks and personal projects. Additional illustrations show behind-the-scenes working processes of the cartoonists and

particular works by others that have influenced or inspired them. Through the eyes of these artists, we see with a new clarity the achievement of contemporary cartoonists and the extraordinary possibilities of comic art.
