How to Build a Cathedral Malcolm Hislop 2012 Gothic cathedrals are monuments to God, witnesses to the historic power of the Church, and symbols of the faith of the thousands of believers who contributed to their creation. They are also astonishing feats of construction and engineering, from a period before steel-making, machine tools and computer simulation; breathtaking in their scale and grandeur even hundreds of years after the religious impulse that produced them has largely faded away. How to Build a Cathedral is a visual exploration of the building of these masterpieces, from the initial groundplan to the topping out of the spire. Illustrated throughout with beautiful engravings, it looks at each element of the structure in turn, explaining the process of construction and the methods that were used. At intervals though the book, special gatefold pages offer a detailed snapshot of the evolution of the building as it rises into the heavens. A 16-page colour section allows for appreciation of stained glass and decorative stonework. With text written by a leading architectural historian, How to Build a Cathedral is an illuminating portrait of the genius of the medieval architect.

Lost Boston Jane Holtz Kay 2006 At once a fascinating narrative and a visual delight, Lost Boston brings the city's past to life. This updated edition includes a new section illustrating the latest gains and losses in the struggle to preserve Boston 's architectural heritage. With an engaging text and more than 350 seldom-seen photographs and prints, Lost Boston offers a chance to see the city as it once was, revealing architectural gems lost long ago. An eminently readable history of the city's physical development, the book also makes an eloquent appeal for its preservation. Jane Holtz Kay traces the evolution of Boston from the barren, swampy peninsula of colonial times to the booming metropolis of today. In the process, she creates a family album for the city, infusing the text with the flavor and energy that makes Boston distinct. Amid the grand landmarks she finds the telling details of city life: the neon signs, bygone amusement parks, storefronts, and windows plastered with images of campaigning politicians—sights common in their time but even more meaningful in their absence today. Kay also brings to life the people who created Boston—architects like Charles Bulfinch and H. H. Richardson, landscape architect and master park-maker Frederick Law Olmsted, and such colorful political figures as Mayors John Honey Fitz Fitzgerald and James Michael Curley. The new epilogue brings Boston's story to the end of the twentieth century, showing elements of the city's architecture that were lost in recent years as well as those that were saved and others threatened as the city continues to evolve.

Rules for Reformers Douglas Wilson 2014-12-02 In Rules for Reformers, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. Rules for Reformers is a little bit proclamation of grace, a little bit Art of War, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting techniques. As motivating as it is provocative, Rules for Reformers is just plain good to read. Thanks to Saul Alinsky's Rules for Radicals: A Practical Primer for Realistic Radicals—a book well-beloved by Barack Obama, Hillary Clinton, and many others—for much of the shrewd advice, and for none of the worldview.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Slave Stealers Timothy Ballard 2018-09-04 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
