**Introductory Grammar of Amharic** Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War,

Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Socially Responsible Higher Education Budd L. Hall,Rajesh Tandon,2021-05-03 Listen to the podcast! Is the university contributing to our global crises or does it offer stories of hope? Much recent debate about higher education has focussed upon rankings, quality, financing and student mobility. The COVID-19 pandemic, the climate crisis, the calls for decolonisation, the persistence of gender violence, the rise of authoritarian nationalism, and the challenge of the United Nations Sustainable Development Goals have taken on new urgency and given rise to larger questions about the social relevance of higher education. In this new era of uncertainty, and perhaps opportunity, higher education institutions can play a vital role in a great transition or civilisational shift to a newly imagined world. Socially Responsible Higher Education: International Perspectives on Knowledge Democracy shares the experiences of a broadly representative and globally dispersed set of writers on higher education and social responsibility, broadening perspectives on the democratisation of knowledge. The editors have deliberately sought examples and viewpoints from parts of the world that are seldom heard in the international literature. Importantly, they have intentionally chosen to achieve a gender and diversity balance among the contributors. The stories in this book call us to take back the right to imagine, and 'reclaim' the public purposes of higher education.

The Archaeological Imagination Michael Shanks,2016-06-03  
Archaeology is a way of acting and thinking—about what is left of the past, about the temporality of what remains, about material and temporal processes to which people and their goods are subject, about the processes of order and entropy, of making, consuming and discarding at the heart of human experience. These elements, and the practices that archaeologists follow to uncover them, is the essence of the archaeological imagination. In this extended essay, renowned archaeological theorist Michael Shanks offers his colleagues and students a window on this imaginative world of past and present and the creative role archaeology can play in uncovering it, analyzing it, and interpreting it.

*Chasing the Devil* David Reichert,2005-12-27 Discusses the twenty year pursuit of Sheriff David Reichert for the Green River Killer.

**Tag Town** Martha Cooper,2008 Every graffiti writer began his or her writing career with a tag. For those who learn to read tags, a world of aesthetic expression and communication opens up.

Tags are a universal language - the jazz of lettering. The photos in Tag Town, dating back to the 1960s, introduce readers to the origins of New York style graffiti, containing rare photos of work on the street by Jean-Michel Basquiat, Keith Haring and Kenny Scharf. Accompanying text is based on interviews with New York graffiti pioneers Blade, Part I and Snake I.

**My Buddy Bill** Rick Cleveland, 2010 THE STORY: On a visit to the White House, a dog-loving screenwriter reprimands Buddy, the First Dog, for piddling on the Oval Office rug. Little does he know that this canine interaction will spark a lasting friendship with President Clinton and gi

Constructing Cultures Susan Bassnett, André Lefevere, 1998 This collection brings together two leading figures in the discipline of translation studies. The essays cover a range of fields, and combine theory with practical case studies involving the translation of literary texts.

**The Kid** Bill Nowlin, 2005 Ted Williams was a giant of a man, the likes of whom America may never see again. Enshrined in Cooperstown in 1966, in the National Baseball Hall of Fame, Ted Williams was also the first living athlete to be honored with his own Museum - the Ted Williams Museum and Hitter's Hall of Fame.

Gender in Translation Sherry Simon, 2003-09-02 Gender in Translation is a broad-ranging, imaginative and lively look at feminist issues surrounding translation studies. Students and teachers of translation studies, linguistics, gender studies and women's studies will find this unprecedented work invaluable and thought-provoking reading. Sherry Simon argues that translation of feminist texts - with a view to promoting feminist perspectives - is a cultural intervention, seeking to create new cultural meanings and bring about social change. She takes a close look at specific issues which include: the history of feminist theories of language and translation studies; linguistic issues, including a critical examination of the work of Luce Irigaray; a look at women translators through history, from the Renaissance to the twentieth

century; feminist translations of the Bible; an analysis of the ways in which French feminist texts such as De Beauvoir's *The Second Sex* have been translated into English.

**Overtourism** Harald Pechlaner, Elisa Innerhofer, Greta Erschbamer, 2019-09-02 Overtourism explores a growing phenomenon in tourism that is currently creating tensions in both urban and rural tourist destinations worldwide. This volume proposes a framework for a series of possible solutions and management strategies for dealing with overtourism and the various negative impacts that large quantities of tourists can impose. Questioning the causes of this phenomenon – such as increased prosperity and mobility, technological development, issues of security and stigma for certain parts of the world, and so on – this book supposes that better visitor management strategies and distribution of tourists can offset the negative impacts of overtourism. Individual chapters focus on a range of destinations including Venice, Barcelona and Dubrovnik, as well as UNESCO cultural and natural heritage sites, where local political actors and public authorities are not always able to deal with the situation effectively. Integrating research and practice, this book will be of great interest to upper-level students, researchers and academics in tourism, development studies, cultural studies and sustainability, as well as professionals in the field of tourism management.

**Performing Without a Stage** Robert Wechsler, 1998 *Performing Without a Stage* is a lively and comprehensive introduction to the art of literary translation for readers of foreign fiction and poetry who wonder what it takes to translate, how the art of literary translation has changed over the centuries, what problems translators face in bringing foreign works into English and how they go about solving these problems. This book will also be of interest to translators, writers, editors, critics, and literature students, dealing as it does, often controversially, with such matters as the translator's fidelity to the author, the publishing

and reviewing of translations, the nearly nonexistent public image of the stageless translator, and the value for writers and scholars of studying and practicing translation.

**With a Little Help** Cory Doctorow, 2015-07-16 With a Little Help is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays

and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. With a Little Help consists of 12 stories, all reprints except for Epoch (commissioned by Mark Shuttleworth).
